Contents

Volume 1: The Deep Gas Drilling in the Siljan Impact Structure,
Sweden and Astroblemes

Proceedings of the Third International Symposium on Observation
of the Continental Crust through Drilling held in Mora and Or-
sa, Sweden, September 7th-10th, 1987

General Papers

Siljan Drilling Experiment: Participation of the Gas Re- search Institute F. Fish and A.W. Gorody.....	3
Preparatory Investigations - an Overview P.-O. Karlsson (With 6 Figures).....	10
The Deep Earth Gas Theory with Respect to the Results from the Gravberg-1 Well T. Gold.....	18
Major Questions About Deep Continental Structures G.J. MacDonald (With 3 Figures).....	28
Conclusions - Exploratory Work T. Lindbo.....	49

Technical Papers

Gravberg-1: Well Design and Drilling Preparations A.J. Beswick (With 8 Figures).....	55
Scientific Programme of Well Investigations - an Over- view H. Sandstedt.....	66
Drilling of the Gravberg-1 - Review and Operational Pro- blems P.L. Moore and T.L. Brittenham (With 5 Figures).....	71

Scientific Papers

The Gravity Field of the Siljan Ring Structure D. Dyrelius (With 6 Figures).....	85
Electrical Conductivity Structure Around the Gravberg Well L.B. Pedersen, P. Zhang and T. Rasmussen (With 5 Figures).....	95
Early Results of the Electric Wireline Logging in the Gravberg-1 Well G. Rissler-Åkesson (With 6 Figures).....	104
Interpretation of the Seismic Reflectors in the Grav- berg-1 Well C. Juhlin (With 5 Figures).....	113
Geochemical Studies, Gravberg-1 Well, Sweden; Integra- tion of Well Site and External Laboratory Analyses J.R. Castaño (With 9 Figures).....	122
Analysis of Gases in the Gravberg-1 Well A.W.A. Jeffrey, I.R. Kaplan and J.R. Castaño (With 6 Figures).....	134
Light Hydrocarbons in Drill Cuttings from the Grav- berg-1 Borehole T. Laier (With 2 Figures).....	140
Trace Elements in Gravberg Drillhole Samples S. Jovanovic and G.W. Reed Jr (With 3 Figures).....	148
Calcite Crack Cements in Granite from the Siljan Ring, Sweden: Stable Isotopic Results J.W. Valley, S.C. Komor, K. Baker, A.W.A. Jeffrey, I.R. Kaplan and A. Råheim (With 8 Figures).....	156
Fluid Inclusions in Granite from the Siljan Ring Impact Structure and Surrounding Regions S.C. Komor, J.W. Valley, P.E. Brown and B. Collini (With 10 Figures).....	180
Low Temperature Alterations in Granitic Rocks from the Siljan Ring Structure, Central Sweden A.A. Aldahan, K. Ramseyer, S. Morad and B. Collini (With 4 Figures).....	209
Mössbauer Spectroscopic Data of Granitic Rocks from Gravberg-1 Well, Siljan Ring Structure, Central Sweden A.A. AlDahan, T. Ericsson and B. Collini (With 4 Figures).....	217
Investigations of Rocks from the Gravberg-1 Well: Petro- logical and Geochemical Results D. Karlsson (With 2 Figures).....	224

Geochemical Logging in the Siljan Ring J.A. Grau, D.V. Ellis, M.M. Herron, J.S. Schweitzer and G. Rissler-Åkesson (With 6 Figures).....	230
Capture of Deep Earth Gas in Water-Filled Fractures G. Gustafson (With 2 Figures).....	253
Astroblemes	
Physical Aspects on Cratering and Slumping K.B. Broberg (With 12 Figures).....	261
Structural Deformation, Breccia Formation, and Shock Metamorphism in the Basement of Complex Terrestrial Im- pact Craters: Implications for the Cratering Process D. Stöffler, L. Bischoff, W. Oskierski and B. Wiest (With 13 Figures).....	277
Possible Impact Structures in Sweden F.E. Wickman (With 16 Figures).....	298
The Formation of Large Impact Structures and Constraints on the Nature of Siljan R.A.F. Grieve (With 8 Figures).....	328
Geological Setting of the Siljan Ring Structure B. Collini (With 1 Figure)	349
Deep Crustal Structure in the Vicinity of the Siljan Ring C.E. Lund, R.G. Roberts, T. Dahl-Jensen and J. Lindgren (With 3 Figures).....	355
