COLLEGE BUILDING

Harvard's course in continuity 94

A thoughtful meld of structures, spaces, and paths, the university's building program holds a lesson for every growing campus and every worn-out city.

Sanctuary of sculptured concrete 102

Tuskegee Institute, perhaps the most famed U.S. Negro college, plans a religious building that reflects its architectural heritage and its faith in the future.

Campus in a city back yard 106

Manhattan's New School, around a midblock garden, sets an example in urban design.

ART OF ARCHITECTURE

Carbide unwrapped 92

A first look at the glittering façade and pink sidewalks of the latest high-style skyscraper on New York's Park Avenue: the Union Carbide Building.

Jazz in architecture 110

It makes more fun than the deadly one-one-one-one rhythm of much contemporary design—and better sense than the farfetched romanticism to which many architects are turning.

Artistry in redwood 120

A meticulous house of rustic materials by California Architect Jack Hillmer.

Noteworthy buildings 124

A convertible bank in Alameda, Tex. . . . A swooping clubhouse on a Spokane golf course. . . . A versatile municipal center near Cleveland. . . . A shingled shrine at New Harmony, Ind. . . . Two stores in Maryland and Washington.

Acrobats on steel 134

The fearless structural steel erector is the Nijinsky of the building team—a gallery.

BUSINESS OF BUILDING

Buildings for the space age 116

What architects and engineers are doing on the ground—and under it—is often as spectacular as the high-flying missiles and satellites themselves.

CITIES

Indianapolis goes it alone 130

Backed only by local funds, Indianapolis is running its own renewal race. Question: Will the tortoise be able to sprint for the finish line?

TECHNOLOGY

A building cast in earthen molds 140

Reinforced concrete arches formed in contoured beds beside the site make up the thin-wall roof of a toroidal ice-skating rink in southern California.

Space planes: a new idea in wood 142

An economical, inventive way to span broad structures, with sheets of plywood.
