## Introduction

## Part One <10 m<sup>2</sup>; <10 years

### 1 Wind and Sand

#### Wind versus Bed

##### The Law of the Wall

##### Improving the wind/bed model

#### Lift-Off

##### Holding down by gravity

##### Holding down by cohesion

##### Raising by lift

##### Raising by drag

##### Raising by bombardment

#### Thresholds

##### Grain size

##### The slope of the bed

##### The dynamics of water content

##### Crusts

##### Pellets

#### Sand in Motion

##### Saltation

##### Streamers and other medium-scale patterns of saltating sand
