Dordrecht / Boston / London

Contents

Preface	ix
Biographical details	xv
Sediment dynamics in estuaries and coastal waters	
Flocculation and its effect on the vertical transport of fine-grained sediments by W. Lick, J. Lick & C. K. Ziegler	1
Transport and distribution of sediments along the Ligurian coast by O. Ferretti, I. Niccolai, S. Tucci, M. Setti & F. Immordino	17
Morphometry and sedimentation as regulating factors for nutrient recycling and trophic state in coastal waters by M. Wallin & L. Håkanson	33
Storage, redistribution and net export of dissolved and sediment-bound nutrients, Vejle Fjord, Denmark by C. Christiansen, I. Zacharias & T. Vang	47
Sediment of river-transported particles in the Öre estuary, northern Sweden by L. Malmgren & L. Brydsten	59
Wave-induced sediment resuspension in the Öre estuary, northern Sweden by L. Brydsten	71
Sediment transport and deposition in lakes and reservoirs	
Specific organic components as tracers of contaminated fine sediment dispersal in Lake Ontario near Toronto by J. P. Coakley, J. H. Carey & B. J. Eadie	85
Release of metals from polluted sediments in a shallow lake: quantifying resuspension by Th. E. M. Ten Hulscher, G. A. J. Mol & F. Lüers	97
Interpretation of sedimentation data measured in a former tidal channel of Lake Volkerak by G. H. Tamminga	107
A model for predicting waves and suspended silt concentration in a shallow lake by D. P. Vlag	119
Sediment resuspension in a monomictic eutrophic reservoir by J. A. Gálvez & F. X. Niell	133
Measurement and prediction of sedimentation in small Swedish lakes by R. D. Evans & L. Håkanson	143
Modelling sediment transport in shallow lakes – interactions between sediment transport and sediment composition by G. Blom, E. H. S. Van Duin, R. H. Aalderink, L. Lijklema & C. Toet	153
Aspects of modelling sediment transport and light conditions in Lake Marken by E. H. S. van Duin, G. Blom, L. Lijklema & M. J. M. Scholten	167
Sediment and water movement in rivers and their catchments	
Cohesive sediment transport: emerging issues for toxic chemical management by E. D. Ongley, B. G. Krishappan, I. G. Droppo, S. S. Rao & R. J. Maguire	177

The clogging of coarse gravel river beds by fine sediment by U. Schälchli	189
Estimating sediment yield variation in a small forested upland catchment by L. A. Kelly	199
Sulphur isotope ratios in sulphate and oxygen isotopes in water from a small watershed in Central Sweden by P. Andersson, P. Torssander & J. Ingri	205
Interpretation of caesium-137 profiles in lacustrine and other sediments: the role of catchment-derived inputs by D. E. Walling & Q. He	219
Fluvial transport and redistribution of Chernobyl fallout radionuclides by D. E. Walling, T. A. Quine & J. S. Rowan	231
Case studies of variations in suspended matter transport in small catchments by N. Strunk	247
Origin of peak concentrations of phosphate during high discharges in a rural watershed by A. H. Dijkhuis, N. K. Hoekstra, L. Lijklema & S. E. A. T. M. Van der Zee	257
Microbial processes	
Stimulation of bacterial cytokinesis by bacteriophage predation by W. T. Lammers	261
Mesocosm experiments: mimicking seasonal developments of microbial variables in North Sea sediments by F. C. Van Duyl, R. P. M. Bak, A. J. Kop, G. Nieuwland, E. M. Berghuis & A. Kok ..	267
Heterotrophic bacterial activity in Roskilde Fjord sediment during an autumn sedimentation peak by M. R. Flindt & J. B. Nielsen	283
Sulfate-reduction process in sediments of Lake Kinneret, Israel by O. Hadas & R. Pinkas	295
Below-halocline oxygen consumption in the Kattegat W. Granéli	303
Fates of dissolved free amino acids in groundwater discharged through stream bed sediments by D. M. Fiebig	311
Interactions between sediments and benthic organisms	
Factors influencing densities and distributions of <i>Pontoporeia hoyi</i> in Lake Ontario by P. G. Sly & W. J. Christie	321
Decline in zoobenthos densities in the profundal sediments of Lake Mendota (Wisconsin, USA) by R. C. Lathrop	353
Significant physiographic disturbances in the Ebro basin reservoirs (N.E. Spain) reflected by <i>Oligochaeta</i> size spectra by M. Real, F. Sabater & J. A. Morguí	363
Coupling between benthic biomass of <i>Microcystis</i> and phosphorus release from the sediments of a highly eutrophic lake by A.-K. Brunberg & B. Boström	375
Bioturbation by <i>Nereis</i> sp. and its effects on phosphate flux across the sediment-water interface in Palmones River estuary by V. Clavero, J. K. Fernández & F. X. Niell	387
Experimental study of ^{110m}Ag transfer from sediment to biota in a simplified freshwater ecosystem by J. Garnier-Laplace, J. P. Baudin & L. Foulquier	393

Sediment bioassays

- A simple and sensitive assay for evaluation of sediment toxicity using *Lumbriculus variegatus* (Müller)
by R. Dermott & M. Munawar 407
- Bioassay responses to sediment elutriates and multivariate data analysis for hazard assessment of sediment-bound chemicals
by W. Ahlf & S. Wild-Metzko 415

Biological processes

- Sediment toxicity in lakes along the river Kolbäckån, central Sweden
by G. Dave 419
- Lessons from the size efficiency hypothesis, II. The mire of complexity
by R. H. Peters 435
- Benthic-pelagic coupling of nutrient metabolism along an estuarine eutrophication gradient
by L. Kamp-Nielsen 457
- A change in the distribution pattern of diatoms above and below the halocline in bottom sediments of the Arkona Basin, southern Baltic
by B. Thulin 471
- Effects of phytoplankton development on the elemental composition (C, N, P) of suspended particulate material in the lower river Rhine
by W. Admiraal, D. M. L. H. A. Jacobs, P. Breugem & E. D. de Ruyter van Steveninck . 479

Sediment-water interactions

- Diffusive exchange of linear alkylbenzenesulfonates (LAS) between overlying water and bottom sediment
by K. Amano, T. Fukushima & O. Nakasugi 491
- Geochemical cycle of heavy metals in marine coastal area: benthic flux determination from pore water profiles and *in situ* measurements using benthic chambers
by G. Ciceri, S. Maran, W. Martinotti & G. Queirazza 501
- Factors controlling spatial variability in ammonium release within an estuarine bay (Alfacs Bay, Ebro Delta, N.W. Mediterranean)
by M. Vidal, J. A. Morguí, M. Latasa, J. Romero & J. Camp 519
- Continuously measured changes in redox potential influenced by oxygen penetrating from burrows of *Callianassa subterranea*
by S. Forster & G. Graf 527
- Arsenic transport between water and sediments
by J. Cornett, L. Chant & B. Risto 533
- The application of a laboratory apparatus for the study of nutrient fluxes between sediment and water
by F. Schroeder, D. Klages, G. Blöcker, H. Vajen-Finnern & H.-D. Knauth 545
- Sediment and interstitial water chemistry of the Orbetello lagoon (Grosseto, Italy); nutrient diffusion across the water-sediment interface
by P. Bonanni, R. Caprioli, E. Ghiara, C. Mignuzzi, C. Orlandi, G. Paganin & A. Monti 553
- Dissolved reactive phosphorus release from sediments beneath a freshwater cage aquaculture development in West Scotland
by L. A. Kelly 569

Element cycling

Whole-stream phosphorus release studies: variations in uptake length with initial phosphorus concentration by B. T. Hart, P. Freeman & I. D. McKelvie	573
The turnover of river-transported iron, phosphorus and organic carbon in the Öre estuary, northern Sweden by G. Forsgren & M. Jansson	585
Bacterial enzyme activity and metal speciation in urban river sediments by C. Wei & G. Morrison	597
Chemical mobility and bioavailability of sediment-bound heavy metals influenced by salinity by W. Calmano, W. Ahlf & J.-C. Bening	605
Solubility of cadmium and cobalt in a post-oxic or sub-oxic sediment suspension by K. Wallmann	611
The degradation of arsenobetaine to inorganic arsenic by sedimentary microorganisms by K. Hanaoka, S. Tagawa & T. Kaise	623

Contaminant accumulation, distributions and geochemistry

A review of assessment and remediation strategies for hot spot sediments by J. M. Skei	629
Sediment analysis for the assessment of risk from organic pollutants in lakes by S. Galassi, A. Provini & E. Garofalo	639
Studies of heavy metal sorption by Trenton Channel (Detroit River) sediments by T. C. Young, M. R. Waltman, T. L. Theis & J. V. DePinto	649
Experimental study of ⁶⁰ Co behaviour in Tejo River sediments by M. J. Madruga & M. C. V. Carreiro	661
Inventory of heavy metals and organic micropollutants in an urban water catchment drainage basin by S. Sarmani, M. P. Abdullah, I. Baba & A. A. Majid	669
Relationships between mercury in lake water, water colour and mercury in fish by Å. Nilsson & L. Håkanson	675
Mercury content in lake sediments and suspended matter – temporal variation and relation to water chemistry by T. Andersson & L. Håkanson	685
The use of sedimentation field-flow fractionation to study suspended particulate matter by R. Beckett, G. Nicholson, D. M. Hotchin & B. T. Hart	697

Management

Chemical criteria for marine eutrophication with special reference to the Oslofjord, Norway by M. I. Abdullah & M. Danielsen	711
Sediment analysis as a method of monitoring industrial emissions by W. R. Vogel & A. Chovanec	723
Iron:phosphorus ratio in surface sediment as an indicator of phosphate release from aerobic sediments in shallow lakes by H. S. Jensen, P. Kristensen, E. Jeppesen & A. Skytthe	731
