

Ground-water chemistry under tallgrass prairie, central Kansas, USA <i>G.L. Macpherson</i>	809
Sulphur isotope ratios as tracers of natural and anthropogenic sulphur in the Lincolnshire Limestone aquifer, eastern England <i>S.J. Moncaster, S.H. Bottrell, J.H. Tellam & J.W. Lloyd</i>	813
Mechanisms of sulphide oxidation in a sandy aquifer <i>A. Parker, J.E. Rae, S. Bierens de Haan & R.T. Kimblin</i>	817
Hydrogeochemistry of fluorine in shallow aqueous systems of the Gölcük area, SW Turkey <i>A. Pekdeger, N. Özgür & H.-J. Schneider</i>	821
Strontium isotope characterization of the Ash Meadows ground-water system, southern Nevada, USA <i>Z.E. Peterman, J.S. Stuckless, S.A. Mahan, B.D. Marshall, E.D. Gutentag & J.S. Downey</i>	825
Hydrogeochemical interpretation of the groundwater at Olkiluoto, Finland <i>P. Pitkänen, M. Snellman & H. Leino-Forsman</i>	831
Mobilization of As and U in the Central Oklahoma aquifer, USA <i>J.L. Schlottmann & G.N. Breit</i>	835
REE distributions in shallow groundwater from two hard-rock aquifers in the British Isles: Cammenellis (Cornwall) and Jersey <i>P.L. Smedley</i>	839
Integrated natural and injected multicomponent tracer experiments: Mammoth Hot Springs, Yellowstone National Park, USA <i>W.D. Spall, D.R. Janecky, P.R. Dixon & G.K. Bayhurst</i>	843
Experimental interaction between a granite wall and flowing aerated water <i>M.-P. Turpault & L. Trotignon</i>	847
Postglacial land uplift and concentration profiles of anions in granite bedrock <i>M. Valkiainen, M. Olin & K. Uusheimo</i>	851
Halogen geochemistry of Cretaceous sandstone aquifers in North America <i>D.O. Whitemore & J. Fabryka-Martin</i>	855

PROCEEDINGS OF THE 7TH INTERNATIONAL SYMPOSIUM ON WATER-ROCK
INTERACTION - WRI-7 / PARK CITY / UTAH / USA / 13-18 JULY 1992

Water-Rock Interaction

Edited by

YOUSIF K. KHARAKA & ANN S. MAEST

U.S. Geological Survey, Menlo Park, California, USA

VOLUME 1

LOW TEMPERATURE ENVIRONMENTS

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1992

Table of contents

Keynote lectures

- Kinetics of dissolution and precipitation: Experimental and field results** 3
S.L.Brantley
- The changing face of mineral-fluid interface chemistry** 7
Michael F.Hochella, Jr
- The hydrolysis of aluminum: Conflicting models and the interpretation of aluminum geochemistry** 13
Howard May
- Geochemical modeling of water-rock interaction: Past, present, future** 23
L.Niel Plummer
- Atmospheric CO₂ over Phanerozoic time** 35
Robert A.Berner
- Mineral-fluid interface geochemistry**
- Adsorption and cation exchange*
- The search for a geochemical indicator of lead and zinc sorption in a sand and gravel aquifer, Falmouth, Massachusetts, USA** 41
J.A.Coston, C.C.Fuller & J.A.Davis
- Buffering of pH-changes by an aquifer sediment during miscible displacement of Na-Ca-Mg-Cl-CO₂ solutions** 45
Jasper Griffioen
- Metal-ligand-surface interactions during sorption of uranyl and neptunyl on oxides and silicates** 51
M.Kohler, E.Wieland & J.O.Leckie
- Competitive adsorption: The effect of carbonate alkalinity on the adsorption of lead, thorium and plutonium by goethite (α -FeOOH)** 55
James W.Murray & Barbara R.Coughlin

Use of batch equilibration data in the retardation equation <i>Hannah F.Pavlik, Fred G.Baker & Donald D.Runells</i>	59
Development and validation of a multi-site model for adsorption of metals by mixtures of minerals: 1 Overview and preliminary results <i>M.D.Siegel, V.S.Tripathi, M.G.Rao & D.B.Ward</i>	63
Multisite proton adsorption at the feldspar-water interface <i>L.L.Stillings, S.L.Brantley & M.L.Machesky</i>	69
Modeling ion exchange in clinoptilolite using the EQ3/6 geochemical modeling code <i>B.E.Viani & C.J.Brunton</i>	73

Kinetics of geochemical reactions

Solution compositional effects on the dissolution kinetics of borosilicate glass <i>W.L.Bourcier, H.C.Weed, S.N.Nguyen, J.K.Nielsen, L.Morgan, L.Newton & K.G.Knauss</i>	81
Surface complexation and mineral growth: Sepiolite <i>P.V.Brady</i>	85
Mechanisms controlling $\text{NdOHCO}_3\text{-CaCO}_3$ solid solution formation <i>Susan A.Carroll</i>	89
Dissolution and precipitation kinetics of kaolinite as a function of chemical affinity ($T = 150^\circ\text{C}$, $\text{pH} = 2$ and 7.8) <i>J.L.Devidal, J.L.Dandurand & J.Schott</i>	93
Dissolution of nepheline in an open system <i>D.Klammer</i>	97
Theoretical approach and modelling of the dissolution and precipitation of minerals under kinetic control <i>B.Madé & B.Fritz</i>	101
Dissolution rate and solubility of analcime at 25°C <i>William M.Murphy, Roberto T.Pabalan, James D.Prikryl & Christopher J.Goulet</i>	107
Precipitation kinetics of calcite at elevated temperatures <i>Ryoji Shiraki & Susan L.Brantley</i>	111
Mineral dissolution rates: A comparison of laboratory and field studies <i>N.G.Swoboda-Colberg & J.I.Drever</i>	115
Rates of dolomite dissolution in CO_2 and HCl bearing solutions from $100\text{-}200^\circ\text{C}$ <i>S.J.Talman & W.D.Gunter</i>	119
The dissolution kinetics of biotite in dilute HNO_3 at 24°C <i>L.Trotignon & M.-P.Turpault</i>	123
Dissolution of feldspars in oxalic acid solutions <i>Susan A.Welch & William J.Ullman</i>	127

Recent advances in techniques and methodology

- Determination of clay particle thicknesses and morphology using Scanning Force Microscopy 133
Alex E. Blum & Dennis D. Eberl
- Speciation of uranium(VI) sorption complexes on montmorillonite 137
C.J. Chisholm-Brause, D.E. Morris & R.E. Richard
- In situ investigation of near-equilibrium calcite precipitation by atomic force microscopy 141
Patricia M. Dove, Michael F. Hochella, Jr & Richard J. Reeder
- Characterization of olivine-water interface using ^1H (^{15}N , $\alpha\gamma$) ^{12}C resonant nuclear reaction 145
K. Fujimoto, K. Fukutani, M. Tsunoda, H. Yamashita & K. Kobayashi
- Using atomic force microscopy to study the structure, topography and dissolution of albite surfaces 149
R. Hellmann, B. Drake & K. Kjoller
- Local environment of aluminium in amorphous aluminosilicates by using XANES and MAS NMR 153
P. Ildefonse, G. Calas, R.J. Kirkpatrick, B. Montez, A.M. Flank & P. Lagarde
- Direct observation of muscovite basal-plane dissolution and secondary phase formation: An XPS, LEED, and SFM study 159
Patricia A. Johnsson, Alex E. Blum, Michael F. Hochella, Jr, George A. Parks & Garrison Sposito
- Manganese oxidation at mineral-water interfaces, a spectroscopic approach 163
Jodi L. Junta, Michael F. Hochella, Jr, David W. Harris & Michael Edgell
- A quantitative Rietveld and Mössbauer analysis of aluminium deposits: Example from Guinea 167
G. Morin, P. Ildefonse, D. Bonnin & G. Bouzat
- ## Geochemical modeling
- ### *Solution chemistry and thermodynamics*
- Modeling non-ideal solid-solution aqueous-solution reactions in mass-transfer computer codes 175
Pierre D. Glynn & David L. Parkhurst
- Solubility of siderite (FeCO_3) in concentrated NaCl and Na_2SO_4 solutions at 25°C 181
C.J. Ptacek & E.J. Reardon
- Experimental studies of aluminum solubility and speciation in brines 185
D.J. Wesolowski & D.A. Palmer
- The importance of hard core repulsion in models of activity coefficients in aqueous electrolyte solutions: Illustration in the case of hydration theory 189
T.J. Wolery & K.J. Jackson

Solubility of calcite in mixed aqueous solutions of NaCl and KCl at 25°C and CO₂ partial pressures of about 1 kPa 195
Manfred Wolf & Harald Rohde

Solute transport

PHREEQM: PHREEQE in a mixing cell flowtube 201
C.A.J.Appelo, P.R.Nienhuis & A.Willemsen

Hydrochemical modeling of a seawater diffusion profile, Lake Yssel, The Netherlands 205
C.A.J.Appelo & H.E.Beekman

³⁷Cl-³⁵Cl transport modeling in accumulating sediments of a former brackish lagoonal environment 209
H.E.Beekman, H.G.M.Eggenkamp, C.A.J.Appelo & R.Kreulen

A new approach to geochemical modelling with an integrated simulator generation system 213
R.Fabriol & I.Czernichowski-Lauriol

Coupling the spatial distribution of solute concentration and stable isotope enrichments to hydrologic processes in hypersaline paleochannel aquifers 217
J.V.Turner, L.R.Townley, M.R.Rosen & M.K.Sklash

Effect of hysteresis and mobile-immobile water on solute transport in heterogeneous porous media 223
H.Vereecken, G.Lindenmayr & J.Diels

General applications

Interpretation of water-rock interactions in cases of mixing and undersaturation 233
E.Mazor

Speciate: A spreadsheet-based speciation program for aqueous radionuclides 237
H.Wayne Nesbitt, D.Kettlewell & J.J.Cramer

NETPATH: An interactive code for interpreting NET geochemical reactions from chemical and isotopic data along a flow PATH 239
L.Niel Plummer, Eric C.Prestemon & David L.Parkhurst

Geochemical modeling of granitic ground waters at the Stripa site (Sweden) using a mass balance approach 243
N.Waber & D.K.Nordstrom

Geochemical evolution of groundwater in a limestone aquifer 247
Carol M.Wicks & Janet S.Herman

Organic geochemistry

Processes involving organics and microbes

- Mineral transformations during bacterial leaching of a complex sulfide ore 253
Lasse Ahonen & Olli H.Tuovinen
- Authigenic mineral formation in aquifers rich in organic material 257
Mary Jo Baedecker, Isabelle M.Cozzarelli, John R.Evans & Paul P.Hearn
- Particles in Yellowstone fluid inclusions resemble bacteria 263
K.E.Bargar
- Microbial mediation of silicate diagenesis in organic-rich natural waters 267
P.C.Bennett & F.K.Hiebert
- Hydrocarbon geochemistry in coral reef pore waters, French Polynesia 271
Ioanna Bouloubassi, Alain Saliot, Francis Rougerie & Jean Trichet
- Oxidation of hydrocarbons coupled to reduction of inorganic species in groundwater 275
Isabelle M.Cozzarelli & Mary Jo Baedecker
- Manner of accumulation of lead by the green alga *Chlorella vulgaris* 279
Z.Golab, R.W.Smith & Z.Yang
- Diffusion controlled desorption of organic contaminants in various soils and rocks 283
Peter Grathwohl
- Microbial production of carbon dioxide in the unsaturated zone of a meso scale model 287
M.J.Hendry, J.R.Lawrence, R.Kirkland & B.N.Zanyk
- Modeling rates of mineral dissolution influenced by biodegradation 291
Walton R.Kelly & Janet S.Herman
- Evidence for denitrification at a uranium-mill tailings site, Maybell, Colorado, USA 295
P.Longmire & B.M.Thomson
- The pyritisation of soft-bodied fossils 301
R.Raiswell
- ### *Organic-inorganic interactions*
- Acetate in hydrothermal solutions: Decomposition kinetics and metal complexation 307
J.L.S.Bell, D.A.Palmer & H.L.Barnes
- Evidence for oil-derived organic acids in reservoirs 311
James R.Boles
- An experimental study of the dissolution of albite in the presence of organic acids 315
Kristín Gestsdóttir & David A.C.Manning
- Experimental methods used to study metal-organic complexes 319
Thomas H.Giordano

Experimental feldspar dissolution in acetic and oxalic acids at 100°C, 345 bars <i>A.Hajash, S.P.Franklin & C.L.Reed</i>	325
Petroleum as a potential diagenetic agent: Experimental evidence <i>P.D.Lundegard, Y.K.Kharaka & R.J.Rosenbauer</i>	329
The reaction between amorphous silica and calcium carbonate at temperatures from 300 to 700°C <i>William M.Sackett & Kitack Lee</i>	337
Clay precipitation from oxalate-bearing solutions <i>J.S.Small</i>	345
Oxalate complexation with aluminum(III) and iron(III) at moderately elevated temperatures <i>C.Drew Tait, David R.Janecky, David L.Clark & Philip C.Bennett</i>	349
Experimental study of the stability of the Al-oxalate complexation at 100°C and calculations of the effects of complexation on clastic diagenesis <i>Geoffrey D.Thyne, Wendy J.Harrison & M.Danelle Alloway</i>	353
Natural hazards and environmental contamination	
Integrating seismic, resistivity, and ground penetrating radar data to delineate the water table and groundwater contamination <i>Alvin K.Benson</i>	361
Metal contamination of stream waters from former mining activity <i>R.Caboi, R.Cidu, A.Cristini, L.Fanfani, R.Massoli Novelli & P.Zuddas</i>	367
Selecting proper sites for the automatic monitoring of geochemical premonitory events of earthquakes: Case histories from Italy <i>Mario Dall'Aglio, Fedora Quattrocchi, Alberto Bencini, Vittorio Duchi & Mauro Brondi</i>	371
Propagation of hyperalkaline cement pore waters into the geologic barrier surrounding a radioactive waste repository <i>J.Eikenberg & P.C.Lichtner</i>	377
Geochemical classification of mine drainages and natural drainages in mineralized areas <i>W.H.Ficklin, G.S.Plumlee, K.S.Smith & J.B.McHugh</i>	381
Geochemical modeling of the deep injection well disposal of acid wastes into a Permian aquifer/aquitard system in Texas, USA <i>M.A.Gardiner & J.Myers</i>	385
Groundwater acidification in the unsaturated zone of a sand deposit: Processes and modeling <i>Bent Kjør Hansen & Dieke Postma</i>	389
Effect of instream pH modification on aluminum <i>Briant A.Kimball, Robert E.Broshears, Diane M.McKnight & Kenneth E.Bencala</i>	393
Trace metal scavenging by precipitating Mn and Fe oxides <i>Carol J.Lind & Linda D.Anderson</i>	397

Helium soil gas surveys related to volcanic hazard: Vulcano Island, North Sicily, Italy <i>S.Lombardi</i>	403
Application of a realistic geological database to safety assessment calculations: An exercise in interdisciplinary communication <i>Martin Mazurek, Paul A.Smith & Andreas Gautschi</i>	407
Acidification: Biogeochemical signature of economic and political systems <i>Tomas Paces</i>	413
Geological and geochemical controls on the composition of mine drainages and natural drainages in mineralized areas <i>Geoffrey S.Plumlee, Kathleen S.Smith, Walter H.Ficklin & Paul H.Briggs</i>	419
Reactions of cement pore fluids with rock: Implications for the migration of radionuclides <i>C.A.Rochelle, K.Bateman, A.E.Milodowski, D.J.Noy, J.Pearce, D.Savage & C.R.Hughes</i>	423
Research on pore solution chemistry and environmental significance <i>Zhaoli Shen & Minggao Tang</i>	427
Impact of the 1988 forest fires on the chemistry of non-thermal ground water in Yellowstone National Park, USA <i>M.A.Siders, D.D.Runnells & D.R.Norton</i>	433
Hydrothermal precursors to large California earthquakes <i>Paul G.Silver & Nathalie J.Valette-Silver</i>	437
Metal and arsenic partitioning between water and suspended sediment at mine-drainage sites in diverse geologic settings <i>Kathleen S.Smith, Walter H.Ficklin, Geoffrey S.Plumlee & Allen L.Meier</i>	443
Influence of mafic minerals on water chemistry and water-column stability of Lake Nyos, Cameroon <i>Michele L.Tuttle, Paul H.Briggs, William C.Evans, George W.Kling & John P.Lockwood</i>	449
Retention processes of cadmium and zinc relevant in acid sandy soils affected by diffuse pollution <i>B.J.Wilkens & J.P.G.Loch</i>	453
Preliminary assessment of clinoptilolite K/Ar results from Yucca Mountain, Nevada USA: A potential high-level radioactive waste repository site <i>Giday WoldeGabriel, David E.Broxton, David L.Bish & Steve J.Chipera</i>	457
 Global processes	
Volatile release rates from the Grímsvötn volcano, Iceland <i>A.M.Ágústsdóttir, S.L.Brantley, M.T.Gudmundsson & H.Björnsson</i>	465
Influence of Saharian dust and marine spray on the chemical composition of rain in Sardinia, Italy <i>R.Caboi, R.Cidu, A.Cristini, L.Fanfani & P.Zuddas</i>	469

The quantitative role of plants in weathering <i>M.F.Cochran & R.A.Berner</i>	473
Local effects of volcanoes on the hydrosphere: Example from Hekla, southern Iceland <i>S.R.Gíslason, A.Andrésdóttir, Á.E.Sveinbjörnsdóttir, N.Óskarsson, Th.Thorardarson, P.Torssander, M.Novák & K.Zák</i>	477
Global continental erosion and fluctuations of atmospheric CO ₂ consumed during the last 100 years <i>J.L.Probst, Ph.Amiotte-Suchet & Y.Tardy</i>	483
Isotope and trace element record of relative sea level in Albian carbonates from the Congo Atlantic margin <i>F.Walgenwitz, A.Le Druz & H.Eichenseer</i>	487
Oxidation-reduction reactions in surface and ground waters	
Reduction of Cr(VI) under mildly reducing conditions in a sand and gravel aquifer <i>L.C.D.Anderson, D.A.Kent & J.A.Davis</i>	495
Chromium redistribution within continental red beds: A function of pore-water chemistry <i>G.N.Breit, M.E.Cast & M.R.Stanton</i>	499
Isolated reduction phenomena in red beds: A result of porewater radiolysis? <i>B.A.Hofmann</i>	503
Redox geochemistry of arsenic and iron in Mono Lake, California, USA <i>Ann S.Maest, Sofie P.Pasilis, Laurence G.Miller & D.Kirk Nordstrom</i>	507
The hydrochemistry of arsenic in reservoir sediments, Milltown, Montana, USA <i>George Moncure, James I.Drever & Paul A.Jankowski</i>	513
Dissolved gases in ground water as indicators of redox conditions <i>C.G.Patterson & D.D.Runells</i>	517
Review of neutralizing reduction mineralization of uranium <i>Shi Weijun, Zhou Wenbin & Yuan Xiaoqin</i>	521
Trace metals at the oxic/anoxic-H ₂ S boundary in Lake Vanda, Antarctica <i>J.G.Webster</i>	527
Weathering processes and surface water environments	
The 'simplest' watershed: An in-situ study of bedrock-atmospheric deposition reactions <i>James G.Acker & Owen P.Bricker</i>	533
Ilmenites and ilmenites: A varietal study from the southwest coast of India <i>D.S.Suresh Babu, P.N.Mohan Das & A.D.Damodaran</i>	537
Applications of cosmogenic nuclear methods for studying soil erosion and formation rates <i>E.Barg, D.Lal, J.Southon, M.W.Caffee, R.C.Finkel, A.J.T.Jull & M.Pavich</i>	541

Geochemistry of water and chemical weathering rates under a humid tropical climate <i>M. Benedetti, O. Menard & Y. Noack</i>	545
Suspended and dissolved river inputs to the NW Pacific <i>V.A. Chudaeva & O.V. Chudaev</i>	549
Chemical hydrograph separation using field and experimental data with implications for solute cycling in an alpine catchment <i>J.B. Finley & J.I. Drever</i>	553
Complex Fe-Mn oxide coatings on boulders in a tropical river <i>A. Gann & C. López E.</i>	557
Recharge and weathering processes in fractured rock aquifers in Northern Australia <i>Andrew L. Herczeg & Timothy E. Payne</i>	561
Flocculation of Cu, Zn, Ni and Fe during the mixing of Mulki River water and Arabian Sea water, west coast of India <i>R. Shankar & A.R. Karbassi</i>	565
Tracing watershed weathering reactions with $\delta^{13}\text{C}$ <i>Carol Kendall, M. Alisa Mast & Karen C. Rice</i>	569
Effects of water-rock interaction on the porosity and composition of rock studied by impregnation with carbon-14-polymethylmethacrylate <i>A. Lindberg, K-H. Hellmuth, M. Siitari-Kauppi & J. Suksi</i>	573
Sulfur isotope ratios in a roof-covered forested catchment, western Sweden <i>Carl-Magnus Mörth & Peter Torssander</i>	577
Consequence of acid deposition on natural weathering processes: Field studies and modelling <i>A. Probst, B. Fritz & P. Stille</i>	581
PROFILE: A mechanistic geochemical model for calculation of field weathering rates <i>H. Sverdrup & P. Warfvinge</i>	585
Controls on the distribution of stable isotopes of meteoric water and snow in the greater Yellowstone National Park region, USA <i>James J. Thordsen, Yousif K. Kharaka, Robert H. Mariner & Lloyd D. White</i>	591
Mobility of trace elements during weathering of some Portuguese granitoids <i>Renata D. van der Weijden & Cornelis H. van der Weijden</i>	597
Weathering of Pikes Peak Granite: Field, experimental, and modelling observations <i>Richard B. Wanty, Peter F. Folger, David Frishman, Paul H. Briggs, Warren C. Day & Eileen Poeter</i>	599
Modeling regional soil mineralogy and weathering rates <i>P. Warfvinge & H. Sverdrup</i>	603
A three million year weathering record for a soil chronosequence developed in granitic alluvium, Merced, California, USA <i>Art F. White, Alex E. Blum, Thomas D. Bullen, Maria L. Peterson, Marjorie S. Schulz & Jennifer W. Harden</i>	607

Strontium isotopes in weathering budgeting <i>T.Wickman & G.Jacks</i>	611
Saline lakes and evaporite deposits	
Magnesium sulfate brine lakes that precipitate dolomite: Evidence that Mg^{2+} -dehydration is more important than removal of SO_4^{2-} inhibition in dolomite formation <i>E.A.Burton, H.G.Machel & T.Hahn</i>	617
Transition metal geochemistry of sedimentary pore fluids associated with hydrothermal activity in Lake Baikal, Russia <i>Edward Callender & Liba Granina</i>	621
Diagenetic stevensite after dolomite in lacustrine deposit of Jbel Rhassoul, Morocco <i>A.Chahi, M.Ais, P.Duringer & F.Risacher</i>	627
A hint of recharge at Franklin Lake playa, Inyo County, California, USA <i>John B.Czarnecki, Daniel Ronen, Mordeckai Magaritz & Levy Kroitoru</i>	631
Controls on trace metal geochemistry at Walker, Mono, and Great Salt Lakes <i>J.L.Domagalski & H.P.Eugster</i>	635
The chemical jump: Hydrologic control of brine reaction path within calcareous glacial aquifers and alkaline lakes, semi-arid northern Great Plains, USA <i>Joseph J.Donovan & Arthur W.Rose</i>	639
Advection and diffusion of groundwater brines in modern and ancient salt lakes, Nulla groundwater discharge complex, Murray Basin, southeast Australia <i>James Ferguson, Gerry Jacobson, W.Ray Evans, Ian White, Robin A.Wooding, Christopher J.Barnes & Scott Tyler</i>	643
Fluid inclusion analysis and evaporite modeling <i>J.García-Veigas, C.Ayora & J.J.Pueyo</i>	649
Geochemical evolution and changes of $\delta^{13}C$ of ΣCO_2 during sea water evaporation in solar ponds <i>C.Pierre & B.Fritz</i>	655
The origin of brines in Qaidam Basin, China <i>Qu Yihua & Cai Keqin</i>	659
Water-rock interaction in the formation of diagenetic dolomite in a non-marine, coastal evaporitic basin, Lake Hayward, Western Australia <i>M.R.Rosen, L.Coshell & J.V.Turner</i>	663
Calcium chloride-dominated brines: An ion-exchange model <i>Ward E.Sanford, Warren W.Wood & Terry B.Councill</i>	669
Experimental study of salt rock-water interactions <i>Vladimir G.Silberschmidt & Vadim V.Silberschmidt</i>	673
A lake's solute history from ostracodes: Comparison of methods <i>Alison J.Smith, L.Denis Delorme & Richard M.Forester</i>	677

Deep-water evaporite deposition in the Kareem Formation, Gemsa Basin, Egypt <i>S.A.Stonecipher, J.A.May, J.C.Steinmetz & J.N.Dyess</i>	681
Precipitation of calcite, dolomite, sepiolite and silica from evaporated carbonate and tuffaceous waters of southern Nevada, USA <i>David T.Vaniman, Michael H.Ebinger, David L.Bish & Steve J.Chipera</i>	687
Boron isotope variations during brine evolution and water-rock interactions <i>Avner Vengosh</i>	693
Unsaturated zone environments	
Chemical changes associated with zeolitization of the tuffaceous beds of Calico Hills, Yucca Mountain, Nevada <i>David E.Broxton</i>	699
Geochemical modeling of water-rock interactions in the unsaturated zone <i>C.J.Bruton & B.E.Viani</i>	705
Water infiltration rates in the unsaturated zone at the Idaho National Engineering Laboratory estimated from chlorine-36 and tritium profiles, and neutron logging <i>L.DeWayne Cecil, Thomas M.Beasley, John R.Pittman, Robert L.Michel, Peter W.Kubik, Pankaj Sharma, Udo Fehn & Harry E.Gove</i>	709
Geochemistry and isotopes of secondary calcites precipitated by freezing <i>L.Dever, C.Marlin, M.A.Courty & P.Vachier</i>	715
Solute profiles in unsaturated Quaternary sands from Senegal: Environmental information and water-rock interaction <i>W.Michael Edmunds, Serigne Faye & Cheikh B.Gaye</i>	719
Interactions between heavy metals and silty loam soil in flow-through experiments <i>Changrui Gong & Rona J.Donahoe</i>	723
Water movement in the unsaturated zone based on a deuterium tracer experiment <i>Li Guiru, B.Mayer & M.Fischer</i>	727
Chemistry and isotopes of soil water during freezing <i>C.Marlin, L.Dever, M.A.Courty & P.Vachier</i>	731
Isotopic studies of fracture coatings at Yucca Mountain, Nevada, USA <i>B.D.Marshall, J.F.Whelan, Z.E.Peterman, K.Futa, S.A.Mahan & J.S.Stuckless</i>	737
A preliminary study of the chemistry of pore water extracted from tuff by one-dimensional compression <i>C.A.Peters, J.D.Higgins, P.A.Burger & I.C.Yang</i>	741
Water-permafrost interactions in karst areas <i>E.V.Pinneker</i>	747
Major and trace element concentrations in waters centrifuged from unsaturated soils <i>H.Puchelt & B.Bergfeldt</i>	751

Mineralogy and ion exchange property of selected Indian soils <i>B.C.Raymahashay, A.T.W.Kirkos, S.K.Bisoi & B.K.Panigrahy</i>	753
Preliminary methodology for the study of heavy metal mobility in the unsaturated zone in tropical climate <i>M.Szikszy, G.A.L.Alexandre, R.Hypolito, S.H.Ogihara, M.C.Toledo-Groke, E.D.N.Fernandes & R.C.Orlando</i>	757
 Groundwater environments	
Geochemical processes controlling the groundwater composition at Palmottu study site, SW-Finland <i>L.Ahonen, R.Blomqvist, T.Ruskeeniemi, M.Vesterinen & P.Pitkänen</i>	763
Ingesting the consequences of water-rock interaction: Historical notes on bottled water and spas <i>William Back & Edward R.Landa</i>	767
Effects of base exchange softening on fluoride uptake in groundwaters of the Moncton Sub-Basin, New Brunswick, Canada <i>D.R.Boyle</i>	771
Saline formation waters in Pliocene clays of the Po Valley, Italy: Tectonic significance <i>M.Chiarle, T.Nanni, E.Sacchi & G.M.Zuppi</i>	775
The chemical influence of clay minerals on groundwater composition in a lithologically heterogeneous carbonate aquifer <i>Alison E.Clark, Janet S.Herman & Blair F.Jones</i>	779
Water-rock interactions and the pH stability of groundwaters from Yucca Mountain, Nevada, USA <i>Michael H.Ebinger</i>	783
A comparison of calcite fracture mineralogy and geochemistry for the Canadian and Fennoscandian Shields <i>S.K.Frape, A.R.Blyth, M.G.Jones, R.Blomqvist, E-L.Tullborg, R.H.McNutt, F.McDermott & M.Ivanovich</i>	787
Deuterium and ¹³ C evidence for low temperature production of hydrogen and methane in a highly alkaline groundwater environment in Oman <i>Peter Fritz, Ian D.Clark, Jean-Charles Fontes, Michael J.Whiticar & Eckhard Faber</i>	793
Characterization of natural colloids in groundwaters of El Berrocal, Spain <i>P.Gómez, M.J.Turrero, V.Moulin & M.C.Magonthier</i>	797
Cl and Br in mafic and ultramafic rocks: Significance for the origin of salinity in groundwater <i>D.C.Kamineneni, M.Gascoyne, T.W.Melnyk, S.K.Frape & R.Blomqvist</i>	801
Ligand-enhanced transport of strongly adsorbing metal ions in the ground-water environment <i>D.B.Kent, J.A.Davis, L.D.Anderson & B.A.Rea</i>	805
