SPECIFICATION AND BUYING INDEX

The advertising pages of **THE ARCHITECTURAL FORUM** have become the recognized market place for architects and all others engaged in building. Each month these pages offer the most complete guide to materials, equipment and services to be found in any magazine. A house or any other building could be built completely of products advertised in **THE FORUM**. While it is not possible for a magazine to certify building products, it is possible to open its pages only to those manufacturers whose reputation merits confidence. This **THE FORUM** does.
