Wichita State University, USA

PERGAMON PRESS

OXFORD · NEW YORK · BEIJING · FRANKFURT

SÃO PAULO · SYDNEY · TOKYO · TORONTO

Contents

1. Introduction, Scope and Purpose of Applied Statistics	1
2. Classification and Tabulation of Frequency Distributions	6
3. Distribution Curves, Cumulative Frequency Curves, Special Representations, and Logarithmic Class Intervals	12
4. Averaging	18
5. Variance, Standard Deviation, Skewness, and Kurtosis. Moments	26
6. The Characterization of Grain-size Distributions	32
7. Statistical Analysis of Inhomogeneity	34
8. Elementary Introduction to the Statistical Analysis of Stratified Rock Sequences and Time Series	40
9. Some Important Distribution Functions	47
9.1 Discrete Distributions	47
9.2 Continuous Distributions	53
9.3 Systems of Distribution Functions	55
9.4 Interpolation Formulae	56
10. Estimating Population Parameters, Confidence Limits. The Student-t Test	58
11. Significance Tests for Means, Variances, Frequency Distributions, and Sequential Arrangements	65

11.1	The Variance Ratio Test (Snedecor's <i>F</i> -Test)	66
11.2	The Student- <i>t</i> Test for Comparing Means	67
11.3	Testing Hypotheses About Frequency Distributions: the Chi-square Test	72
11.4	Testing Hypotheses About Sequences of States	81
12.	<i>Ranking Methods</i>	85
13.	<i>Correlation and Regression</i>	89
14.	<i>Simplified Linear and Nonlinear Regression Analysis</i>	107
15.	<i>An Introduction to Discriminant Analysis</i>	115
16.	<i>Introduction to the Construction of Geological Maps by Trend Analysis of Exploration Data</i>	120
17.	<i>The Representation of Distribution Curves by Cubic Splines</i>	127
18.	<i>Sampling from Inhomogeneous Universes</i>	133
19.	<i>Sampling Methods. Monte Carlo Sampling</i>	136
20.	<i>Introduction to the Analysis of Variance (ANOVA)</i>	141
21.	<i>Latin Squares</i>	144
22.	<i>Factor Analysis</i>	149
23.	<i>Performance of Statistical Investigations. The Most Important Flaws Encountered in Papers Using Statistical Methods</i>	154
	SOME TEXTBOOKS AND TREATISES	157
	REFERENCES	160
	TABLES	165
	THE MATHEMATICAL BACKGROUND OF CHAPTER 14	171
	REMARKS TO CHAPTER 15 (DISCRIMINANT ANALYSIS)	173
	INDEX	175
