

PROCEEDINGS OF THE TWELFTH EUROPEAN CONFERENCE ON SOIL MECHANICS AND  
GEOTECHNICAL ENGINEERING/AMSTERDAM/NETHERLANDS/7-10 JUNE 1999

# Geotechnical Engineering for Transportation Infrastructure

Theory and Practice, Planning and Design, Construction and Maintenance

*Edited by*

F.B.J. Barends, J. Lindenberg, H.J. Luger, L. de Quelerij & A. Verruijt

VOLUME 1

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1999

Table of contents  
Table des matières

Preface	XIII
Préface	
Acknowledgement	XXI
Reconnaissance	
<i>Keverling Buisman heritage lecture</i>	
<i>Conférence d'héritage Keverling Buisman</i>	
Dynamics of soils with hysteretic damping A. Verruijt	3
General aspects of transportation infrastructure	
Aspects généraux des infrastructures de transport	
<i>Key lectures / Conférences spéciales</i>	
General aspects of transportation infrastructure K. Karlsrud	17
Understanding the behaviour of unpaved roads on soft clay G.T. Houlsby & H.J. Burd	31
<i>Geotechnical impact of transportation infrastructure</i>	
<i>L'Impact géotechnique des infrastructures de transport</i>	
<i>Invited papers / Communications sur invitation</i>	
Prediction of tunnel-induced displacements in historic buildings: the case of Castel S. Angelo G. Calabresi, S. Rampello & L. Callisto	45
Road and railway embankments on collapsible soils A. Marcu	57
Possibilities of tunnelling engineering I.T. Vähäaho	61
Jet grouting – A method to control ground settlements and overbreak failures caused by tunneling in weak rock conditions I.K. Mihalis	65
Geotechnics should play an important role in planning and design A-L. Öberg-Högsta	71
<i>Papers / Communications</i>	
Forecast of geotechnical parameters of transportation infrastructure S. Andrei, S. Manea & L. Jianu	77
Reuse of an industrial waste in road constructions I. Bellezza, E. Pasqualini & M. Stella	83

The influence of pre-failure soil modelling on the behaviour of open excavations <i>L. Callisto, A. Amorosi &amp; S. Rampello</i>	89
Mechanical behaviour of a big rockfill highway embankment <i>V. Cuéllar, J.L. García, J.L. Monte &amp; J. Valerio</i>	97
Mapping of potential shoreline slide areas in Northern Norway <i>A. Emdal &amp; S. Nordal</i>	103
Highway slope stabilisation by a drainage tunnel - A parametric study <i>I.F. Fikiris, G.T. Dounias, T.I. Addenbrooke &amp; D.M. Potts</i>	109
The 21st century infrastructure project Transrapid Berlin-Hamburg - Geotechnical challenge with innovative solutions <i>H. Fricke, M. Thaher, G. Müller &amp; S. Scholz</i>	115
The geotechnical estimation of the transportation infrastructure planning for urban areas <i>S. Gadeikis</i>	123
Destruction of slopes of railway channel <i>L.K. Ginzburg</i>	129
Risk assessments for existing buildings in areas affected by groundwater lowering for the Copenhagen metro <i>M.A. Gordon, P.G. Jackson, J.K. Frederiksen &amp; J. Pedersen</i>	135
Effective construction of railway underpass bridges on steel pipe piles <i>J. Hartikainen, M. Koskinen &amp; J. Suomalainen</i>	141
Analysis of tunnel-induced settlement damage to surface structures <i>G.T. Houlsby, H.J. Burd &amp; C.E. Augarde</i>	147
Ground deformations due to the boring of the Second Heinenoord Tunnel <i>E.P. van Jaarsveld, J.W. Plekkenpol &amp; C.A. Messmaeckers van de Graaf</i>	153
Construction behaviour of a road slope reinforced with geogrids <i>M. Lurdes Lopes, A. Mendonça &amp; M. Isabel Pinto</i>	161
Lagooned power station ashes: Static and dynamic properties – Reuse for highway embankments <i>A. Marcu, B. Slujitoru &amp; A. Nabosnyi</i>	167
The improvement of soil properties by oil-shale ash <i>M. Mets &amp; H. Torn</i>	173
Living Reinforced Earth - an ecological method of stabilizing steep slopes <i>B. Schuppener &amp; J. Hoffmann</i>	179
Tests on the ground borne vibrations during exploitation of bored tunnels <i>W. Soede &amp; F. De Graaf</i>	185
Full scale injection test North/South Metroline Amsterdam <i>A.E.C. van der Stoel</i>	191
Assurance of stability of highway cutting <i>P. Turèk &amp; R. Ravinger</i>	199
The use of soil-rockfill mixtures in the construction of roadfills <i>A. Veiga Pinto &amp; E. Fortunato</i>	205
Geotechnical design aspects of the deep underground stations in the North/South Line in Amsterdam <i>J.C.W.M. de Wit, J.C.S. Roelands &amp; R.A. Schiphouwer</i>	211
Geotechnical engineering for transportation infrastructure in Singapore. Part A: Road and expressway networks <i>K.S. Yang &amp; S.L. Chiam</i>	221
Geotechnical engineering for transportation infrastructures in Singapore. Part B : Airport developments <i>K.S. Yang &amp; S. L. Chiam</i>	229
Design & practice on special deep & large excavation engineering in Shanghai <i>X.H. Zhao, J. Gong, Z.M. Chen &amp; Y. Bao</i>	239

*Dealing with uncertainties*  
*Faire face aux incertitudes*

*Invited papers / Communications sur invitation*

Assessment of a characteristic value by means of a small sample <i>H. Denver</i>	247
Uncertainties in damage criteria for sensitive structures subjected to construction-induced ground vibrations <i>C. Sagaseta &amp; J.M. Sánchez-Alciturri</i>	257
Some aspects of partial factoring in geotechnics <i>C.G. Alén</i>	267
Determination of characteristic soil properties <i>H.R. Schneider</i>	273
Evaluation of uncertainties in the interaction of water, structure and soil <i>J.K. Vrijling</i>	283
Behaviour and modelling of rigid, semi-rigid and flexible piles under horizontal loading <i>J.-P. Magnan, V. Shakhirev &amp; H. Ejjaouani</i>	289
<i>Papers / Communications</i>	
The derivation of the characteristic values of shear strength parameters according to EC7 <i>G. Van Alboom &amp; P. Mengé</i>	295
Uncertainties in modeling of soil properties <i>C.G. Alén &amp; G.B. Sällfors</i>	303
Assessment of minimal risk criteria on the coast road of Ide de la Réunion <i>P. Alfonsi</i>	309
Geotechnical aspects in risk analysis of deep excavations for underground traffic systems <i>P. Amann, L. Edelmann, D. Stroh &amp; M. Hertweck</i>	315
Decision support model for the selection of construction methods for road embankments and widenings on soft soil <i>A.S. Barneveld &amp; A.A.M. Venmans</i>	321
Site investigation beyond the face of a gallery using frequential seismic survey <i>P. Bousquet-Jacq &amp; P. De Sloovere</i>	327
Drilling data logging on the new TGV Railway to the Mediterranean sea <i>M. Cassan &amp; M. Gambin</i>	331
Volume change behaviour of a loess from Northern France <i>Y.J. Cui, P. Delage, F. Schlosser &amp; M. Wojnarowicz</i>	337
Assessment of a characteristic value as a fractile of the mean value <i>H. Denver</i>	343
Compaction control of embankments using the variable energy light dynamic penetrometer - Panda <i>R. Gourvès &amp; S. Zhou</i>	351
Maintenance of reliability of support of transport outcomes in a cryolithic zone <i>V.I. Grebenets, A.G. Kerimov, N.D. Shklyarov, A.V. Sadovski &amp; V.A. Savchenko</i>	357
Physical and numerical modelling of the interaction between an obstacle and an active limited thickness slide <i>Y. Guerpillon, L. Boutonnier, O. Gay, P. Foray &amp; E. Flavigny</i>	363
Some uncertainties of the elastic-plastic earth pressure model <i>P. Koudelka</i>	369
Calibration of partial factors for waterfront structures <i>J.-B. Kovarik</i>	375
Target structural safety factors in transportation infrastructure <i>A. Kudzys, L. Furmonavičius &amp; Alg. Kudzys</i>	381
The importance of dealing with uncertainties in foundation analysis <i>S. Lacasse</i>	385
Classification of soils using in situ ultrasonic velocity techniques <i>H. Lemoni &amp; B. Christaras</i>	393

Geotechnical design and behavior of the Kertih breakwater <i>H.J. Luger &amp; A.H. Nooy van der Kolff</i>	401
Geotechnical characterization of industrial sludges <i>J. Maertens, D. Van Gemert, R. Willocx, J. Houtmeyers &amp; M. D'Hondt</i>	409
Limit equilibrium back analysis of failed slopes in transportation engineering projects <i>M. Popescu, T. Yamagami &amp; A. Federico</i>	417
Settlement reducing piles - Dealing with risk <i>M.I. Smedley &amp; A. Tucker</i>	425
Estimation of corrosion rate in durability design of steel piles <i>J. Törnqvist &amp; J. Lehtonen</i>	433
Survey investigations of the stability and erosion state of road constructions in Sweden <i>L. Viberg, P. Löfling, N. Jelusic &amp; H. Nordlander</i>	439
 <b>Harbours and waterways</b> <b>Ports et voies navigables</b>	
<i>Special projects / Projets spéciaux</i>	
The Vasco de Gama Bridge over the river Tagus in Lisbon - Main geotechnical aspects <i>R. Manuel Correia &amp; P.S. Sêco e Pinto</i>	447
An integrated approach to the site investigation and earthquake response analysis for the San Francisco-Oakland Bay Bridge east span replacement <i>T.W. McNeilan, M.J. Chacko, C.B. Dean, J. Reitman, I.P. Lam &amp; R. Buell</i>	459
Quay walls of the Rotterdam Harbour <i>A.F. van Tol &amp; J.G. de Gijt</i>	471
Geotechnical design and construction of breakwaters, Bilbao Harbour <i>E.E. Alonso &amp; A.Gens</i>	489
 <i>Harbour works and bridges</i> <i>Travaux portuaires et ponts</i>	
<i>Invited papers / Communications sur invitation</i>	
Longitudinal pipeline-soil interaction: results from field full scale and laboratory testing <i>G. Scarpelli, E. Sakellariadi &amp; G. Furlani</i>	511
Combined offshore investigation methods <i>J.B. Clausen</i>	521
<i>Papers / Communications</i>	
Facilitated design of sheet pile walls by means of KSP <i>N. Bønding &amp; O. Hededal</i>	527
Geotechnical aspects on the development of Constantza Port-Romania <i>R. Ciortan</i>	533
New foundation concept for a large bridge <i>Y. El-Mossallamy</i>	541
Bearing capacity of piles <i>S. Elsoufiev</i>	547
Changes in total stresses and pore water pressures during piling <i>B. Johansson &amp; L. Jendeby</i>	553
Shallow anchor foundation for transmission towers <i>S. Koprivica</i>	559
Renovation of a lock by means of special techniques <i>J. Maertens, N. Terry, P. Mengé &amp; E. Willems</i>	567
Bridge foundations in artesian river beds <i>V.V.S. Rao, N. Koshi &amp; T. Viswanathan</i>	573

Pile driving fatigue damage, a case story <i>J. Lorin Rasmussen &amp; T. Feld</i>	577
Deep building pits in high groundwater level in the heart of Berlin: Difficulties and aspects of design <i>T. Richter &amp; O. Pekoll</i>	583
Vibration monitoring of a dynamic compaction work on an fill at Santa Cruz de la Palma Harbour (Canary Island) <i>M. Romana Ruiz &amp; C. Jurado</i>	591
Landslides in overconsolidated clay – geotechnical measurements and calculations <i>R. Schulze &amp; H.-J. Köhler</i>	601
Foundation of the Øresund bridge <i>C.S. Sørensen, A. Bisgaard &amp; O. Hededal</i>	609
Improving of the bearing capacity of bridge supports on large diameter piles <i>A. Tejchman, K. Gwizdala &amp; M. Topolnicki</i>	617
Evaluation of soil parameters in the Binh Bridge project <i>P.A. Tolla &amp; Ö.T. Ravaska</i>	623
Acoustic surveys of harbour area sediment processes & properties <i>P.M. Maurenbrecher, T.C. Wever, P. Whiteside &amp; S.K.C. Ng</i>	631
