

COMPTE RENDUS DU DIXIEME CONFERENCE EUROPEENNE DE MECANIQUE
DES SOLS ET DES TRAVAUX DE FONDATIONS / FLORENCE / 26-30 MAI 1991

M220

DEFORMATION DU SOL ET DEPLACEMENTS DES STRUCTURES X CEMSTF

Rédacteur
ASSOCIAZIONE GEOTECNICA ITALIANA

VOLUME 4

Séance d'ouverture / Rapport général / Conférences sur invitation / Discussions / Séance de clôture / Contributions italiennes / SIMSF Vice President pour l'Europe: Rapport 1991 / Divers

PROCEEDINGS OF THE TENTH EUROPEAN CONFERENCE ON SOIL MECHANICS
AND FOUNDATION ENGINEERING / FLORENCE / 26-30 MAY 1991

DEFORMATION OF SOILS AND DISPLACEMENTS OF STRUCTURES X ECMFE

Editor
ASSOCIAZIONE GEOTECNICA ITALIANA

VOLUME 4

Opening session / General report / Invited lectures / Discussions / Closing session / Italian contributions / ISSMFE Vice President for Europe: Report 1991 / Miscellaneous

The purpose of the final conference has been to bring together the results of the work carried out during the Conference, following, in clarify a number of controversial issues and to focus on the most important research areas and their effects. The results and the achievements of each chapter are considered in the volume of the Conference Proceedings.

A retrospective analysis of both the papers that have been presented at the Conference and the results of the discussions that have been held clearly indicates that valuable information and data have been gathered for the availability of practicing engineers and researchers in their attempt to predict and to model the behaviour of geotechnical structures within the range of actions of intensity lower or equal to those corresponding to the serviceability limit state.

Preface	V
Préface	
Organization of the conference	XIII
Organisation de la conférence	
Sponsorships	XV
Parrainage	
Geotechnical engineering exhibition	XIX
L'exposition de l'ingénierie géotechnique	
Conference programme	XXV
Programme de la conférence	
Photographic report	XXXI
Rapport photographique	
Opening session	
Séance d'ouverture	
Opening session	1107
Séance d'ouverture	
General report	
Rapport général	
Some recent developments on the behaviour of shallow foundations	1115
Quelques développements récents sur le comportement des fondations superficielles	
Invited lectures	
Conférences sur invitation	
Deformations of soils and displacements of structures subjected to combined static and cyclic loads	1147
Déformations des sols et déplacements des structures sujets aux chargements combinés statiques et cycliques	
Deformation problems in the Italian structurally complex clay soils	1159
Soil properties and earthquake ground response	1171
Propriétés géotechniques et réponse des sols aux tremblements de terre	
How the dilatancy of soils affects their behaviour	1189
De la manière dont la dilatance des sols influence leur comportement
