5-8 Well Factors	23
5-9 Infinite Line of Wells, Impervious Top Stratum of Finite Length	24
5-10 Infinite Line of Wells, Impervious Top Stratum Extending to Blocked Exit	25
5-11 Infinite Line of Wells, Discharge Below Ground Surface	26
5-12 Infinite Line of Wells, No Top Stratum	26
5-13 Finite Well Lines, Infinite Line Source	28

Chapter 6. Well Design

6-1	Description of Well	35
6-2	Materials for Wells	35
6-3	Selection of Materials	35
6-4	Well Screen	36
6-5	Filter	36
6-6	Selection of Screen-Opening Size	37
6-7	Well Losses	38
6-8	Effective Well Radius	41

Chapter 7. Design of Well Systems

7-1 General Approach	42
7-2 Design Heads	42
7-3 Boundary Conditions	42
7-4 Design Procedures	42
7-5 Infinite Line of Wells, Impervious Top Stratum	42
7-6 Infinite Line of Wells, Wells in Ditch	43
7-7 Infinite Line of Wells with Impervious Top Stratum	n of Finite Length 43
7-8 Computer Programs	45
7-9 Head Distribution for Finite Line of Relief Wells	45
7-10 Well Systems at Outlet Works and Spillways	47
7-11 Well Costs	47
7-12 Seepage Calculations	47
	4-4 Minbe Los Sulva
Chapter 8. Relief Well Installation	
8-1 General Requirements	40
8-2 Standard Rotary Method	49
8-3 Reverse-Rotary Method	49
8-4 Bailing and Casing	Substance & the W evidential \$51-
8-5 Bucket Augers	51
8-6 Disinfection	Sector and the sector of the s
8-7 Installation of Well Screen and Riser Pipes	53
8-8 Filter Placement	sectored to make 53
8-9 Development	borhett Instituted 54
8-10 Chemical Development	muez micriz) 54
8-11 Mechanical Development	al daw some 2 and added of metodok dia 1 54
8-12 Sand Infiltration	57
8-13 Testing of Relief Wells	57 Joseph Constraints and 57
8-14 Backfilling of Well	national spill suppression with W. m. and a nation 57

MAINTENANCE	OF	RELIEF	WELLS
-------------	----	--------	-------

MAINTENANCE OF RELIEF WELLS	V
8-15 Sterilization	58
8-16 Records	59
8-17 Abandoned Wells	59
Chapter 9. Relief Well Outlets	
9-1 General Requirements	60
9-2 Check Valves	60
9-3 Outlet Protection	60
9-4 Plastic Sleeves	60
Chapter 10. Inspection Maintenance and Evaluation	
10-1 General Maintenance	64
10-2 Periodic Inspections	64
10-3 Pumping Tests	64
10-4 Records	65
10-5 Evaluation	65
Chapter 11. Malfunctioning of Wells and Reduction in Effici	ency
11-1 General	66
11-2 Mechanical	66
11-3 Chemical	66
11-4 Biological Incrustation	67
Chapter 12. Well Rehabilitation	
12-1 General	68
12-2 Mechanical Contamination	68
12-3 Chemical Treatment with Polyphosphates	68
12-4 Chemical Incrustations	68
12-5 Bacterial Incrustation	69
12-6 Recommended Treatment	69

12-3	bacterial incrustation	
12-6	Recommended Treatment	

12-7 Specialized Treatment

Appendices

Appendix A	References	71
Appendix B	Mathematical Analysis of Underseepage and Substratum Pressures	73
Appendix C	List of Symbols	83
