

PROCEEDINGS OF THE INTERNATIONAL CONGRESS ON TUNNELS AND WATER
MADRID / 12-15 JUNE 1988

TUNNELS AND WATER

*Water and its influence on the design,
construction, and exploitation of
tunnels and underground works*

Edited by

J.MANUEL SERRANO

Spanish Tunnelling Association (AETOS)

VOLUME TWO

3 Water in exploitation

4 Underwater tunnels

5 Hydraulic tunnels

Open session: Micro tunnels

A.A.BALKEMA / ROTTERDAM / BROOKFIELD / 1988

Contents

3 Water in exploitation

Análisis de los daños producidos por la acción del agua en el túnel de Florida y de las medidas correctoras adoptadas <i>Ignacio Busturia & Angel Fernández-Aller</i>	649
Ground water and its treatment in railway tunnels <i>Zhang Chunbao</i>	657
Etanchéité de la ligne D du métro de Lyon <i>J.L.Mahuet</i>	663
Study for icicle prevention by adiabatic treatment in railway tunnel <i>Katsuya Okada</i>	673
La reparación del túnel de la bahía de La Habana <i>Fernando Pérez Monteagudo & Francisco Corratgé</i>	681
Dégénération du revêtement du tunnel ferroviaire San Pedrino à Varese provoquée du délavage de l'eau autour du creux <i>Paolo Stiriti & Sergio Ceriani</i>	685
Clasificación del estado de deterioro de túneles ferroviarios – El parámetro agua <i>L.E.Suarez & A.Asensio</i>	693
Water inflow in tunnelling and its treatment <i>Gao Xun</i>	699
Waterproofing and water drainage in NATM tunnel <i>Zhang Zhidao</i>	707
Silica fume technology for sprayed concrete <i>Theodor A.Bürge & Gustav Bracher</i>	713
Comment obtenir une étanchéité suffisante dans des travaux en souterrain <i>G.La Grange</i>	719
Designs for water and frost prevention in road tunnels <i>A.Grønhaug</i>	725
La réparation de l'étanchéité des ouvrages souterrains <i>G.Hemond</i>	731

Inspection and maintenance of waterway tunnels in hydroelectric plants in TEPCO <i>A.Hirai & M.Maebara</i>	743
Systèmes étanches et isolants pour les tunnels neufs ou existants <i>J.F.Jaby & B.Constantin</i>	751
The effect of corrosive groundwater upon the durability of concrete tunnel lining <i>Luo Jian</i>	759
Water leakage volumes in oil storage caverns in Finland <i>S.Johansson</i>	763
Research and development of segment sealants for use under high water pressure conditions <i>Kazuo Kurihara, Toshi Nomoto, Tōru Watanabe & Toshirō Shindō</i>	769
De-watering and measures against water leakage in tunnel <i>Idolf Maeland</i>	777
4 Underwater tunnels	
Análisis de la efectividad del bulonaje en la excavación del túnel de Gibraltar <i>J.J.Celma, F.A.Izquierdo & F.J.Gómez</i>	783
Investigaciones geológicas para la construcción de un túnel en el Estrecho de Gibraltar <i>M.Esteras & A.Bahmad</i>	789
Pendientes de las rampas de acceso a un eventual túnel ferroviario bajo el Estrecho de Gibraltar <i>D.Elías García González</i>	797
Análisis de los resultados de la sísmica de reflexión en el Estrecho de Gibraltar <i>J.L.López Vilchez, N.G.Sandoval Montero & A.Bahmad</i>	805
Las campañas de toma de muestras del fondo marino en el proyecto de 'Enlace Fijo' del Estrecho de Gibraltar <i>P.Muñoz</i>	811
Características mineralógicas de las arcillas del Campo de Gibraltar – Primeros resultados <i>P.Rodríguez Jiménez, M.D.Ruiz Cruz, F.Carrasco & M.Esteras</i>	815
Estudio geológico-geofísico y fisiográfico del Estrecho de Gibraltar – Resultados de los programas Hércules y Tarik <i>J.L.Sanz, J.Acosta, P.Herranz, C.Palomo & C.San Gil</i>	823
Viabilité d'une galerie de reconnaissance à travers le Détrict de Gibraltar <i>J.M.Serrano & M.Taik</i>	827
Ideas para el diseño de una máquina prototípico para la excavación del túnel de Gibraltar <i>J.M.Serrano, L.Cornejo & J.Vidal Font</i>	833
Effects of previous soil improvement with high pressure grouting in subaqueous tunnels <i>A.Soriano, C.S.Oteo & J.M.Serrano</i>	839
Measures against damage due to salinity in the Seikan tunnel <i>T.Inoue, R.Shimizu & Y.Shibata</i>	847

Sub-aqueous tunneling – Montreal <i>Pierre Cote & Anthony J.Peach</i>	855
Design criteria for immersed tube tunnels – Experiences gained by the autobahn-tunnel under the river Ems <i>Heinz Duddeck, Dieter Rabe & Dieter Winselmann</i>	861
Métro ligne D: Premiers résultats et bilan des chantiers de génie civil <i>J.Ferrand & J.P.Morcrette</i>	869
Immersion engineering and related hydraulic studies for the Conwy tunnel (United Kingdom) <i>D.G.Hamer & R.J.De Jong</i>	877
Shore approach for the pipeline from the Oseberg oilfield in the North Sea to Norway <i>Sigmund Hoel</i>	885
Construction de tunnels par la méthode des caissons immersés, en site totalement urbain – Travaux de la Place Sainctelette à Bruxelles <i>W.De Lathauwer & H.De Smedt-Jans</i>	893
The immersed tunnel as favourable solution <i>V.L.Molenaar</i>	899
Construction of an offshore pipeline terminal tunnel by a forward thrusting method <i>Joseph W.Neudecker Jr. & Martin Cherrington</i>	909
Norwegian sub-sea tunnels – A review with emphasis on water leakages <i>B.Nilsen</i>	913
Leakage prevention measures in an undersea shield driven tunnel <i>M.Okada</i>	919
Norwegian experience with subsea rock tunnels <i>Arild Palmstrom</i>	927
Investigation methodology for subsea rock tunnels <i>Steinar Roald & Ole Kjølseth</i>	935
Conception of the construction of an automobile tunnel under the Vltava river in Prague <i>M.Karel Socha</i>	943
Long and deep undersea road tunnels at Ålesund, Norway <i>Kai A.Sørbråten</i>	947
Premetro to the left bank of the river Scheldt <i>A.Wittemans & E.Hemeryckx</i>	951
Construction of a shield tunnel under the sea <i>O.Yamashita, K.Ono, S.Wasano & I.Kobayashi</i>	959
5 Hydraulic tunnels	
Problems regarding the transport of potable water in a gallery, in pressure pipes or free flow <i>M.Beomonte</i>	967

Experiencias de Iberduero relativas al comportamiento de túneles hidráulicos <i>J.Cajete Baltar</i>	971
Design and constructional aspects of 8.3 km long tunnel in Lower Himalayas for Uh1-III HE project (India) <i>R.S.Dogra & D.P.Goyal</i>	977
Ground improvement measures for crossing a large, heavily water-bearing fault zone <i>P.Egger</i>	985
La mina de Daroca: Primer túnel hidráulico de la edad moderna <i>J.Fuertes Marcuello</i>	991
The construction of hydraulic tunnels for dehydration of postfloatation settling pools <i>S.Galczyński & M.Leszczynski</i>	997
Construction of a sewage tunnel in soft Keuper sandstone with water problems <i>E.Gartung, O.Holzapfel, W.Winkler & M.Schatz</i>	1003
El nuevo túnel de base del empalme de autopistas entre Bolonia y Florencia: Proyecto de utilización de un túnel explorativo y drenaje <i>G.Gentili & B.Stupazzini</i>	1009
Design and constructional aspects of a 30 km long tunnel complex for 1500 Mw Nathpa Jhakri hydro electric project (India) <i>D.P.Goyal</i>	1015
Túnel de conducción Ventanas-Garita <i>Johnny Granados Bloise</i>	1023
Several years of experience with TBM in the excavation of hydroelectric tunnels in Italy <i>N.Innaurato, R.Mancini, L.Stragiotti, E.Rondena & A.Sampaolo</i>	1027
Excavation of hydraulic tunnels at Beas dam <i>M.L.Jain & R.K.Sharma</i>	1037
The use of tunnels in inter-basin transfer water supply schemes in the Republic of South Africa <i>N.M.Krige & J.L.J.van der Westhuizen</i>	1045
Ontario Hydro's recent tunnelling experience <i>Boro Lukajic & Bill Cushing</i>	1053
The building realization of a large cross-section area sewage tunnel laid in an open cut <i>C.Madryas & H.Taszycki</i>	1061
Construcción del túnel Pisayambo-Pucará (Ecuador) <i>Nelson Medina Hidalgo & Carlos Coronel</i>	1067
13.8 km drainage gallery driving <i>Viliam Michalovic, Ladislav Hudák & Michel Bartko</i>	1075
Mejoramiento del tunelaje en suelos blandos mediante inyección simultánea al avance, en escudos de frente abierto <i>Javier Montejano Blanco</i>	1081

Mechanised pipe-jacking on Tyneside <i>A.C.Newman & T.Thompson</i>	1089
Design of a transfer tunnel system, Østoverføringen, at Stor-Glomfjord power scheme <i>Leif Otto Almestrond, Dag Riise & Kjell Erik Stensby</i>	1097
High-speed tunneling in hard rock – A study of the Nyset-Steggje hydroelectric worksite <i>T.Puhakka</i>	1105
To solve sewage treatment underground <i>A.Rosander</i>	1109
Infiltraciones de agua en un túnel durante su construcción y sistemas de captación durante su explotación <i>Roberto Sánchez Trejo</i>	1115
Design of reinforced concrete-lined pressure tunnels <i>A.J.Schleiss</i>	1127
Highlands wastewater tunnel project, Edmonton, Canada <i>Kenneth L.Sorensen & Z.Eisenstein</i>	1135
The Dittaino-Ogliastro linking channel tunnel <i>Tiziano Vecellio</i>	1139
A commentary of Li-tunnel for diverting water from Luan-river to Tianjin municipality <i>Wang Xue-song, Su Sheng-kui & Zhang Loang-jiu</i>	1143
Open session: <i>Microtunnels</i>	
Guided microtunneling equipment for small-diameter utility installation <i>J.E.Mercer</i>	1151
Developments in trenchless technology <i>Donald F.Rees</i>	1159
