Contents

Chapter 1	Introduction	1
	Experimental Geomorphology	3
PART I		
DRAINAGE BASIN MORPHOLOGY AND DYNAMICS		9
Chapter 2	The Drainage Network	11
	Models of Drainage Network Growth	11
	<i>Random Growth Models</i>	13
	<i>Deterministic Growth Models</i>	16
	Field Observations of Network Growth	19
	Experimental Studies of Network Growth	21
	<i>Experimental Facilities and Procedure</i>	22
	<i>Erosion Processes</i>	26
	Network Development	27
	<i>Network Evolution</i>	34
	Discussion	56
Chapter 3	Runoff, Sediment Yield, and Placers	59
	Runoff	59
	<i>Experimental Studies</i>	60

Sediment Yield	65
<i>Controls on Sediment Yield</i>	66
<i>Components of Sediment Yield</i>	74
Alluvial Placers	75
<i>Heavy-Mineral Transport and Storage</i>	76
Spatial and Temporal Distribution of Placers	79
<i>Spatial Distribution</i>	81
<i>Temporal Distribution</i>	84
Discussion	86
Chapter 4 Basin Dynamics	89
Rejuvenation	89
<i>Sediment Storage</i>	94
<i>Channel Response to Watershed Erosion</i>	96
Kraft Badlands	112
Discussion	123
PART II RIVERS	127
Chapter 5 Alluvial River Channels	129
River Morphology	135
Experimental Studies	137
Channel Development	142
<i>Straight Channels</i>	143
<i>Meandering-Thalweg Channels</i>	145
<i>Transitional Meandering-Braided Channels</i>	153
<i>Braided Channels</i>	155
Controls on Channel Morphology	160
<i>Morphologic Controls</i>	161
<i>Hydrologic Controls</i>	173
Discussion	186
Chapter 6 Incised Channels	192
Experimental Studies	196
<i>Development of a "Diffusion Model" of Incised-Channel Evolution</i>	212
Discussion	223

Chapter 7	Valleys and Channels in Bedrock	225
	Experimental Studies 228	
	<i>Straight-Channel Incision</i> 231	
	<i>Incised Meanders</i> 238	
	Discussion 245	
Chapter 8	Effect of Active Tectonics	251
	Experimental Studies 253	
	<i>Braided Channel</i> 253	
	<i>Confined Straight Channel</i> 260	
	<i>Meandering Channel</i> 265	
	<i>Floodplain Simulation</i> 267	
	Discussion 272	
PART III		
DEPOSITIONAL LANDFORMS AND SEDIMENTOLOGY		279
Chapter 9	Alluvial Fans	281
	Experimental Studies 284	
	Fluvial Fan Experiment 285	
	<i>Growth Patterns</i> 286	
	<i>Probability of Erosion and Deposition</i> 299	
	<i>Fanhead Trenching</i> 303	
	<i>Reduction of Sediment Yield</i> 314	
	Alluvial Fans Formed by Episodic Events 315	
	<i>Episodic-Fluvial Fan</i> 318	
	<i>Mixed-Mode Fan</i> 322	
	<i>Mudflow Fan</i> 328	
	Discussion 335	
Chapter 10	Fan Deltas	351
	Experimental Study 352	
	Fan Delta Morphology 352	
	<i>Fan Delta Dynamics</i> 358	
	<i>Baselevel Changes</i> 361	
	Discussion 363	

Chapter 11 Alluvial Fan Sedimentology and Stratigraphy	366
Experimental Study	367
<i>Experimental Procedure</i>	367
Sedimentology and Stratigraphy	367
<i>Fluvial Fan</i>	367
<i>Mudflow Fan</i>	370
<i>Fan Delta</i>	372
<i>Heavy-Mineral Concentrations</i>	374
Discussion	377
References	379
Index	403
