

PROCEEDINGS OF THE INTERNATIONAL CONFERENCE
ON STRUCTURAL FOUNDATIONS ON ROCK / SYDNEY / 7-9 MAY 1980

Structural Foundations on Rock

Edited by

P. J. N. PELLIS

McMahon Burgess and Yeates, Sydney

VOLUME TWO

*Published on behalf of the Civil Engineering Post Graduate Foundation
of the University of Sydney and the Institution of Engineers, Australia*

A. A. BALKEMA / ROTTERDAM / 1981

Table of contents

Opening address: A review of conclusions and findings reported in recent papers on rock foundations by B. Ladanyi	3
<i>1 Site investigation and rock properties</i>	
Recorded discussion at Session 1	13
Recorded discussion at Session 2	17
Recorded discussion at Session 3	19
Discussion of the paper: Modulus values for weathered rock from plate load tests, by D. J. Douglas by P. T. Brown	23
A note on the interpretation of K_0 from pressuremeter tests by E. H. Davis & P. J. N. Pells	25
Effect of jointing on rock mass modulus by A. F. Williams	29
Discussion of the paper: Indirect identification of the average elastic characteristics of rock masses, by G. Gioda by P. T. Brown	31
<i>2 Rock anchors & 3 Construction</i>	
Recorded discussion at Session 10	35
<i>4 Pads, rafts and end bearing</i>	
Recorded discussion at Session 4	41
Recorded discussion at Session 5	45
<i>5 Rock socketed piles and piers</i>	
Recorded discussion at Session 6	55

Recorded discussion at Session 7	61
Recorded discussion at Session 8	63
Recorded discussion at Session 9	65
Discussion of the paper: Theoretical analyses of rock socketed piles, by I. B. Donald, S. W. Sloan & H. K. Chiu by P. J. N. Pells	67
Discussion of the paper: Stress distributions in rock socketed piles, by A. F. Williams, I. B. Donald & H. K. Chiu by H. G. Poulos	69
Discussion of the paper: The design of socketed piles in weak rock, by A. F. Williams, I. W. Johnston & I. B. Donald by L. R. Hewison	71
Mechanism of side resistance: Socket dilation and normal stress by A. F. Williams	73
Discussion on the cleaning of rock sockets with special regard to base debris	77

Invited papers

A note on some plasticity solutions relevant to the bearing capacity of brittle and fissured materials by E. H. Davis	83
Development of a socket inspection device by J. C. Holden	91

List of delegates

Registrants of the International Conference on Structural Foundations on Rock 1980	99
