# FOUNDATION ENGINEERING

Volume 1  
Soil properties-  
Foundation design and construction

Presses de l'école nationale des  
Ponts et chaussées

# summary

7

Foreword  
J. Kérisel

## Part one : soil properties and site investigation

Physico-mechanical properties of soil B. Mandagaran	11
Soil mechanics and foundation engineering problems in Egypt A.A. Moussa	23
Laboratory testing M. Dupas	27
Measurement of swelling and collapsible soil properties A.F. Abouleid	43
Static and dynamic penetration tests A. Larrière	55
Standard penetration test A.R. Bazaraa	65
Ménard pressuremeter test M. Gambin, R. Frank	73
The self-boring technique R. Frank	87
Experimental determination of dynamic characteristics M. Dupas	101
In situ vane test G. Pilot	109
Measurements results correlations A. Larrière	115

## Part two : shallow foundations

Behaviour of shallow foundations G. Pilot, El Ramli	123
Bearing capacity of strip footings M. Matar, J. Salençon	133
Bearing capacity of circular shallow foundations J. Salençon, M. Matar	159
Bearing capacity solutions for simple cases P. Mouroux	169
Bearing capacity solutions for complex cases G. Pilot	187
Experimental study in full scale of shallow foundation behaviour S. Amar	199
Settlement studies based on laboratory tests A.A. Moussa	205
Settlement studies based on in situ tests P. Mouroux	213
Comparison between predicted and observed settlements of structures S. Amar, F. Baguelin, J.P. Bru, J.F. Jézéquel	225
Future french recommended practice of concrete pavement W. Jalil	231

**Part three : deep foundations**

Theoretical studies of piles using the finite element method F. Baguelin, R. Frank	243
Bearing capacity and settlement prediction of a single pile M. Bustamante	255
The pile loading test M. Bustamante	263
Theoretical study of lateral reaction mechanism of piles F. Baguelin, R. Frank, Y.H. Saïd	275
Horizontal pile capacity F. Baguelin, J.F. Jézéquel, D.H. Shields	293
Behaviour of laterally loaded piles G. Bashat	305
Negative skin friction A.G. Davis	313
Technology of driven and loaded piles – Pile controls during construction L. Mastikian	317
Injected piles G. Jorge	327
Pile control after construction : integrity testing A.G. Davis	341
Faulty workmanship – Deteriorations – Repairs G. Jorge	351
