

The Institution of Civil Engineers

# Slope stability engineering developments and applications

Proceedings of the international conference on slope stability  
organized by the Institution of Civil Engineers and held on the Isle  
of Wight on 15–18 April 1991

# Contents

---

## Mechanics

1. Keynote paper. Mechanics of landslides. P. R. VAUGHAN 1
2. Determination of soil strength parameters for the analysis of highway slope failures. G. I. CRABB and J. H. ATKINSON 13
3. Stability analysis of a complex landslide under static and dynamic conditions. A. CANCELLI, G. CROSTA and P. ROMANI 19
4. Residual strength of volcanic clay. D. H. CORNFORTH and K. F. FUJITANI 23
5. Tension cracks and slope failure. R. N. CHOWDHURY and S. ZHANG 27
6. Observation of Graben geometry in landslides. D. M. CRUDEN, S. THOMSON and B. A. HOFFMANN 33
7. A model for prediction of piezometric levels in landslides. R. FELL, T. G. CHAPMAN and P. K. MAGUIRE 37
8. Calculation procedures for slope stability analyses involving negative pore-water pressures. H. RAHARDJO and D. G. FREDLUND 43
9. The influence of the pore pressures within the slide mass: a re-examination of the slide in Lodalen 1954. I. M. MORRISON 51
10. Improved multi-wedge landslide analysis. I. B. DONALD and P. S. K. GIAM 55
11. The Sargent landslide and long-term ground-water fluctuations in California USA hillsides. W. B. WIGGINTON and D. HICKMOTT 61
12. Designing the shape of soil slopes stable during seepage. N. B. ILYINSKY, A. R. KACIMOV and N. D. YAKIMOV 67
13. Reliability index versus safety factor for coal mine spoil pile stability. D. J. WILLIAMS, J. Z. ZOU and J. GRAHAM 71
- Discussion on Papers 1-13 77
14. Keynote paper. Planning aspects of slopes in Britain. D. BROOK 85
15. Management of landslides within Shropshire. A. M. CARSON and J. FISHER 95
16. Environmental impact of a large landslide near Lausanne, Switzerland. F. NOVERRAZ, C. A. BONNARD and A. GIRAUD 101
17. An interesting tool in highway planning in landslip-prone areas. T. COLLOTTA, R. ENRICI, C. LONGARETTI, O. CIANCIOSI and P. C. MORETTI 107
18. Building a residential complex on a slow deep-seated slope instability. F. OBONI and Z. HLOBIL 113
19. Cliff management: a photographic monitoring system. P. GRAINGER and P. G. KALAUGHER 119

20. Debris flows in the Campanian volcanoclastic soils. F. M. GUADAGNO	125
21. Instability of Cobb Road, Lyme Regis, Dorset. A. B. HAWKINS	131
22. Development of a methodology for landslide potential mapping in the Rhondda Valley. H. J. SIDDLER, D. B. JONES and H. R. PAYNE	137
23. A comparative study of indirect methods of landslip potential assessment. P. J. JENNINGS, H. J. SIDDLER and S. P. BENTLEY	143
24. Planning, phasing and implementation of rock slope remedial works in the Scottish Highlands. T. P. DAVIES and D. W. HUGHES	149
Discussion on Papers 18–24	155
<b>Isle of Wight</b>	
25. Keynote paper. The landslides forming the South Wight Undercliff. J. N. HUTCHINSON	157
26. Investigations of the landslides at St Catherine's Point, Isle of Wight. J. N. HUTCHINSON, E. N. BROMHEAD and M. P. CHANDLER	169
27. The natural evolution of the soft rock cliff at Shanklin, Isle of Wight and its planning and engineering implications. M. E. BARTON	181
28. The recent history and geotechnics of landslides at Gore Cliff, Isle of Wight. E. N. BROMHEAD, M. P. CHANDLER and J. N. HUTCHINSON	189
29. A preliminary landslide hazard zonation of the Undercliff of the Isle of Wight. J. N. HUTCHINSON and M. P. CHANDLER	197
30. The assessment of ground behaviour at Ventnor, Isle of Wight. E. M. LEE, R. MOORE, H. J. SIDDLER and D. BRUNSDEN	207
31. The geomorphology of the landslide complex at Ventnor, Isle of Wight. J. N. HUTCHINSON, D. BRUNSDEN and E. M. LEE	213
32. Strategies for managing the landslide complex at Ventnor, Isle of Wight. E. M. LEE, R. MOORE, D. BRUNSDEN and N. BURT	219
33. The impact, causes and management of landsliding at Luccombe village, Isle of Wight. R. MOORE, E. M. LEE and F. LONGMAN	225
34. The distribution, frequency and magnitude of ground movements at Ventnor, Isle of Wight. R. MOORE, E. M. LEE and N. H. NOTON	231
35. A review of instability on the southern coasts of the Isle of Wight and the role of the local authority. G. McINTYRE and R. G. McINNES	237
36. Living with landslip: Ventnor. N. H. NOTON	245
Discussion on Papers 25–36	251
<b>Coastal stability</b>	
37. Keynote paper. Landslide hazard management — experience in the United States. R. L. SCHUSTER	253
38. The role of coast protection in coastal slope stabilization. M. G. BARRETT and J. L. ANDREWS	265
39. The observation and analysis of a failure in a cliff of glacial clay till at Cowden, Holderness. A. P. BUTCHER	271
40. The mechanics of first-time slides in the London clay cliff at the Isle of Sheppey, England. N. DIXON and E. N. BROMHEAD	277

41. The Whitby cliff stabilization and coast protection scheme. A. R. CLARK and S. GUEST	283
42. Ground movements of the Encombe landslip at Sandgate, Kent. M. J. PALMER	291
43. Landsliding in the coastal slopes of Capo Spulico area in the Gulf of Taranto (Italy). B. D'ELIA, G. LANZO and M. ROSSI-DORIA	297
44. Coastal stability and its impact on adjacent structures. B. WAREHAM, P. N. HYDE and L. K. RODGER	303
Discussion on Papers 37–44	309
<b>Remedial measures</b>	
45. Keynote paper. Slope stabilisation experience in South Wales, UK. B. JONES	313
46. Stabilization of a landslide with submerged motor-driven pumps. A. OLCESE, C. VESCOVO, S. BONI and G. GIUSTI	321
47. Slope stabilisation by vertical soil reinforcement. D. H. BARKER	327
48. Slope stabilisation by new ground anchorage systems in rocks and soils. A. D. BARLEY KELLER	335
49. Large landslide stabilization by deep drainage wells. B. BIANCO and D. A. BRUCE	341
50. Influence of tectonic structure on landslipping: Thrace motorway, Turkey. T. GORDON, J. A. LORD and T. STATHAM	349
51. Embankment construction over a landslip in coal measures colluvium. J. M. W. HOLDEN and S. J. HODGETTS	355
52. The use of geogrids in landslide control works: case history from Valtellina A. CAMBIAGHI and P. RIMOLDI	365
53. The use of bored piles and counterfort drains to stabilize a major landslip — a comparison of theoretical and field performance. J. A. ALLISON, J. MAWDITT and G. T. WILLIAMS	369
54. Landslide and remedial works in Wadhurst clay. R. S. PUGH, A. G. WEEKS and D. E. HUTCHINSON	377
Discussion on Papers 45–54	383
55. Keynote paper. Landslide control by means of a row of piles. M. E. POPESCU	389
56. Slope stabilisation using lime. C. D. F. ROGERS and C. J. BRUCE	395
57. Stabilisation of a landslide on Etruria Marl. R. P. THOMPSON	403
58. Rockfall containment measures at Springdale, Newfoundland. R. D. BOYD	409
59. Methods of slope stabilization by retaining walls. L. K. GINZBURG	415
60. Slope stabilization by means of cuts and fills. V. R. GRECO	421
61. Getting closer in advancing access and data collection techniques for rock face investigation and stabilization. P. McMILLAN and W. A. WALLACE	427
62. Causes and effects of a block slide of aliano sands in Basilicata/Southern Italy. M. DEL PRETE, E. FAVIA and N. TAFUNI	435
Discussion on Papers 55–62	439
