

Floods and Flood Management

edited by

A. J. SAUL

University of Sheffield, U.K.

KLUWER ACADEMIC PUBLISHERS

DORDRECHT / BOSTON / LONDON

CONTENTS

| | | |
|--|--|-----|
| FOREWORD : | By Professor Adrian Saul, University of Sheffield, UK | |
| OPENING ADDRESS : | The Development of Weather Radar for use in Flood Management <i>Dr Peter Walsh, NW Region NRA, UK</i> | |
| KEYNOTE ADDRESSES : | Real-Time Flood Forecasting : Models, Methods and Software in Hydroinformatics Era <i>Dr Jean A Cunge, LHF, France</i> Flood Sediment Transport <i>Prof Aronne Armanini, University of Trento, Italy</i> | |
| BASIN MANAGEMENT, PLANNING AND THE ENVIRONMENT | | |
| Flood Management in Rockhampton, Australia <i>D M Sargent : CMPS&F Pty Ltd, Australia</i> | | 3 |
| Standards of Service for Flood Defence - A Framework for Planning and Monitoring <i>C J Birks, M L Pickles, C W Bray : NRA; K Taylor : Gould Consultants, UK</i> | | 17 |
| Formulation of Basin Management Plans for the Northern New Territories, Hong Kong <i>N R Townsend : Binnie Consultants Ltd; J M Bartlett : Binnie & Partners, UK</i> | | 39 |
| Catchment Management Planning in the National Rivers Authority of England and Wales <i>G L Davies : NRA Southern Region, UK</i> | | 49 |
| Washland Management in the Ouse Washes Conservation Area <i>N Pask : NRA Anglian Region, UK</i> | | 69 |
| Environmental Impact Assessment (EIA) and Policy Analysis as Tools for Combatting Flooding in the Netherlands <i>G A Beaufort : Ministry of Transport, Public Works and Water Management, Netherlands</i> | | 91 |
| Incorporating Expert-Decision Support Systems with Traditional Decision Approaches of Managers for Improved Flood Control <i>M M Brennan, J P O'Kane : University College Cork, Ireland</i> | | 105 |
| FLOOD - Computer System and its Implementation <i>J Chojnacki, J Filimowski, R Konieczny : Institute of Meteorology & Water Management, Poland</i> | | 109 |
| Fluvial Flooding : Decision Making in Floodplain Management <i>I S Heijne : Bahtie Dobbie Ltd, UK</i> | | 119 |

HYDROLOGIC AND HYDRAULIC MODELLING

| | |
|--|-----|
| Analysis and Use of Peaks-Over-Threshold Data in Flood Estimation <i>P Naden : Institute of Hydrology, UK</i> | 131 |
| Flood Frequency of the Worlds Largest Catchments <i>M C Acreman, F A K Farquharson : Institute of Hydrology, UK</i> | 145 |
| Sensitivity of a Semidistributed Hydrologic Model to Rainfall Estimation Accuracy <i>M Borgia, M Di Luzio : University of Padua, Italy</i> | 157 |
| Multipurpose Mathematical Model for Flood Management Studies and Real Time Control <i>T Van Kalken, K Havnø : Danish Hydraulic Institute, Denmark</i> | 169 |
| Management of the Aire and Calder Washlands - Performance Evaluation and Optimisation by Numerical Modelling <i>D Pelleymounter : NRA Yorkshire Region; R H Falconer : Babtie Group, UK</i> | 187 |
| Mathematical Modelling of the River Beam <i>Y Sun : Flynn & Rothwell; G Jensen, R Pethick : NRA Thames Region, UK</i> | 211 |
| Digital Ground Models in Hydro-Environmental Engineering <i>G Thompson, I G Bush : Binnie & Partners, UK</i> | 223 |
| Survey and Characteristics of the Submersion Wave due to the Sudden Opening of the Bottom Outlet of Alto Mora Dam (Italy) <i>G Braschi, M Gellati : University of Pavia, Italy</i> | 231 |
| 2-D Dam Break Flooding Waves - Comparison Between Experimental and Calculated Results <i>W Bechteler, H Kulisch, M Nujic : University of Federal Armed Forces, Germany</i> | 247 |

FLOOD FORECASTING AND WARNING

| | |
|---|-----|
| An Information System for Flood Early Warning <i>J G Grijzen, X C Snoeker, C J M Vermeulen : Delft Hydraulics, Netherlands; M ElA Moh, Nur : Ministry of Irrigation and Water Resources; Y A Mohamed : Hydraulic Research Station, Sudan</i> | 263 |
| Construction and Assessment of Flood Forecasting Scenarios in the Hydrological Forecasting System HFS/SPH <i>J A Cunge, M Erlich, J L Negre, J-L Rahuel : LHF, France</i> | 291 |
| From Real-Time Flood Forecasting to Comprehensive Flood Risk Management Decision Support Systems <i>E Todini : University of Bologna, Italy</i> | 313 |
| Integrating Forecast Effects and Operational Behaviour in Designing the Rotterdam Storm Surge Barrier <i>J P F M Janssen, R E Jorissen : Ministry of Transport, Public Works and Water Management, Netherlands</i> | 327 |

RISK, HAZARD AND DAMAGE ASSESSMENT

| | |
|---|-----|
| Flood Vulnerability Analysis and Climatic Change : Towards a European Methodology <i>E Penning-Rowell, M Fordham, C Green : Middlesex Polytechnic, UK; B Peerbolte : Delft Hydraulics, Netherlands; F N Correia, M da G Saraiva : Instituto Superior Technico, Portugal; W Pflügner : Braschel and Schmitz, Germany; J Rocha : LNEC, Portugal; J-P Torterotot : CERGRENE (ENPC-ENGREF), France; A Van der Veen : University of Twente, Netherlands</i> | 343 |
|---|-----|

| | |
|---|-----|
| Analysis of Individual Real-Time Responses to Flooding and Influence on Damage to Households <i>J P Torterotot : CERGRENE (ENPC-ENGREF); L A Kauark-Leite : SAFEGE; P-A Roche : Direction Départementale de l'Equipement de la Gironde, France</i> | 363 |
|---|-----|

| | |
|---|-----|
| Multisensor Analysis of the Flood Event of November 23-25th, 1987 on the Arno Basin <i>P La Barbera, L Lanza, M Paolucci, R Minciardi, F Siccardi : University of Genova; F Marzano, A Mugnai : CNR-IFA, Italy</i> | 389 |
|---|-----|

| | |
|--|-----|
| Flood Risk Analysis by Finite Element Simulation - A Case Study <i>R Feldhaus, G Rouvé : RWTH Aachen, Germany</i> | 405 |
|--|-----|

| | |
|---|-----|
| Reducing Flood Risks <i>P J Floyd : Risk & Policy Analysts Limited, UK</i> | 419 |
|---|-----|

FLOOD DEFENCE SYSTEMS

| | |
|--|-----|
| How can Shrewsbury be Protected from Floods? <i>R A Bailey, R J Mains-Smith : NRA Severn Trent Region, UK</i> | 439 |
|--|-----|

| | |
|--|-----|
| The Possibility of an Integrated Approach to the Provision of Storage in the Thames Region of the National Rivers Authority <i>W D Rylands, J K Lee : NRA Thames Region, UK</i> | 451 |
|--|-----|

| | |
|--|-----|
| Flood Protection on Headwater Streams <i>M Brilly : University of Ljubljana, Slovenia</i> | 467 |
|--|-----|
