

SUBMERSIBLE PUMPS AND THEIR APPLICATIONS

1st Edition

By H. H. ANDERSON

B.Sc.,(Hons) C.Eng.,F.I.Mech.E.,

Life Fellow A.S.M.E.

Consultant Editor, World Pumps

Design Consultant, Weir Pumps Ltd to 1983

Chairman, Pump Committees ISO and BSI to 1982

Henry R. Worthington Medal 1984

Calvin W. Rice Award 1985

THE TRADE & TECHNICAL PRESS LIMITED
MORDEN, SURREY, SM4 5EW, ENGLAND

CONTENTS

SECTION 1 – Fundamentals

1. Introduction. 1–10
2. Units of the Systeme Internationale (SI) 11–14
3. General Review of Submersible and Glandless Pumps 15–18
4. General Hydrodynamic Principles 19–23
5. Pump Performance and Dimensions 24–27
6. Theory of Submersible and Glandless Pumps 28–35

SECTION 2 – Basic Data

7. Shape Number, Flow and Efficiency 37–49
8. Statistical Analysis of Pump Performance. 50–54
9. Entry Conditions and Cavitation 55–62
10. The Determination of Pump Speed and
Dimensions for a Given Duty 63–68

SECTION 3 – Practical Considerations

11. Precision Manufacturers of Hydraulic Passage Surfaces for
Fluid Machines 69–72
12. Pump Type Variations 73–75
13. Planning a Range of Pumps 76–81
14. Losses in Submersible and Glandless Pumps 82–86

SECTION 4 – Materials and Construction of Pumps

15. Construction Materials 87–92
16. Mechanical Design of Submersible and Glandless Pumps 93–100
17. Critical Speeds, Vibration and Noise 101–108
18. Bearings. 109–111
19. Pressure Vessel Aspects. 112–113
20. Mechanical Seals and Other Shaft Sealing Devices 114–119

SECTION 5 – Characteristics and Pipe Systems

21. Approach and Discharge Conditions 121–124
22. Characteristics of Pumps and Pipe Systems. 125–127

SECTION 6 – Operation of Pumps

23. Installation of Submersible and Glandless Pumps	129–131
24. Starting Transient and Emergency Conditions	132–142
25. Testing and Test Codes	143–145
26. Monitoring and Maintenance	146–151

SECTION 7 – Types of Pumps

27. Single Stage Submersible Pumps	153–163
28. Multistage Cellular Pumps	164–167
29. Borehole Pumps	168–173
30. Bowl and Axial Pumps	174–180
31. Submersible Pumps in General	181–188

SECTION 8 – Applications of Submersible Pumps

32. Water Supply Duties	189–193
33. Mine Pumps	194–203
34. Submersible Pumps for Sewage and Similar Duties	204–210
35. Offshore Water Duties	211–216
36. Offshore Oil Duties	217–226
37. Deep Sea Mining	227–230
38. Fluid Storage Caverns	231–234
39. Thermal Power Station Pumps including Nuclear	235–239
40. Offshore Marine and Aerospace Glandless and Submersible Pumps	240–246
41. Refinery, Chemical and Process Plant – Properties of Liquids	247–265
42. Electric Motors	266–272
43. Oil, Water, Gas and Steam Turbines on Glandless Duties	273–274

Appendix A	276–288
Appendix B	289–302
Appendix C	303–310
Appendix D	311–312
Appendix E	313–315

Index	321
Index to Advertisers	326
