

STRESS AND DEFORMATION

A Handbook on Tensors in Geology

Gerhard Oertel

University of California, Los Angeles

New York Oxford

OXFORD UNIVERSITY PRESS

1996

CONTENTS

	Symbols and Notation	x
Chapter 1.	Vectors (Problems 1 to 20)	3
Chapter 2.	Fields (Problems 21 to 25)	10
Chapter 3.	Matter Tensors and Coordinate Transformations (Problems 26 to 75)	13
Chapter 4.	Stress (Problems 76 to 97)	44
Chapter 5.	Infinitesimal Strain (Problems 98 to 115)	56
Chapter 6.	Finite Strain (Problems 116 to 124)	72
Chapter 7.	Effects of Stress (Problems 125 to 135)	85
Chapter 8.	Strain History and Polar Decomposition (Problem 136)	94
	Answers	97
	Summary of Formulæ	270
	Appendix A. Elastic Parameters for Isotropic Bodies	286
	Appendix B. Units of Stress	287
	References	288
	Index	289
