Physics of Shallow Estuaries and Bays

Edited by J. van de Kreeke

Springer-Verlag
Berlin Heidelberg New York Tokyo

CONTENTS

Contributors	V
Acknowledgement	IX
I Introduction	1
II Large Scale Mixing	5
Large-Scale Mixing Processes in a Partly Mixed Estuary <i>G. Abraham, P. de Jong & F.E. van Kruiningen</i>	6
Circulation and Salt Flux in a Well Mixed Estuary <i>B. Kjerfve</i>	22
Currents and Salinity Transport in the Lower Elbe Estuary: Some Experiences from Observations and Numerical Solutions <i>K.C. Duwe & J. Sündermann</i>	30
III Residual Currents	41
Generalised Theory of Estuarine Dynamics <i>D. Prandle</i>	42
Synoptic Observations of Salinity, Suspended Sediment and Vertical Current Structure in a Partly Mixed Estuary <i>R.J. Uncles, R.C.A. Elliott, S.A. Weston, D.A. Pilgrim, D.R. Ackroyd, D.J. McMillan & N.M. Lynn</i>	58
Analysis of Residual Currents Using a Two-Dimensional Model <i>Po-Shu Huang, Dong-Ping Wang & T.O. Najarian</i>	71
Residual Currents, A Comparison of Two Modelling Approaches <i>H. Gerritsen</i>	81
On Lagrangian Residual Ellipse <i>R.T. Cheng, Shizuo Feng & Pangen Xi</i>	102
A Simulation of the Residual Flow in the Bohai Sea <i>Zhang Shuzhen, Wang Huatong, Feng Shizuo, Xi Pangen</i>	114

	Principal Differences Between 2D- and Vertically Averaged 3D-Models of Topographic Tidal Rectification <i>J.T.F. Zimmerman</i>	120
IV	Low-Frequency Motions	131
	Subtidal Current Variability in the Lower Hudson Estuary <i>R.E. Wilson & R.J. Filadelfo</i>	132
	Subtidal Exchanges Between Corpus Christi Bay and Texas Inner Shelf Waters <i>N.P. Smith</i>	143
V	Coastal Circulation	153
	Water Circulation in a Topographically Complex Environment <i>E. Wolanski</i>	154
	Roles of Large Scale Eddies in Mass Exchange Between Coastal and Oceanic Zones <i>Sotoaki Onishi</i>	168
	Coastal Circulation in the Key Largo Coral Reef Marine Sanctuary <i>T.N. Lee</i>	178
	Effects of Coastal Boundary Layers on the Wind-Driven Circulation in Shallow Sea <i>Su Jilan</i>	199
VI	Sediment Transport	209
	Suspended Sediment Transport in Rivers and Estuaries <i>M. Markofsky, G. Lang & R. Schubert</i>	210
	Tide-Induced Residual Transport of Fine Sediment <i>J. Dronkers</i>	228
	Hydrodynamic Controls on Sediment Transport in Well-Mixed Bays and Estuaries <i>D.G. Aubrey</i>	245
	Sediment-Driven Density Fronts in Closed End Canals <i>Chung-Po Lin & A.J. Mehta</i>	259
	Index	277
