

THE DOSING HANDBOOK

Edited by

Professor Gerhard Vetter

ELSEVIER
ADVANCED
TECHNOLOGY

CONTENTS

Preface		ix
PART I	BASICS	1
Chapter 1	Systematology and accuracy of dosing methods for process components G. Vetter	3
Chapter 2	Characterization of bulk solids and liquids for dosing applications G. Vetter and R. Flügel	45
PART II	VOLUMETRIC DOSING METHODS	77
Chapter 3	Dosing of bulk solids with volumetric feeders G. Vetter	79
Chapter 4	Dosing of liquids with metering pumps G. Vetter	125
PART III	GRAVIMETRIC DOSING METHODS FOR BULK SOLIDS AND LIQUIDS: WEIGHING SENSORS, ELECTRONICS, COMMUNICATIONS	231
Chapter 5	Load cells: principles, accuracy, application for weighing machines admitted for verification M. Kochsiek and B. Meissner	233
Chapter 6	Digital force sensor for gravimetric feeding and flow measuring of solid materials R. Stöckli	265

Chapter 7	Smart control strategies for continuous weighing and feeding B. Allenberg and G. Jost	282
Chapter 8	Trends in communication with process automation K.-W. Bonfig	293
PART IV	GRAVIMETRIC DESIGN METHODS FOR BULK SOLIDS AND LIQUIDS: CONTINUOUS WEIGHING FEEDERS	309
Chapter 9	Continuous gravimetric feeding of bulk solids with weighfeeders H. Heinrich	311
Chapter 10	Rotary weighfeeders H. W. Häfner and H. Wolfschaffner	329
Chapter 11	Loss-in-weight feeders K. Hlavica	349
Chapter 12	Agitating devices for volumetric and gravimetric screw feeders G. Vetter and M. Pregler	381
PART V	GRAVIMETRIC DOSING METHODS FOR BULK SOLIDS AND LIQUIDS: DISCONTINUOUS DOSING SCALES	395
Chapter 13	Discontinuous weighing and batching of bulk solids and liquids in gravimetric mode E. Nagel	397
Chapter 14	Discontinuous feed systems for minor ingredient weighing M. Sander	439
Chapter 15	Getting to the heart of the dispensing procedure: achieving the physical limits of optimizing dispensing flow rate and accuracy W. Schäfer, F. Elling and E. Dosch	454
PART VI	DOSING OF BULK SOLIDS, LIQUIDS AND GASES BY FLOW MEASUREMENT AND CONTROL	461
Chapter 16	Solid flow feeders for bulk solids H. Heinrich	463
Chapter 17	Flowmeters for liquids and gases H. Häfelfinger	482
Chapter 18	Continuous and batch dosing of liquids and gases using flow control systems W. Stüber	522

Chapter 19	Direct mass flow and density measurement using the Coriolis-force meter F. de Kraker	563
Chapter 20	Mass flow measurement and control of gases by means of the thermodynamic principle C. van Doorn	577
Chapter 21	Mass flow measurement and control of small liquid flow by means of the thermodynamic principle C. van Doorn	586
Chapter 22	Effect of pulsating flow on Coriolis mass flow meters G. Vetter and S. Notzon	593
Chapter 23	Measuring and dosing of microflows with caloric flow meters G. Vetter and S. Notzon	616
PART VII	DESIGN AND APPLICATION	627
Chapter 24	Systems engineering: feeding of powders and granules H. R. Gericke	629
Chapter 25	Modular designed loss-in-weight feeders M. Sander	649
Chapter 26	Feed systems for plastic compounding processes M. Sander	660
Chapter 27	Dosing of liquids with metering pumps in control systems H. Fritsch	681
Chapter 28	Dosing of highly viscous adhesives E. Schlücker	699
Chapter 29	Electromagnetic flow meters: fill and injection applications F. Otto	721
Chapter 30	Quality assurance and service of continuous weighing and feeding systems B. Allenberg	748
