# USE OF IN SITU TESTS IN GEOTECHNICAL ENGINEERING

Proceedings of In Situ '86, a Specialty  
Conference sponsored by the Geotechnical  
Engineering Division of the American  
Society of Civil Engineers

Co-sponsored by the  
Civil Engineering Department and the  
Continuing Education Department of  
Virginia Tech

Virginia Tech  
Blacksburg, Virginia  
June 23-25, 1986

Edited by Samuel P. Clemence

Geotechnical Special Publication No. 6

Published by the  
American Society of Civil Engineers  
345 East 47th Street  
New York, New York 10017-2398

## CONTENTS

### Invited Papers

Use of In Situ Tests for Foundation Design on Clay Gunnar Aas, Suzanne Lacasse, Tom Lunne and Kaare Høeg .....	1
The Pressuremeter for Foundations: French Experience François J. Baguelin, Michael Bustamante and Roger A. Frank .....	31
Deformation Characteristics of Cohesionless Soils from In Situ Tests R. Bellotti, V. Ghionna, M. Jamiolkowski, R. Lancellotta and G. Manfredini .....	47
Pressuremeter and Foundation Design Jean-Louis Briaud .....	74
Seismic Cone Penetration Test R. G. Campanella, P. K. Robertson and D. Gillespie .....	116
In Situ Testing for Lock and Dam 26 Cellular Cofferdam G. Wayne Clough and Patrick M. Goeke .....	131
Field Permeability Test for Earthen Liners David E. Daniel and Stephen J. Trautwein .....	146
Borehole Shear Test and Slope Stability Richard L. Handy .....	161
Subsurface Soil Monitoring Via Acoustic Emissions Robert M. Koerner and Arthur E. Lord, Jr. ....	176
In Situ Testing of Peat Arvid Landva .....	191
Pressuremeter Correlations for Preconsolidated Clay Ray E. Martin and Edward G. Drahos .....	206
Ground Improvement Evaluation by In-Situ Tests James K. Mitchell .....	221
In Situ P and S Wave Velocity Measurement Satoru Ohya .....	1218
Reliability of Pile Capacity Assessment by CPT in Overconsolidated Clay Michael W. O'Neill .....	237
Permeability and the Field Pumping Test J. Patrick Powers and R. Gordon Burnett .....	257
Use of SPT and CPT Tests for Evaluating the Liquefaction Resistance of Sands H. Bolton Seed and Pedro De Alba .....	281
Dilatometer to Compute Foundation Settlement John H. Schmertmann .....	303
In Situ Testing for Ground Modification Techniques Joseph P. Welsh .....	322
In Situ Tests for Foundation Vibrations Richard D. Woods .....	336

## Contributed Papers

Electrical In Situ Measurements for Predicting Behavior of Soils	
A. Anandarajah, N. J. Meegoda and K. Arulanandan .....	376
Comparison of the SPT, CPT, SV and Electrical Methods of Evaluating Earthquake Induced Liquefaction Susceptibility in Ying Kou City During the Haicheng Earthquake	
K. Arulanandan, C. Yogachanran, N. J. Meegoda, Liu Ying and Shi Zhouji .....	389
Predictions of Pile Shaft Capacity with the PLS Cell	
Amr S. Azzouz and Mohsen M. Baligh .....	416
Flat Dilatometer Tests in Calibration Chambers	
G. Baldi, R. Bellotti, V. Ghionna, M. Jamiolkowski, S. Marchetti and E. Pasqualini .....	431
Residual Soil Settlement from Pressuremeter Moduli	
Richard D. Barksdale, Charles T. Ferry and John D. Lawrence .....	447
N-Values Used to Predict Settlements of Piles in Egypt	
A. R. Bazaraa and M. M. Kurkur .....	462
Landslide Investigations Using the Weight Penetrometer	
B. B. Broms, I. H. Wong and J. Pitts .....	475
Liquefaction Study of Coal Refuse by Nuclear Gauges	
David C. Cowherd .....	487
A Modern Cone Penetration Testing Vehicle	
John L. Davidson and David G. Bloomquist .....	502
ECPT Investigation of a Slurry Trench Cutoff Wall	
William O. Engemoen and Perry J. Hensley .....	514
Landslide Investigation Utilizing Electric Cone Penetration Testing	
Jim French and Alan Kropp .....	529
Waterfront Electric Cone Penetration Testing	
Paul F. Fuglevand, Herb F. Clough, J. Richard Faris and James E. Brigham .....	546
Dilatometer Tests for the Design of Grouted Piles in Rock	
Michael Georgiadis and Alex P. Michalopoulos .....	560
Construction of a Tied Back Cylinder Pile Wall	
Allen B. Gifford, Gordon E. Green, Gerard J. Buechel and Alexander I. Feldman .....	569
Pressuremeter Tests and Shoring Wall Design	
W. Paul Grant and John M. O. Hughes .....	588
Probabilistic Study of SPT Liquefaction Analysis	
Carlton L. Ho and Edward Kavazanjian Jr. ....	602
Lateral Stress Measurement During Cone Penetration	
Scott R. Huntsman, James K. Mitchell, Lucien W. Klejbuk, Jr. and Sanjay B. Shinde .....	617
Correlation of Soil Parameters from In Situ and Laboratory Tests for Building 333	
L. D. Johnson .....	635
In Situ Tests on a Florida Peat	
Thomas J. Kaderabek, David Barreiro and Martin A. Call .....	649
Strength of Fine-Grained Soils Using the Piezocone	
Joseph M. Keaveny and James K. Mitchell .....	668
Dilatometer Tests in Sand	
Suzanne Lacasse and Tom Lunne .....	686
Cone Penetrometer Use on Uranium Mill Tailings	
Ned B. Larson and Burke Mitchell .....	700
Laboratory and Field Evaluation of Cone Penetrometers	
Tom Lunne, Terje Eidsmoen, Don Gillespie and Jonathan D. Howland .....	714

In Situ Test with $K_0$ Stepped Blade Alan J. Luttenegger and David A. Timian .....	730
Pore Pressure Effects in Borehole Shear Testing Alan J. Luttenegger and Kevin F. Tierney .....	752
The DMT- $\sigma_{hc}$ Method for Piles Driven in Clay S. Marchetti, G. Totani, R. G. Campanella, P. K. Robertson and B. Taddei .....	765
CPT Indexing of In Situ OCR in Clays Paul W. Mayne .....	780
Electrical Method of Predicting In-Situ Stress State of Normally Consolidated Clays Namunu J. Meegoda and K. Arulanandan .....	794
Dynamic Consolidation Test on Soft Coastal Sediments A. P. Michalopoulos, G. Varosio and G. A. Scrinzi .....	809
Determining Sand Strength by Cone Penetrometer James K. Mitchell and Joseph M. Keaveny .....	823
Measurement of Vertical Ground Vibrations Peter J. Moore .....	840
Site Characterization Using the Cone Penetrometer Test Richard S. Olsen and John V. Farr .....	854
In Situ Testing to Characterize Electric Transmission Line Routes Craig J. Orchard, Charles Trautmann and Fred H. Kulhawy .....	869
In Situ Testing of Calcareous Sand—Canpos Basin J. A. R. Ortigao, S. L. F. Capellao, M. Morrison, L. De Lamonica .....	887
Soil Improvement Evaluation by CPT for Tanks Yoshio Ozawa, Susumu Sunami and Masaaki Kosaka .....	900
High Quality Sampling and In Situ Testing for Deep Water Geotechnical Site Investigations Larry M. Peterson, Gary W. Johnson and Lowell V. Babb .....	913
Effect of Cementation on the Cone Penetration Resistance of Sand Nader S. Rad and Mehmet T. Tumay .....	926
North American Standard Penetration Test Practice: An Essay Charles O. Riggs .....	949
Use of Piezometer Cone Data P. K. Robertson, R. G. Campanella, D. Gillespie and J. Greig .....	1263
Design Parameters for Grouted Piles in Rock from In Situ Load Tests J. L. Santiago and A. Garcia Fragio .....	968
CPT/DMT QC of Ground Modification at a Power Plant J. Schmertmann, W. Baker, R. Gupta and K. Kessler .....	985
Comparison Between In-Situ Test Results Zoltan V. Solymar and David J. Reed .....	1236
Rehabilitation of Blackfoot Dam In-Situ Testing and Analyses Michael P. Stuhr and Grady W. Williams .....	1002
Bearing Capacity of Footings on Clay CPT Method Kenneth E. Tand, Erik G. Funegard and Jean-Louis Briaud .....	1017
In Situ Measurement of Permeability in Soft Clays F. Tavenas, M. Tremblay, G. Larouche and S. Leroueil .....	1034
In-Place Permeability Measurement of Slurry Trench Cutoff Walls Ray M. Teeter and Samuel P. Clemence .....	1049
Skin Friction Evaluated from Friction Meter Test Masanari Tominaga and Hideo Hanzawa .....	1062

Uplift Capacity of Pile Foundation Using CPT Data Keith D. Tucker .....	1077
The Mudslide Profile Method to Measure the Undrained Shear Strength of Muds Luis E. Vallejo .....	1094
Initial Results from an In-Situ Consolidometer V. Vitayasupakorn and S. Banerjee .....	1249
Vane Shear Testing for Staged Construction Willis L. Walker .....	1108
Interpretation of CPT Data for Design of Earth Dams Near Tehachapi, California William A. Ward .....	1119
Seepage Studies Using Tracers and the Self Potential Test Grady W. Williams .....	1134
Analysis of Liquefaction Potential by Insitu Testing I. H. Wong .....	1150
A Relationship between Deformation Modulus and SPT N for Gravels B. P. Wrench and E. A. Nowatzki .....	1163
The Use of Cone Penetrometer Testing to Investigate Sandfill Subsidence Beneath Highways R. Yilmaz and M. R. Hornsnell .....	1178
Effective Stress Interpretation of In-Situ Tests Yudhbir and A. V. S. N. Prakasa Rao .....	1189
Fast, Economical, Cone Testing of River Sediments Thomas F. Zimmie and Carlos R. Cordon .....	1201
<b>Subject Index</b> .....	1281
<b>Author Index</b> .....	1283
