

# Mineral deposits of Europe

## Volume 1: Northwest Europe

Edited by S. H. U. Bowie, A. Kvalheim  
and H. W. Haslam

Non-metallic minerals editor A. J. G. Notholt  
Production editor M. J. Jones

The Institution of Mining and Metallurgy  
The Mineralogical Society

# Contents

Preface . . . . .	v	Haveri gold-copper deposit . . . . .	65
Steering Committee . . . . .	vii	Kotalahti nickel belt . . . . .	65
Introduction by F. M. Vokes . . . . .	1	Kotalahti nickel deposit . . . . .	67
Geological framework . . . . .	1	Makola and Hitura nickel deposits . . . . .	70
Metallogenic provinces and epochs . . . . .	3	Ahlainen-Kylmäkoski nickel belt . . . . .	72
Precambrian metallogeny . . . . .	3	Vammala (Stormi) nickel deposit . . . . .	72
Phanerozoic metallogeny . . . . .	7	Kylmäkoski nickel deposit . . . . .	72
Economic importance of mineral production of the region . . . . .	11	Other sulphide deposits . . . . .	73
Metal production . . . . .	11	Hällinmäki copper deposit (Virtasalmi mine) . . . . .	73
Non-metallic mineral production . . . . .	13	Korsnäs lead deposit . . . . .	75
Review of economic mineral deposits of the region . . . . .	15	Mätäsvaara molybdenum deposit . . . . .	76
Iron . . . . .	15	Chromite deposits . . . . .	77
Manganese . . . . .	19	Kemi . . . . .	77
Titanium . . . . .	20	Iron-vanadium deposits . . . . .	79
Ferro-alloy metals . . . . .	21	Iron ore deposits in Finland . . . . .	79
Non-ferrous metals . . . . .	25	Otanmäki ilmenite-magnetite deposit . . . . .	80
Miscellaneous metals . . . . .	32	Mustavaara deposit . . . . .	82
Non-metallic minerals . . . . .	33	Magnetite deposits in northern Finland . . . . .	82
Finland by Pauli Isokangas . . . . .	39	Misi region . . . . .	82
Introduction . . . . .	39	Rautuvaara iron deposit . . . . .	83
The mining industry . . . . .	39	Uranium deposits . . . . .	83
Metallogenic provinces . . . . .	41	Paukkajanvaara deposit . . . . .	83
North Karelia copper district . . . . .	43	Non-metallic mineral deposits . . . . .	84
Introduction . . . . .	43	Paakkila anthophyllite-asbestos deposit . . . . .	84
Main geological features . . . . .	43	Lahnaslampi soapstone (talc) deposit . . . . .	84
The Outokumpu association . . . . .	46	Kemiö pegmatites . . . . .	85
Outokumpu copper deposit . . . . .	47	Haapaluoma pegmatite . . . . .	86
Vuonos deposit . . . . .	48	Nilsjä quartzite deposit . . . . .	87
Luikonlahti copper deposit . . . . .	49	Sokli apatite deposit . . . . .	87
Hammaslahti copper deposit . . . . .	50	Ihalainen wollastonite deposit . . . . .	89
Origin of the deposits . . . . .	52	Siilinjärvi apatite deposit . . . . .	89
Vihanti-Pyhäsalmi zinc belt . . . . .	53	Placer gold deposits in Lapland . . . . .	90
Vihanti zinc deposit . . . . .	54	Sweden by E. Grip . . . . .	93
Pyhäsalmi sulphide deposit . . . . .	58	Introduction . . . . .	93
Orijärvi-Aijala ore belt . . . . .	61	History of prospecting . . . . .	95
Main geological features . . . . .	61	Central Sweden (Bergslagen) . . . . .	97
Orijärvi copper-zinc deposit . . . . .	62	Geological setting . . . . .	97
Aijala and Metsämonttu copper-zinc deposits . . . . .	62	History of mining activity . . . . .	100
Tampere schist belt . . . . .	63	Ore deposits . . . . .	100
Ylöjärvi copper-tungsten deposit . . . . .	64	Western Ludvika district . . . . .	104
		Eastern Ludvika district . . . . .	108
		Ljusnarsberg district . . . . .	110
		Nora-Stråssa-Riddarhyttan-Norberg belt . . . . .	113
		Filipstad district . . . . .	120

	Contents
Falun-Garpenberg-Sala sulphide belt . . . . .	122
Northeastern district . . . . .	130
Southern district . . . . .	132
Non-metallic minerals . . . . .	135
South Sweden . . . . .	138
Southeastern Sweden . . . . .	139
Hyperite zone . . . . .	140
Southwestern Sweden . . . . .	141
Non-metallic minerals . . . . .	141
Central Norrland . . . . .	143
Metalliferous minerals . . . . .	143
Non-metallic minerals . . . . .	144
Skellefte district . . . . .	144
Geological setting . . . . .	144
History of development . . . . .	146
Boliden area . . . . .	148
Renström area . . . . .	152
Petikträsk area . . . . .	153
Mensträsk-Elvaberget anticlinorium . . . . .	153
Malånäset anticlinorium . . . . .	154
Kedträsk anticlinorium . . . . .	155
Näsliden dome . . . . .	156
Vindelgransele and Kristineberg anti- clinoria . . . . .	157
Adak dome . . . . .	159
Nickel deposits . . . . .	161
Gold-arsenic veins . . . . .	161
Non-metallic minerals . . . . .	162
Norrbottn . . . . .	163
Geological setting . . . . .	163
Prospecting and mining activity . . . . .	165
Iron ore deposits—introduction . . . . .	166
Apatite-bearing iron ore deposits (Kiruna type) . . . . .	166
Skarn iron ore deposits . . . . .	173
Banded quartz-rich iron ore deposits . . . . .	176
Titaniferous iron ore deposits . . . . .	177
Manganese deposits . . . . .	177
Sulphide deposits . . . . .	178
Uranium . . . . .	184
Non-metallic minerals . . . . .	184
The Caledonides and other Lower Palaeozoic rocks . . . . .	185
Geology of the Swedish Caledonides . . . . .	185
Prospecting and mining activity . . . . .	186
Strata-bound lead deposits of the Cale- donian Front . . . . .	186
Lead-bearing veins in the Caledonides . . . . .	191
Boda lead-zinc veins . . . . .	191
Lead deposits in sediments of the Cam- brian Baltic Sea . . . . .	191
Inner Caledonian sulphide province . . . . .	192
Chromium, nickel and cobalt . . . . .	195
Uranium . . . . .	195
Non-metallic minerals . . . . .	195
Norway by J. A. W. Bugge . . . . .	199
Introduction . . . . .	199
Major tectonic and metallogenetic provinces . . . . .	199
Mineral deposits in the Precambrian of northern Norway . . . . .	202
Sydvaranger quartz-banded iron ore deposits . . . . .	203
Raipas windows . . . . .	206
Finnmarksvidda . . . . .	208
Lofoten Islands . . . . .	210
Mineral deposits in the Precambrian of southern Norway . . . . .	212
Northwestern gneiss complex . . . . .	212
Kongsberg-Bamble Complex . . . . .	213
Ilmenite deposits of Egersund anorthosite province . . . . .	217
Nickel-copper deposits in norites and peri- dotites . . . . .	220
Molybdenum deposits of Rogaland and Vestagder . . . . .	222
Telemark-Setesdal copper sulphide prov- ince . . . . .	224
Quartz and feldspar deposits in granite peg- matites . . . . .	226
Fen carbonatite complex . . . . .	226
Mineral deposits in the Caledonides . . . . .	227
Eocambrian lead belt . . . . .	227
Strata-bound copper-zinc-iron sulphide deposits . . . . .	228
Strata-bound lead-zinc-copper-iron sul- phide deposits . . . . .	236
Fissure vein deposits of copper, lead, zinc, silver and gold . . . . .	238
Sedimentary magnetite-hematite deposits . . . . .	239
Nickel-copper deposits . . . . .	242
Chromite deposits . . . . .	242
Other mineral deposits . . . . .	242
Mineral deposits of Permian age . . . . .	243
Mineral deposits within igneous rocks . . . . .	243
Contact metasomatic deposits . . . . .	244
Vein deposits in Precambrian areas . . . . .	245
Metal resources and production statistics for metallic and non-metallic minerals . . . . .	246
Denmark and Greenland by Henning Sørensen, Bjarne Leth Nielsen and Fritz Lyngsie Jacobsen . . . . .	251
Denmark . . . . .	251
Introduction . . . . .	251
Kaolin and other refined clays . . . . .	251
Moler and diatomaceous earth . . . . .	251
Potash . . . . .	252
Rock salt . . . . .	253
Bromine . . . . .	254
Iron and manganese . . . . .	254
Phosphate rock . . . . .	255
Greenland . . . . .	255
Introduction . . . . .	255

Iron . . . . .	256
Chromium . . . . .	257
Lead and zinc . . . . .	257
Molybdenum . . . . .	258
Cryolite . . . . .	259
Other non-metallic minerals . . . . .	259
Uranium and other elements in the Ili- maussaq intrusion . . . . .	259
United Kingdom by Kingsley Dunham, K. E. Beer, R. A. Ellis, M. J. Gallagher, M. J. C. Nutt and B. C. Webb . . . . .	263
Tectonics, sedimentation, metallogeny . . . . .	263
Mineral deposits in the Caledonides . . . . .	266
Pre-orogenic deposits in the metamorphic Caledonides . . . . .	266
Pre-orogenic deposits formed during Lower Palaeozoic sedimentation . . . . .	266
Deposits linked with Caledonian magmatism . . . . .	269
Late and post-orogenic deposits . . . . .	270
Mineral deposits in the post-Caledonian, pre-Variscan cover . . . . .	280
Deposits in the Old Red Sandstone . . . . .	280
Deposits formed during Carboniferous sedimentation . . . . .	280
Epigenetic deposits in the Carboniferous . . . . .	281
Mineral deposits in the Variscides . . . . .	290
Pre-orogenic deposits . . . . .	290
Deposits linked with Armorican magmatism . . . . .	292
Mineral deposits in post-Variscan cover . . . . .	301
Deposits formed during Permian and Tri- assic sedimentation . . . . .	301
Deposits formed during Jurassic to Pleistocene sedimentation . . . . .	306
Epigenetic deposits . . . . .	313
Ireland by C. E. Williams and P. McArdle . . . . .	319
Introduction . . . . .	319
Orthotectonic (metamorphic) Caledonides . . . . .	321
Paratectonic (slate-belt) Caledonides . . . . .	322
Avoca . . . . .	322
Mineralization associated with Caledonian granites . . . . .	325
Old Red Sandstone . . . . .	326
Lower Carboniferous limestones . . . . .	328
Navan . . . . .	329
Tynagh . . . . .	331
Silvermines . . . . .	333
Gortdrum . . . . .	336
Ballinalack . . . . .	338
Mallow . . . . .	339
Abbeytown . . . . .	339
Ballyvergin . . . . .	340
Keel . . . . .	341
Aherlow . . . . .	341
Genesis of the sulphide deposits . . . . .	341
Upper Carboniferous and later formations . . . . .	343
Iron deposits . . . . .	343
Phosphates . . . . .	343
Kingscourt gypsum deposit . . . . .	343
Conclusion . . . . .	343
Name index . . . . .	347
Subject index . . . . .	350
