Operation and maintenance of urban water supply and sanitation systems

A GUIDE FOR MANAGERS

World Health Organization
Geneva
1994

Contents

Preface	vii
Acknowledgements	ix
Introduction	1
Objective of this publication	2
How to use this publication	3
<hr/>	
Part 1. The systems approach to management	5
<hr/>	
Chapter 1. Organizational systems	7
Chapter 2. The operational system	11
Definition	11
Objectives	11
Component elements	12
Chapter 3. Subsystems of the operational system	14
Design and construction management subsystem	14
Water and sanitation operation subsystem	16
Installations and equipment maintenance subsystem	20
<hr/>	
Part 2. Management of operation and maintenance	23
<hr/>	
Chapter 4. Management levels	25
Senior management	25
Middle management	28
Operational management	30
Relationship between management levels and agency functions	33
<hr/>	
Part 3. Planning and control of operation and maintenance	37
<hr/>	
Chapter 5. Loss control programme	39
Reducing loss of water	39
Objectives of a loss control programme	42
Component projects	43

Chapter 6.	Water loss control projects of the operational system	44
	Network survey	44
	Macrometering	46
	Leakage control	47
	Mapping and inventory of pipes and fittings in the water supply system	49
	Improvement of house connections	49
	Controlling the operation of the water supply system	50
	Water demand	51
	Electromechanical maintenance and instrumentation	51
	Maintenance of distribution networks	53
	Review of design and construction criteria	54
Chapter 7.	Water loss control projects of other organizational systems	55
	Projects of the commercial system	55
	Projects of the human resources administration and development system	56
	Projects of the administration support system	56
Chapter 8.	Programme for the control of the production and quality of drinking-water	58
	Definition	58
	Objectives	58
	Projects	59
Chapter 9.	Programme for the operation and maintenance of sewage collection, treatment, re-use and disposal	63
	Objective	63
	Projects	63
<hr/> Part 4. Information systems		71
Chapter 10.	The basis for management decision-making	73
	Centres of decision	73
	Management indicators	74
Chapter 11.	Decision support systems	82
Chapter 12.	Management decisions	85
	Budget preparation	85
	Staffing and equipment	85
	Materials and services	85
	Evaluation of productivity	86

Part 5. Implementation	87
Chapter 13. Establishing a functional organizational structure	89
Defining an organizational structure	90
Implementing a functional organizational structure	91
Chapter 14. Developing human resources	93
Objective	93
Activities	93
Staff training	95
Chapter 15. Developing a management information system for operation and maintenance	96
Objective	96
Activities	96
Chapter 16. Organizing the programmes	98
Functional structure	98
Tasks	99
Implementation by agencies	100
Selected further reading	101
