ART OF EARTHMOVING EQUIPMENT AND METHODS

THIRD EDITION

JAGMAN SINGH

A.A. BALKEMA/ROTTERDAM/1986

CONTENTS

<i>Preface to the Third Edition</i>	v
<i>Foreword</i>	vii
<i>Preface to the First Edition</i>	ix
<i>Acknowledgements</i>	xi
CHAPTER ONE: EARTHMOVING MACHINES	1
Role of Computers 1; Tractor Dozers 3; Bulldozer Production 10; Ripping 16; Crawler Tractor vs Tyred Tractors 28; Consideration in Machine Section 28; New Trends in Earthmoving Industry 29; Motorgrader 32; Wheel Loader 37; Shovels 47; Draglines 58; Buckets 63; Hoes 66; Hydraulic Excavators 67; Belt Loader 68; Cableway Excavators 69; Open Pit Mining Equipment 76; Scrapers 97; Scrapers vs Bottom Dumps 121; Hauling Units 128; The Systems Approach to Equipment Management 135; After Sales Service 146.	
CHAPTER TWO: MAINTENANCE	149
Introduction 149; Maintenance Shop 150; Preventive Maintenance 157; The Principles of Equipment Maintenance 164; Centralised Lubrication 181.	
CHAPTER THREE: COST ANALYSIS	191
Introduction 191; Depreciation 193; Planned Equipment Replacement 195; Material Characteristics 201; Questions with Solutions 208; Problems 234; Rules of Thumb 236; Earthmoving Formulae 237; Mathematical Formulae 238; Key to Symbols Used 239.	

CHAPTER FOUR: DRILLING AND BLASTING	240
Explosives 240; Principles of Drilling and Blasting 250; Types of Cuts in Tunnelling 308.	
CHAPTER FIVE: TUNNELLING	331
Geological Survey 331; Some Tunnel Predrainage Projects 336; Methods of Tunnelling Driving 340; Selection of Equipment 349; Pneumatic Transportation Systems 357; Rating the Performance of a Hard Rock Tunnel Boring Machine 399; Shield Tunnelling 403; Mechanical Boring of a Mixed Face Tunnel 409; Heavy Duty Roadheading Machines 413; New Austrian Tunnelling Method (NATM) 417; Tunnel Boring Machines vs Drilling and Blasting 423; Driving Small Size Tunnels 425; Operating Cycle 426; Predicting Costs and Progress 427; Raise Boring 434; Recent Developments in Raise Boring Tunnelling and Shaft Boring 440; Tunnel Boring Machines 445; Shaft Boring 449; Lining Segments for Shield Driven Tunnels 457; Shotcrete 461; Design of Circular Ribs on Beas Project, India 470; Precasting Jumbo 470; Composition of Concrete for Concrete Pumps 496; Ventilation of Long Tunnels 499; The "Laser" in Construction 501.	
CHAPTER SIX: VIBRATORY COMPACTION	536
Tests for Effectiveness on Vibratory Rolling 541; Construction and Compaction Effect of Various Types of Compaction Equipment 555; Application of Vibratory Rollers 561; Summary 571.	
CHAPTER SEVEN: SAFETY PROGRAMME	572
<i>Index</i>	585
