

# MODERN WELL DESIGN

**BERNT S. AADNØY**

*Rogaland University Center, Stavanger, Norway*

1. LIST OF SYMBOLS AND UNITS	IX
2. INTRODUCTION TO THE WELL DESIGN PROCESS	1
3. WELLING DESIGN	5
1. Selection of optimal mud weight	4
2. Hydraulic optimization	11
4. MECHANICAL EVALUATION	23
1. Data normalization and correction	23
2. Interpretation of field data	36
3. Fracturing pressures for shallow penetration	53
4. Field evaluation of borehole collapse	55
5. Unintended evaluation	57
5. WELL DESIGN PREMISES	61
1. Well integrity	61

**A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1996**

189 6.6 Design of shallow casing strings  
 192 6.7 Design of the 14 inch intermediate casing string  
 192 6.8 Design of the production casing string

# Contents

202 APPENDIX A: A SYSTEM FOR EXPERIENCE TRANSFER  
 209 A.1 Selection of elements to evaluate  
 209 A.2 Time analysis of field data  
 222 A.3 A simple system for experience transfer

224 APPENDIX B: EVALUATION OF BALLING IN DEEP WELLS  
 224 B.1 Introduction  
 222 B.2 Results from simulation studies

**FOREWORD VII**

**PREFACE IX**

**LIST OF SYMBOLS AND UNITS XI**

**1 INTRODUCTION TO THE WELL DESIGN PROCESS 1**

**2 DRILLING DESIGN 3**

- 2.1 Selection of optimal mud weight 3
- 2.2 Hydraulic optimisation 16

**3 GEOMECHANICAL EVALUATION 32**

- 3.1 Data normalisation and correction 32
- 3.2 Interpretation of field data 36
- 3.3 Fracturing pressures for shallow penetration 53
- 3.4 Field evaluation of borehole collapse 58
- 3.5 Drillability evaluation 72

**4 WELL DESIGN PREMISES 79**

- 4.1 Well integrity 79
- 4.2 Casing sizes and setting depth 86
- 4.3 Completion and production requirements 97

**5 CASING DESIGN 105**

- 5.1 Design criteria 105
- 5.2 Casing test pressure 121
- 5.3 Casing design example 131

**6 DESIGN OF AN HPHT WELL 156**

- 6.1 Introduction 156
- 6.2 Design premises 156
- 6.3 Geomechanical design 160
- 6.4 Design of the mud weight schedule 176
- 6.5 Production casing considerations 184

VI Contents

6.6	Design of shallow casing strings	189
6.7	Design of the 14 inch intermediate casing string	195
6.8	Design of the production casing string	199
APPENDIX A: A SYSTEM FOR EXPERIENCE TRANSFER		209
A.1	Selection of elements to evaluate	209
A.2	Time analysis of field data	209
A.3	A simple system for experience transfer	222
APPENDIX B: EVALUATION OF BALLOONING IN DEEP WELLS		224
B.1	Introduction	224
B.2	Results from simulation studies	225
B.3	Coupling between pit gain and mud density	231
B.4	The gas problem	233
B.5	Summary	233
