

# THE GEOTEXTILES and GEOMEMBRANES MANUAL

1st Edition

Dr T. S. Ingold

B.Sc., M.Sc., Ph.D., D.I.C., Eur.Ing., C.Eng., M.Cons.E.,  
F.I.C.E., F.I.H.T., F.G.S., F.A.S.C.E., M.Soc.IS(France)

ELSEVIER  
ADVANCED  
TECHNOLOGY

# Contents

## **CHAPTER ONE - Introduction**

Introduction .....	1
The advent of synthetic polymers .....	6
Early developments in geotextiles .....	6
Early developments in geocomposites .....	10
Early developments in geomeshes and geonets .....	12
Early developments in geogrids .....	13
Early developments in geomembranes .....	15
Basic geosynthetic properties .....	18
Testing of geosynthetics .....	39
Functions and applications .....	43
References .....	66

## **CHAPTER TWO - Polymers And Their Identification**

Polymers and their identification .....	71
The morphology of polymers .....	72
Plastics used for geotextiles and related products .....	77
Plastics used for geomembranes .....	78
Polymer identification .....	87
Volatiles .....	89
Extractables .....	90
Ash .....	91
Specific gravity (SG) .....	92
Thermogravimetric analysis (TGA) .....	92
Differential scanning calorimetry (DSC) .....	95
Thermomechanical analysis (TMA) .....	99
Infra-red spectroscopy (IR) .....	99
Gas chromatography (GC) .....	100
Density determination ( $\rho$ ) .....	101
Melt index (MI) .....	102
Gel permeation chromatography (GPC) .....	102
Fingerprinting .....	104
References .....	106

**CHAPTER THREE - Production Processes**

Production processes .....	107
Basic processing .....	108
Woven textiles .....	111
Nonwoven geotextiles .....	121
Knitted and stich bonded geotextiles .....	127
Geogrids .....	131
Geonets .....	136
Geomeshes .....	138
Geomats .....	141
Geocells .....	143
Geocomposite drains .....	145
Geomembranes .....	150
References .....	153

**CHAPTER FOUR - Properties Related To Structure**

Properties related to structure .....	154
Physical properties .....	155
Tensile Strength .....	161
Tear strength .....	173
Puncture and burst strengths .....	174
Friction .....	177
Pore size .....	193
Permeability and transmissivity .....	199
Creep .....	203
Durability .....	229
References .....	242

**CHAPTER FIVE - Properties Of Soil**

Properties of soil .....	247
The nature of soil .....	248
The principles of effective stress .....	250
Phases and physical states .....	254
Particle size distribution .....	260
Unit weight .....	265
Permeability .....	269
Aspects of shear strength .....	272
Undrained shear strength of cohesive soils .....	280
Drained shear strength of cohesive soils .....	286
Drained shear strength of noncohesive soils .....	290
References .....	297

**CHAPTER SIX - Elements Of Design**

Elements of design .....	299
Groundwater control using trench drains .....	300
Groundwater control using horizontal drainage blankets .....	312
Groundwater control using fin drains .....	324
Static filter design .....	335
Erosion control .....	352
Roads and railways .....	373
Reinforced soil walls .....	409
Reinforced soil slopes .....	426
Margins of safety in reinforced soil walls and slopes .....	438
Basal reinforcement .....	457
References .....	474

**CHAPTER SEVEN - Standards And Specifications**

Standards and specifications .....	485
National and international standards for testing .....	486
ASTM standards .....	489
CEN standards .....	493
National specifications .....	495
Belgium .....	496
Finland .....	497
France .....	499
Germany .....	503
Sweden .....	509
United Kingdom .....	511
United States .....	531
References .....	538

**CHAPTER EIGHT - Products Directory**

Products directory .....	542
Directory layout .....	543
Geotextiles .....	544
Geogrids, geonets and geomats .....	566
Geocomposite drains .....	574
Geomembranes .....	585

**Advertisers Index**

Advertiser's index .....	597
--------------------------	-----

**Editorial Index**

Editorial index .....	599
-----------------------	-----
