

# Foundation Engineering: CURRENT PRINCIPLES AND PRACTICES

## Volume 1

Proceedings of the Congress

sponsored by the  
Geotechnical Engineering Division and the  
Construction Division of the American Society  
of Civil Engineers

co-sponsored by the  
Illinois Section, ASCE and  
Northwestern University

in cooperation with the  
American Concrete Institute  
Association of Engineering Geologists  
Association of Soil and Foundation Engineers  
Deep Foundations Institute  
International Association of Foundation Drilling  
Structural Engineers Association of Illinois

Evanston Illinois  
June 25-29, 1989

**Edited by Fred H. Kulhawy**

Published by the  
American Society of Civil Engineers  
345 East 47th Street  
New York, New York 10017-2398

CONTENTS

Volume 1

A. Site Characterization and Geological Aspects of Foundation Engineering

Site Characterization of Yorktown Formation for New Accelerator  
Paul W. Mayne..... 1  
Pressuremeter Evaluation of Glacial Till Bearing Capacity in Toronto Canada  
Timothy G. Orpwood, Shaheen A. Ahmad, and Kenneth R. Peaker..... 16  
Foundation Engineering Constraints in Karst Terrane  
Joseph A. Fischer and Robert Canace..... 29  
Influence of Geologic Development on Horizontal Stress in Soil  
Fred H. Kulhawy, John F. Beech, and Charles H. Trautmann..... 43  
Location of Geologic Discontinuities by Geophysical Techniques  
G.W. Blaney, A. Li, and M.W. Lewis ..... 58

B. Interpretation of Laboratory and In-Situ Data for Foundation Design

Screw Plate Test for Drained and Undrained Soil Parameters  
Sunil K. Mital and Gunther E. Bauer..... 67  
Some Dilatometer Test Results in Pennsylvania and New York  
Alireza Boghrat..... 80  
An Evaluation of Pile Design in Fraser River Delta Using In-Situ Tests  
P.K. Robertson, R.G. Campanella, M.P. Davies, and A. Sy..... 92  
Cyclic Behavior of Natural Overconsolidated Clay in Two Loading Modes  
M.W. O'Neill, T.W. Dunnivant, and C.J. Belleman ..... 106  
First-Order Estimation of  $K_0$  in Sands and Clays  
Fred H. Kulhawy, Christina Stas Jackson, and Paul W. Mayne..... 121  
Collapsible Soils in the Antelope Valley—California  
Fred Romani and Bruce A. Hick..... 135

C. Foundations in Metastable Soils

Identification and Characterization of the Collapsing Alluvial Soils of  
the Western United States  
George H. Beckwith and Lawrence A. Hansen ..... 143  
State-of-the-Practice Mitigation Measures for Collapsible Soil Sites  
William N. Houston and Sandra L. Houston ..... 161

A Use of Geostatistics to Predict the Occurrence of Collapsing Soils	
Edward A. Nowatzki, Molla M. Ali, and Donald E. Myers	176
Characterization of a Site Underlain by Deep Collapsing Soils	
Lawrence A. Hansen, Robert D. Booth, and George H. Beckwith	191
Foundations of Expansive Soils in Northern Virginia	
Lawrence C. Rude and Farshad Amani	209
Helical Bearing Plate Foundations for Underpinning	
Stan Rupiper and William G. Edwards	221
Chemically Induced Foundation Heave	
Richard W. Stephenson, Brian A. Dempsey, and John B. Heagler, Jr.	1633

#### D. Foundations on Improved Soils

Design and Construction of Stone Column Reinforced Cofferdams	
R. Robert Goughnour and John S. Jones, Jr.	231
Design Methodology for Foundations on Stone Columns	
Robert C. Bachus and Richard D. Barksdale	244
Power Pole Foundations in Reclaimed Mining Area	
Kou-Roung Chang	258
Jet Grout Stabilization of Peaty Soils Under a Railway Embankment in Italy	
Battista DePaoli, Renato Tornaghi, and Donald A. Bruce	272
Jet Grouting for Underpinning and Excavation Support	
George K. Burke, Lawrence F. Johnsen, and Robert A. Heller	291
Jet Grouting to Construct a Soilcrete Wall Using a Twin Stem System	
Kenneth B. Andromalos and Herff N. Gazaway	301
Case Histories of Shallow Foundations on Improved Soil	
Antal Partos, Joseph P. Welsh, Peter W. Kazaniwsky, and Edward Sander	313
Compaction Grouting as an Aid to Construction	
Richard M. Berry and Harry Grice	328
Consolidation Grouting Operations for Kirkwood Penstock	
Kenneth D. Weaver	342
Deep Soil Mixing at the Jackson Lake Dam	
Christopher R. Ryan and Brian H. Jasperse	354
Settlement Characteristics from In-Situ Tests in Fly Ash Structural Fills	
Richard M. Hillis and Ramesh C. Gupta	368
Improving Properties of Active Clay by Sand Admixtures	
S. Leelanitkul	381
Ground Modification for a 14-Story Structure Over a Deep Peat Deposit	
Thomas P. Venema, C.R. Waletzko, and Frank J. Swekosky	392

#### E. Excavation for Foundations in Rock Without Blasting

Concrete Removal Techniques with Potential for use in Rock	
Roy L. Campbell, Sr.	406
Rock Excavation with Boom Mounted Hydraulic Impact Hammers	
Jack T. Anderson and William N. Papineau	418

Rock Excavations in Downtown Toronto	
J. Bennett, S.A. Ahmad, and K.R. Peaker	432
Fracturing of Rock Using Expansive Soundless Chemical Demolition Agents	
Charles M. Schram and Jimmie Hinze	447
Rock Excavation with Microwaves: A Literature Review	
J. Carlos Santamarina	459

#### F. Physical Modeling of Foundations

Model Tests for Bearing Capacity of Vertically Reinforced Foundations in Sand	
Vijay K. Puri and Braja M. Das	474
Static Behavior of Piles in Cemented Calcareous Sands	
C.Y. Lee, M.A. Allman, and H.G. Poulos	485
Tangent Modulus of Piles Determined From Strain Data	
Bengt H. Fellenius	500
Load Transfer in Deep Foundations Under Repeated Axial Loading	
John P. Turner and Fred H. Kulhawy	511
Modeling of Displacement Piles in Sand Using a Pressure Chamber	
C. Vipulanandan, D. Wong, M. Ochoa, and M.W. O'Neill	526
On the Critical Relative Displacement of Pile Shaft and Surrounding Soil	
Myoung Mo Kim, Eun-Chul Shin, and Hon-Yim Ko	542
The Influence of Cyclic Loading on the Lateral Load Response of Groups of Piles	
Dan A. Brown	553

#### G. Numerical Modeling of Foundations

Numerical Modeling of Interface Behavior for Drilled Shaft Foundations	
Under Generalized Loading	
Patrick W.-W. Wong, Fred H. Kulhawy, and Anthony R. Ingraffea	565
Investigation and Modeling of Soil-Structure Interface Properties	
Patricia A. Lee, William F. Kane, Eric C. Drumm, and Richard M. Bennett	580
Fact or Friction: A Review of Soil Response to a Laterally Moving Pile	
Trevor D. Smith	588
Subgrade Models for Soil-Structure Interaction Analysis	
John S. Horvath	599
Beams on Elastic Foundations: A New Approach	
C.V. Girija Vallabhan and Y.C. Das	613
Settlement of Strip Foundations on Regularly Jointed Rock Masses	
John P. Carter and Habibollah Alehossein	625
A Geotechnical Analysis System With Applications for Drilled Shaft Foundations	
Kirk L. Gunsallus, Fred H. Kulhawy, and Anthony R. Ingraffea	640
Ultimate Capacity of Deep Foundation by a Rigid-Plastic Analysis	
Ronald Y.S. Pak and Takeshi Tamura	654
Settlement of Single Piles	
Reda M. Bakeer, Sayed M. Sayed, and Lourdes Leyva	666

Numerical Analysis of Vertically Loaded Pile Groups	
M.C. McVay, F.C. Townsend, D.G. Bloomquist, M.O. O'Brien, and J.A. Caliendo	675
CUFAD: A Computer Program for Compression and Uplift Foundation Analysis and Design	
Charles H. Trautmann, Fred H. Kulhawy, and Vito J. Longo	691
Newneg: Microcomputer Program for Downdrag on Piles	
Jean-Louis Briaud and Hubert Porwoll	706

#### H. Foundation Response to Dynamic Loading

Transient Dynamic Response Analysis of Embedded Rigid Foundations	
Toyoaki Nogami, Kazuo Konaagai, and Jun Otani	719
Subgrade Model for Static and Dynamic Response Analysis of Surface Foundations	
Toyoaki Nogami	733
Foundation Studies for Turbine-Generator on Liquefiable Soils	
Fred Romani and Carole Wockner	748

#### I. Foundation Response to Seismic Loading

Ground Failure Damage to Buildings During Earthquakes	
T. Leslie Youd	758
Effect of Site Soil Properties on Seismic SSI Response of Embedded Structures	
Farshang Ostadan, Wen S. Tseng, and Ai-Shen Liu	771
Seismic Response Study of Two Memphis Sites	
Howard H.M. Hwang, Yeng K. Low, and Tzyy-Shiou Chang	786
Simplified Seismic Analysis of Pile Foundations	
H. Wayne Jones, Paul F. Mlakar, and Reed L. Mosher	799
Seismic Response Considerations in Foundation Design	
Peter H. Edinger	814

<b>Subject Index</b>	825
----------------------	-----

<b>Author Index</b>	829
---------------------	-----

#### Volume 2

#### J. Risk, Reliability, Feedback, and Expert Systems in Foundation Engineering

Uncertainties in Offshore Axial Pile Capacity	
Wilson H. Tang	833
Risk Correction Factors for Bearing Capacity Analysis	
Kingsley Harrop-Williams	848
Human Factors and Communication Problems in Foundation Engineering	
J.C. Santamarina and C.J. Turkstra	857

Movement Control of Excavation Support Systems by Iterative Design	
G. Wayne Clough, Elizabeth M. Smith, and Bryan P. Sweeney	869
Some Expert System Applications in Geotechnical Engineering	
Teresa M. Adams, Paul Christiano, and Chris Hendrickson	885
Geotechnical Judgment in Foundation Design	
Thomas F. Wolff	903

#### K. Pile Foundation Practice

Structural Foundation Practices for Highway Projects	
Jerry A. DiMaggio	918
Analysis of Pile Load Tests at Lock and Dam 26	
Jean-Louis Briaud, Bruce H. Moore, and G. Britt Mitchell	925
Comparative Performance of Two Pile Types	
Vinod K. Duggal, Joseph Bohinsky, and Chiang P. Chu	943
Pile Foundation Construction Practice in Stiff Clays with Dense Granular Layers	
Terence K. Wang and Edward E. Rinne	957
Augered Cast-in-Place Piles	
James J. Neate	970
Bearing Pressure—SPT Correlations for Expanded Base Piles in Sand	
William J. Neely	979
Contribution of Soil Freeze to Pile Capacity	
Robert G. Lukas and Ted D. Bushell	991
Owner and Designer Advantages Derived from Use of Construction Consultant	
John W. Fowler	1002

#### L. Drilled Foundations

Some Observations on Undrained Side Resistance of Drilled Shafts	
Fred H. Kulhawy and Christina Stas Jackson	1011
New Design Method for Drilled Shafts from Common Soil and Rock Tests	
L.C. Reese and M.W. O'Neill	1026
Performance of High Capacity Caissons Founded on Decomposed Rock	
D.C. Koutsoftas and L.C. Reese	1040
Load Tests on Bored Friction Piles in Clay	
William H. Hover, Richard M. Simon, and Harry G. Cooke	1054
Skin Friction Load Test for Caissons in Residual Soils	
Ernest Winter, Theodore S. Nordmark, and Timothy Burns	1070
Full Scale Caisson Load Test for the Milwaukee Center	
Alan B. Wagner and Clyde N. Baker, Jr.	1076
Drilled Shafts—A Database Approach	
James H. Long and Scott Shimel	1091
Caissons in Uplift in Sandy Soils	
George H. Glos, III	1109
A Lateral Load Test on Seven Foot Diameter Caissons	
Paul R. Macklin and Nelson N.S. Chou	1122

Interpretation of Load Tests on Drilled Shafts—Part 1: Axial Compression	
Anwar Hirany and Fred H. Kulhawy .....	1132
Interpretation of Load Tests on Drilled Shafts—Part 2: Axial Uplift	
Fred H. Kulhawy and Anwar Hirany .....	1150
Interpretation of Load Tests on Drilled Shafts—Part 3: Lateral and Moment	
Anwar Hirany and Fred H. Kulhawy .....	1160
Nondestructive Testing of Deep Foundations with Sonic Methods	
Larry D. Olson and Clifford C. Wright .....	1173
Geophysical and Nuclear Methods for Non-Destructive Evaluation of Caissons	
Barry R. Christopher, Clyde N. Baker, Jr., and Dennis L. Wellington .....	1184

#### M. Rafts and Shallow Foundations

Bearing Capacity of Shallow Strip Foundation on Strong Clay Underlain by Weak Clay	
Braja M. Das and Vijay K. Puri .....	1199
Rectangular Footing on Nonhomogeneous Elastic Half Space	
John P. Dempsey and Hui Li .....	1212
Effect of Void on Footing Behavior Under Eccentric and Inclined Loads	
M.C. Wang, C.S. Yoo, and C.W. Hsieh .....	1226
Performance of a Large Ribbed Mat on Cohesive Soil	
Lawrence D. Johnson .....	1240
Bearing Capacity of Shallow Foundation on Granular Column in Weak Clay	
Braja M. Das .....	1252
Performance of Different Retention Systems in Similar Soils	
Safdar A. Gill .....	1264
Field Performance of a Soil Nail System in Loess	
Carlton L. Ho, Harald P. Ludwig, Richard J. Fragazy, and K. Ronald Chapman .....	1281

#### N. Case Histories and Foundation Performance

Interpretation of Instrumented Driven Steel Pipe Piles	
Tung-Li Yen, Hsuan Lin, Chung-Tien Chin, and R.F. Wang .....	1293
Issues in Evaluating Combined Repeated Loading of Deep Foundations	
John P. Turner and Fred H. Kulhawy .....	1309
Pile-Drilled Caisson Combination for Foundation of High Rise Building	
A.R. Reginatto and C. Shimel .....	1324
Statistical Analyses of Drilled Shaft and Embedded Pole Models	
A.M. DiGioia, Jr., L. Rojas-Gonzalez, and F.B. Newman .....	1338
Cost Effective Pile Foundation Supports Fast Track Paper Mill	
Jon H. Gould .....	1353
Analysis of Drilled Shafts in a Deep Fill	
Lymon C. Reese, Stephen G. Wright, Shin-Tower Wange, and Mark A. Walsh .....	1366
Evaluation of a 50-Year Old Barge Dock on the Missouri River	
Paul A. Hustad and J. David Langford .....	1381
Combination Drilled Shaft and Driven Pile Foundation for a High-Rise Building	
Cynthia Shaw and Robert D. Darragh .....	1396

Performance of a Building Foundation Designed to Accommodate Large Settlements	
Donald L. York and Oscar Suros .....	1406
Special Bedrock Conditions and a Foundation Project in Greater Boston	
Cetin Soydemir and John T. Humphrey .....	1420
Long Term Performance of High Rise Mat Foundation	
Charles E. Williams .....	1432
Complex High-Rise Foundation Design and Construction	
Clyde N. Baker, Jr., Stephen A. Bucher, and William F. Baker, Jr. ....	1445
A New Combined Footing and Drilled Shaft Foundation Design	
Clyde N. Baker, Jr., Elliott E. Drumright, Martin J. Steer, and John E. Benson .....	1459

#### O. Specialty Foundations and Foundations in Frontier Environments

Sensitivity Study of the Cyclic Axial Capacity of a Single Pile	
Farrokh Nadim, Mohammed Gabr, and Birger Hansen .....	1473
Design, Construction, and Load Testing of a High Capacity Caisson	
Edward C. Densky and Bruce H. Moore .....	1486
Underwater Foundations for a Jack-Up Barge	
Eldon L. Abbott and Stephen J. George .....	1498
Innovative Foundation Designs for Permafrost Conditions in the Arctic	
Carlos P. Bastidas .....	1643
Axial Capacity of Pressure-Injected Piles: A Cavity Expansion Model	
Roy H. Borden and Shuih-Liang Yan .....	1505
Response of Concrete Island Drilling System to Ice Impact Loading	
Shahriar Vahdani, Donald E. Bruggers, and Sherman B. Wetmore .....	1520

#### P. Invited Theme Lectures

Thoughts on the History and Current Practice of Foundation Engineering in North America	
Victor Milligan .....	1533
Interaction of Geology, Construction Practice, and Foundation Design	
William S. Gardner .....	1552
The Role of Analytical Geomechanics in Foundation Engineering	
Harry G. Poulos and Tim S. Hull .....	1578
Impact of Litigation on Foundation Engineering in the United States	
Robert D. Darragh .....	1607
Reliability in Foundation Engineering Practice	
Erik H. Vanmarcke .....	1658
Integration of Research Into Design Practice	
John T. Christian .....	1623

<b>Subject Index</b> .....	825
