CONFERENCE ON SMALL HYDRO**

CONFERENCE PAPERS

HYDRO '88

incorporating

Third International Conference on Small Hydro

Monday 25 April

SESSION I - HYDRO IN LATIN AMERICA

Hydroelectric potential in Mexico - L Arceo Tena, J S Acosta Rodriguez and S Lopez Lopez de Lara, Comision Federal de Electricidad, Mexico	1
The Bobos river hydro project, Guatemala - V H Gonzalez W, INDE, Guatemala	13
Hydro power development in Bolivia - G Rico Calderon, Empresa Nacional de Electricidad S.A., Bolivia	24
State-of-the-art of small hydro in Brazil - A H Moreira Santos, Z de Souza, G L Tiago Filho, Escola Federal de Engenharia de Itajubah, Brazil	39

SESSION II - PLANNING

(A) Large Hydro

The contribution of hydropower to international energy traffic - K Goldsmith, UN Consultant, UK	59
Optimization of the design and operation of hydro systems by computer model - C Guillaud, SNC Inc., Canada	71
Firm capacity rating for hydropower - Fei-Fan Yeh, EBASCO Services Inc., USA	84

(B) Small Hydro

Regional assessment of small hydro potential in the UK - E M Wilson and I D Jones, Salford University Civil Engineering Ltd, UK	97
A methodology for determining micro hydro productivity - G Degoutte and J Lavabre, Cemagref, France	104
Hydroelectric development in Upolu, Western Samoa - H Gudge, Mander, Raikes and Marshall and A B Hawkins, University of Bristol, UK	119

Tuesday 26 April

SESSION III - ECONOMICS

(A) Large and small hydro

Progress in computerized cost estimation for small- and large-scale projects - E Oud, K Drabik and J Biehl, Lahmeyer International, FRG	141
---	-----

Economic evaluation of a pumped-storage plant - N M Pinto and P Lewington, Kennedy & Donkin Power Systems Ltd, UK	164
---	-----

(B) Small and micro hydro

An economic analysis of capital costs in micro hydro - H W Whittington, A R Wallace, University of Edinburgh and D S Henderson, Napier College, UK	182
--	-----

Mini hydro in Haiti - E Hafner, Hydroplan Ingenieur GmbH, FRG	198
---	-----

Improving the economics of small hydro through engineering decision making - K R Grubb and T P Jardine, Biwater Hydro Power, UK	216
---	-----

SESSION IV - ENVIRONMENT

Pacific Northwest rivers study: development of an inventory and analysis system - T E Pansky, R J Moulton, Bonneville Power Authority and D O Parkin, Consultant, USA	226
---	-----

Innovative intake protects aquatic life and turbines - J J Strong, Aquadyne Inc., and R F Ott, Ott Water Engineers, USA	244
---	-----

Wednesday 27 April

SESSION V - SMALL HYDRO MACHINERY

OLADE's experiences with standardization of equipment for small hydro - R Pardo Gomez, OLADE, Ecuador	255
---	-----

Recent developments in machinery for small hydro-electric schemes - B Leyland, Leyland Consultants Ltd., New Zealand	278
--	-----

Seven years of small hydro field experience in North America - P J Jermann, Dominion Bridge-Sulzer Inc., Canada and F Mas, Turbinas y Equipos Industriales SA, Mexico	289
---	-----

Pumps as turbines: selection and application - W G Nicholas, Turbine Generation NW, USA	309
---	-----

Turbine development for very low-head sites - pit-type units - M Hemmen, Neyrpic, France	316
--	-----

Thursday 28 April

SESSION VI

(A) Automation, operation and control

Speed governing and voltage control for isolated plants - G Newman, Klohn Leonoff Ltd, Canada	337
---	-----

Governing and surging canal in a double surge tank powerhouse - Z Mehdi, BHEL, India	347
--	-----

Integrated data base system for management and performance analysis of multiple automated hydro sites - J P Cross and J Burnet, STS Consultants Ltd., USA	355
---	-----

(B) Research and development

- Combined wind and water power systems - S A Jensen,
Cowiconsult, Denmark373
- The oscillating water column devices for low-head hydro-
electric applications - A Jennings, The Queen's University of
Belfast, UK390
- Research, development and demonstration experiences on small
and low-head hydro by the Canadian government - T P Tung,
R H Clark and J Cole, Energy, Mines and Resources, Canada403

SESSION VII - RETROFITTING AND REFURBISHMENT

- Aswan high dam project, turbine rehabilitation/modernization
- R Grigera, Voith Hydro Inc., H El Shafei, Egyptian Electricity
Authority, Egypt423
- Hydro-power in the Riksheim river - T Jensen, NVE and
B Aspen, Statkraft, Norway446
- Uprating the Laufenberg Swiss/German power station with ten
Straflo units - J Miller, Elektrowatt Engineering Services Ltd,
J Vontobel, Kraftwerke Laufenberg and H K Holler, Sulzer-
Escher Wyss Ltd., Switzerland462
- The Agua Prieta hydro project in Mexico - H Marengo
Mogollon, Comision Federal de Electricidad, Mexico480
- Repair of hydraulic turbine runners at Electricite de France
- H Waldura, Electricite de France, France493
- Electric energy from irrigation districts - F Ferran Riquelme,
Instituto de Investigaciones Electricas, Mexico512

SESSION VIII - CASE STUDIES

- The Aguamilpa hydroelectric project - J Castro Abonce,
Comision Federal de Electricidad, Mexico529
- The Rongtong hydro scheme at el. 3690 m - R Singh, Himachal
Pradesh State Electricity Board, India540
- Guidelines for the design of intake structures for small hydro
schemes - E Bucher and A Krumdieck, Electrowatt Engineering
Services Ltd., Switzerland555
- The Lwawu micro-hydro scheme in Zambia - a case study
- D A Cole, Zambia572
- A run-of-river SHP scheme in Ethiopia - A Aloia, E Malquori,
R Pani, ENEL; V Bevilacqua, ISMES, Italy and W J Tamene,
EELPA, Ethiopia584
