

Seismic Pressure of Water on Hydraulic Structures

S.G. SHUL'MAN

RUSSIAN TRANSLATIONS SERIES

48

1987

A.A. BALKEMA/ROTTERDAM

Contents

PREFACE	...	vii
BASIC NOTATIONS	...	xv
CHAPTER 1. LITERATURE SURVEY	...	1
1.1. Introductory Remarks	...	1
1.2. Two-Dimensional Problems	...	5
1.3. Three-Dimensional Problems	...	12
1.4. Influence of Water Medium on Frequencies and Modes of Natural Vibrations of Structures	...	16
CHAPTER 2. SOME BASIC FACTS	...	19
2.1. Basic Assumptions for the Description of Liquid Motion	...	19
2.2. Role of Compressibility of Liquid and Possibility of Resonance Vibrations	...	22
2.3. Consideration of Wave Formation on the Free Surface of a Reservoir	...	36
2.4. T. Karman's Approximate Method	...	37
2.5. Conclusion	...	44
CHAPTER 3. INFLUENCE OF ELASTIC RESPONSE OF A STRUCTURE ON THE MAGNITUDE AND DISTRIBUTION OF SEISMIC PRESSURE OF WATER	...	47
3.1. Formulation of the Problem	...	47

3.2. Transverse Vibrations (Bending of a Gravity Dam of Triangular Profile)	. . .	50
3.3. Transverse Vibrations (Shear) of Massive Structures	. . .	60
3.4. Conclusion	. . .	64
CHAPTER 4. TWO-DIMENSIONAL PROBLEMS (EXACT SOLUTIONS)	. . .	66
4.1. Introduction	. . .	66
4.2. Vibrations of the Walls of a Rectangular Reservoir Filled with Liquid	. . .	70
4.3. Axisymmetric Vibrations of a Rectangular Reservoir around Horizontal Axis	. . .	76
4.4. Approximate Consideration of Change in Depth of Reservoir	. . .	82
4.5. Transverse Vibrations of Canyon of Triangular Profile	. . .	93
4.6. Vibrations of Edges of Canyon of Trapezoidal Shape	. . .	105
4.7. Transverse Vibrations of a Canyon of Semicircular Cross Section	. . .	108
4.8. Determination of Hydrodynamic Pressure on the Vibrating Bottom of a Rectangular Reservoir	. . .	113
CHAPTER 5. SOLUTION OF TWO-DIMENSIONAL PROBLEMS BY THE METHOD OF FINITE DIFFERENCES	. . .	118
5.1. Introduction	. . .	118
5.2. Vibrations of an Underwater Massive Structure of Rectangular Profile	. . .	120
5.3. Solution of Mixed-Value Problem— An Example	. . .	129
CHAPTER 6. THREE-DIMENSIONAL PROBLEMS (EXACT SOLUTIONS)	. . .	132
6.1. Introduction	. . .	132

6.2. Axisymmetric Vibrations of a Rectangular Reservoir around a Vertical Axis	. . .	132
6.3. Canyon of Triangular Cross Section	. . .	138
6.4. Canyon of Trapezoidal Cross Section	. . .	146
6.5. Canyon of Semicircular Cross Section	. . .	148
6.6. Determination of Seismic Pressure of Water on Vertical Cylinders	. . .	152
6.7. Approximate Determination of Frequencies of Natural Vibrations of Liquid Volumes	. . .	157
CHAPTER 7. SOLUTION OF CERTAIN PROBLEMS FOR REGIONS OF COMPLEX GEO- METRICAL CONFIGURATION BY THE METHOD OF SUCCESSIVE APPROXIMATIONS	. . .	161
7.1. Illustrative Example	. . .	161
7.2. Dynamic Interaction of a Vertical Cylinder and a Plane Vertical Wall	. . .	165
7.3. Some Specific Problems	. . .	170
BIBLIOGRAPHY	. . .	173
