

25152

PROCEEDINGS OF THE INTERNATIONAL CONFERENCE  
ON STRUCTURAL FOUNDATIONS ON ROCK / SYDNEY / 7-9 MAY 1980

# Structural Foundations on Rock

*Edited by*

**P. J. N. PELLIS**

*School of Civil Engineering, University of Sydney*

*VOLUME ONE*

*Published on behalf of the Civil Engineering Post Graduate Foundation  
of the University of Sydney and the Institution of Engineers, Australia*

**A. A. BALKEMA/ROTTERDAM/1980**

# Table of contents

## 1 *Site investigation and rock properties*

Verification of rock foundations for nuclear power plants by E. R. Ries, W. J. Johnson & A. P. Michalopoulos	3
The use of a high capacity pressuremeter for design of foundations in medium strength rock by M. C. Ervin, B. C. Burman & J. M. O. Hughes	9
Modulus values for weathered rock from plate load tests by D. J. Douglas	17
The elastic settlement of a rigid circular foundation anchored to a transversely isotropic rock mass by A. P. S. Selvadurai	23
Classification of rock mass related to foundations by B. A. Chappell & R. Maurice	29
Application of the acoustic technique to surveying in rock foundations by Cia Zhongli, Liang Zhian & Zhu Weishen	37
Foundation properties of coral reefs — Site investigation techniques and preliminary results by H. Bock & E. T. Brown	43
Properties of soft rock relevant to socketed pile design by I. W. Johnston, A. F. Williams & H. K. Chiu	55
Indirect identification of the average elastic characteristics of rock masses by Giancarlo Gioda	65

## 2 *Rock anchors*

Time-dependence, load relaxation and performance aspects of polyester resin grouted reinforcing bars in sedimentary rocks by B. N. Whittaker & A. S. Grant	77
Rock anchors: An outline of some current design, construction and testing practices in the United Kingdom by M. J. Turner	87
The design and installation of rock anchors in granite gneiss for foundation stabilisation by G. Daws	105

### 3 *Construction*

- Improvement of the rock foundation of Palazzo Viceregio, Cagliari, Sardinia  
by G. Barrocu, T. Crespellani & C. Vivanet 111
- On the telemetric firing techniques for underwater rock blasting in Japan  
by Kenji Nakao & Noriaki Sakurai 123
- Pipe pile driveability in the carbonate rocks of the Southern Arabian Gulf  
by R. H. Beake & G. Sutcliffe 133

### 4 *Pads, rafts and end bearing*

- Foundation investigations and monitoring of the MLC Centre Tower, Sydney  
by Margaret D. McMahon & Barry K. McMahon 153
- Flexure of a thick circular raft foundation resting on an isotropic elastic medium  
by A. P. S. Selvadurai 161
- A probabilistic analysis of settlement of foundations on rock  
by Madhira R. Madhav & Kalavacharla S. Rama Krishna 173
- End bearing on rock with particular reference to sandstone  
by P. J. N. Pells & R. M. Turner 181
- Koeberg Nuclear Power Station: Cement stabilised structural foundation on rock  
by R. W. Hendry 191
- Behaviour of multi-layered rock masses with weak inclusions  
by M. Zacas & W. R. A. Knox 201
- Design of foundations on discontinuous rock  
by Fred H. Kulhawy & Richard E. Goodman 209

### 5 *Rock socketed piles and piers*

- The capacity of piers drilled into rock  
by C. P. Thorne 223
- The measurement and analysis of load transfer from a caisson to its rock socket  
by Gunther E. Bauer 235
- Design and construction of rock caissons  
by S. A. Gill 241
- A theoretical study of pile-rock socket behaviour  
by R. K. Rowe & P. J. N. Pells 253
- Ultimate tensile loads of bored piles socketed into sandstone rock  
by D. L. Webb & P. Davies 265
- Design and construction of foundations for bridges on the Kuantan to Segamat Highway,  
Malaysia 271  
by G. J. Kemp & S. H. Chew
- Construction of bridges on rock foundations — Current practice of the Department of Main  
Roads of New South Wales, Australia 283  
by L. C. Doyle

An experimental investigation into side shear for socketed piles in sandstone by P. J. N. Pells, R. K. Rowe & R. M. Turner	291
Theoretical analyses of rock socketed piles by I. B. Donald, S. W. Sloan & H. K. Chiu	303
Stress distributions in rock socketed piles by A. F. Williams, I. B. Donald & H. K. Chiu	317
The design of socketed piles in weak rock by A. F. Williams, I. W. Johnston & I. B. Donald	327
Results of tests to determine shaft resistance of rock-socketed drilled piers by R. G. Horvath, W. A. Trow & T. C. Kenney	349
An analysis of bond strength for rock socketed piers by B. Ladanyi & D. Domingue	363
