

17TH ARRB CONFERENCE
GOLD COAST, QUEENSLAND
15 - 19 AUGUST 1994

Pavement Design & Performance

Quality in Road Construction

2

17th Conference Proceedings - Part 2
Australian Road Research Board Ltd

Contents

Pavement Design

- Concrete pavement modelling
G.S. Donald and G.P. Ayton 51
- Mechanistic design approach for unsealed mine haul roads
D.B. McInnes, J.R. Morgan and J.S. Tucker 69
- The development of the Australian mechanistic approach to overlay design
D.W. Potter, G. Jameson, B. Vuong, M. Moffatt, R. Yeo, A. Makarov 265

Pavement Performance

- Vehicle dynamics and pavement performance models
J. de Pont and B. Pidwerbesky 17
- Relating strain response and performance of flexible pavements under
accelerated loading at CAPTIF
B. Pidwerbesky 1
- The performance of a fine grained marginal material under accelerated loading
B. Vuong, K.G. Sharp, E. Baran and N.J. Vertessy 145

Embankments/Moisture

- Modelling the response of pavements to subgrade volume change
K.B. Wallace and B.K. Sapkota 199
- Role of soil suction in cracking of West Gate Freeway pavements
F. Marmaras, H.V.P. Truong, B.G. Richards, and J.C. Holden 33
- Development of a specification for reactive clay roadway embankments
B. Look, I. Reeves, and D. Williams 249
-
-

Quality Control/Construction Management

Working with our suppliers. A case study from Mittagong in the customer-supplier relationship.

R. Abraham 83

Road construction QMS — key issues: responsibilities, cost-effectiveness and product quality

A. Auff 115

Thin layer asphalt nuclear density meter investigation

W. A Nielsen and G.I. Hamory 165

Quality management in the road construction industry

G. Schubert 127

Repeated Load Testing

The effect of traffic loads and environmental conditions on resilient modulus

L.O. Odezugo, I.B. Donald and A.K. Parkin 181

Dynamic flexure testing for prediction of cement-treated pavement life

A. Litwinowicz and A.N. Brandon 229

Some aspects in the assessment of crushed rock materials for use in airport pavement construction

B. Vuong 211

On the response of granular unbound pavement materials under repeated loading

A. Nataatmadja 99
