

PROCEEDINGS OF THE THIRD INTERNATIONAL CONFERENCE GEOFILTERS 2000
WARSAW/POLAND/5 – 7 JUNE 2000

Filters and Drainage in Geotechnical and Environmental Engineering

Edited by

Wojciech Wolski

*Department of Geotechnics, Warsaw Agricultural University
& GEOTEKO Geotechnical Consultants Ltd., Poland*

Jacek Mlynarek

*Geosynthetic Technologies Centre SAGEOS
& Ecole Polytechnique, Montreal, Canada*

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 2000

Table of contents

Preface	IX
Organization	XI
<i>Special lectures</i>	
Analytical modeling and experimental verification of granular filter behaviour <i>B.N.Indraratna & M.Locke</i>	3
Geo drains and geo filters – Retrospective and future trends <i>J.Mlynarek</i>	27
<i>Theoretical developments</i>	
Development of a new geotextile filtration system <i>Ph.Delmas, O.Artières, H.Schörgenhuber & R.Lugmayr</i>	51
Behaviour of non-woven geotextiles for filtrating particles in suspension <i>Y.-H.Faure, Y.Kehila, F.Olivier & S.Paillez</i>	59
Theoretical and experimental analysis of flow in a turbulent filter layer <i>M.A.Koenders, S.Reymann & H.J.Köhler</i>	67
Analysis of erosion protection measures in partially saturated subsoils <i>N.Roussell, H.J.Köhler & M.A.Koenders</i>	75
The Dipole-Tracer-Method for the investigation of the geohydraulic properties of non-homogenous aquifers <i>U.Saucke</i>	83
Material transport and structure changes at soil-water interfaces <i>H.Spies, H.Haußecker & H.J.Köhler</i>	91
Design of a loaded filter on soil behind sheet piles in two dimensions <i>T.Tanaka & A.Verruijt</i>	99
Data treatment for geotextiles filter particles retention simulation <i>D.C.Urashima & D.Vidal</i>	107

Laboratory testing

Design of granular filters: Guidelines and recommendations for laboratory testing <i>F.Delgado Ramos & M.Locke</i>	115
Short-term investigations of horizontal flow through geotextiles <i>E.Dembicki, W.Cichy & J.Dańczak</i>	123
Influence of vertical stresses on the hydraulic behaviour of nonwoven geotextiles <i>M.G.A.Gardoni, E.M.Palmeira & J.Mtynarek</i>	127
Laboratory simulations of filtration through dam cores made of broadly graded moraines <i>J.Lafleur, P.Montès, V.Alicescu & N.Phuong</i>	135
A device used to determine water permeability of geotextile materials and soils <i>K.Maślanka</i>	145
Gradient ratio tests on artificially clogged nonwoven geotextiles <i>E.M.Palmeira & E.Matheus</i>	149

Filter criteria and design

Effet du nombre de constrictions sur le comportement en filtration des géotextiles non tissés <i>M.Bouihot, O.G.Vermeersch, E.Blond & J.Mtynarek</i>	159
Protective filters for clayey soils in embankment dams <i>V.V.Burenkova</i>	167
Determination of the thickness of a filter based on washing through analysis <i>C.Humes</i>	171
Erosion and filtration of cohesive soils <i>M.Locke, B.N.Indraratna & G.Adikari</i>	175
Effectiveness of bubble point method in characterization of pore-size distribution of filter medium <i>P.M.Schwarz, O.R.Rodriguez, S.K.Bhatia & J.L.Smith</i>	183
Filter design for dam cores of clay, a retrospect <i>P.R.Vaughan</i>	189
Assessing the suitability of filter materials <i>K.Venkatachalam, R.Chitra, K.S.Prasad & A.Kumar</i>	197

Long term behaviour

Comportement hivernal et printanier des chaussées municipales <i>E.Blond, J.Mtynarek, M.Brodeur & L.Chartrand</i>	203
Durability of leachate drainage systems of old sanitary landfills <i>E.Koda & P.Paprocki</i>	215
Ochre biofilm formation on geotextile filters in geotechnical works <i>M.B.Mendonça, M.Ehrlich, M.C.Cammarota & L.Oddoni</i>	223

Long-term performance of geosynthetic drainage systems with filter components <i>J.Müller Rochholz, G.Heerten & K.P.von Maubeuge</i>	231
Analyse comportementale des filtres retardateurs de colmatage biologique pour système de drainage des lixiviats des sites d'enfouissement <i>O.G.Vermeersch, J.Młynarek, G.Scheubel & V.Despaux</i>	237
Reduction factors for the long-term water flow capacity of drainage-geocomposites <i>H.Zanzinger</i>	245
<i>Waste disposal and landfill drainage</i>	
Calculation of the hydraulic efficiency of drains in surface sealing systems with the finite element method <i>A.Bauer & D.Heyer</i>	253
Experimental comparison of geotextile filters for sewage sludge filtration <i>C.Bordier, S.Lambert & Y.Moreau-Le Golvan</i>	259
The capillary barrier as a surface sealing system on sanitary landfills and contaminated sites – Functioning, design bases and application <i>J.Brauns, U.Hoppe & N.von der Hude</i>	265
Filtration effectiveness of geotextiles in cover sealing systems of landfills <i>M.Krug, D.Heyer & R.Floss</i>	271
Application of geosynthetics filter for the bioremediation of contaminated ground <i>Y.Miyata, K.Kogure, T.Kondo, M.Okada & H.Ochiai</i>	279
Testing of slurry trench method employed for deep drainage barrier <i>A.Zajbert, R.Górski, J.Lewiński, L.Sobkowiak & J.Maksymiak</i>	285
Geocomposite drains for side slope stability in landfill covers <i>A.Zhao & G.N.Richardson</i>	289
<i>Hydraulic structures drainage</i>	
Use of river gravel for the core filter of Evinos dam <i>G.T.Dounias, V.Dede & P.R.Vaughan</i>	297
Erosive filtration in the flood embankments subsoil <i>J.Hulla & Z.Kadubcová</i>	305
Nécessité de l'installation des drainages dans les digues insubmersibles <i>P.Król</i>	313
Changes in water permeability of geononwovens used in stabilization of land melioration canals <i>K.Maślanka & K.Molenda</i>	319
Use of geosynthetics in the drainage system of the Domaniów reservoir <i>J.Mirecki & W.Wolski</i>	325
Geomattresses in erosion control – An overview of design criteria <i>K.W.Pilarczyk</i>	331

Geotextiles in revetment structures – A Dutch approach <i>K.W.Pilarczyk & M.Klein Breteler</i>	339
Internal erosion of dams – Assessment of risks <i>P.R.Vaughan</i>	349
Influence of internal erosion on safety of old dams <i>W.Wolski, M.J.Lipiński, A.Fürstenberg & T.Barański</i>	357
Miscellaneous	
Influence du drainage sur la fissuration des chaussées municipales <i>F.Bernard, E.Blond & J.Młynarek</i>	367
Retention of hydraulic backfill in underground mines using geotextiles <i>A.B.Fourie</i>	371
Investigations of consolidation of drained multilayered peaty bases <i>P.A.Konovalov & F.F.Zehniev</i>	379
Influence of matric suction on the drainage performance of polyester geotextiles <i>J.Lafleur, M.Lebeau, Y.-H.Faure, Y.Savard & Y.Kehila</i>	381
Geosynthetics for erosion control systems <i>G.Lombard, J.Młynarek & F.Bernard</i>	389
Author index	396
