

# LANDSLIDES

in research, theory and practice

VOLUME 1

Edited by E. Bromhead, N. Dixon  
and M-L. Ibsen

Proceedings of the 8<sup>th</sup> International Symposium on Landslides  
held in Cardiff on 26–30 June 2000

Thomas Telford

## Contents

<b>Geological Factors Influencing the Naketiya Landslide</b> A. W. W. ABEYKOON, Research & Development Division, Road Development Authority, Ratmalana, Sri Lanka	1
<b>Monitoring and Modelling of Unsaturated Flow and Effects on Stream-bank Failures</b> A. M. AFFUSO, N. CASAGLI, S. DAPPORTO, G. GABBANI, A. GARGINI and M. RINALDI, Dipartimento di Scienze della Terra, Università di Firenze, Italia	7
<b>Hydrogeological Risk Assessment of the Po River Basin (Italy)</b> P. ALEOTTI, P. BALDELLI, G. POLLONI, Aquater S.p.A., San Lorenzo in Campo, Italy, M. GOVI, Po River Basin Authority Technical Committee, Parma, Italy, and B. VILLANI, Arpa Agenzia, Bologna, Italy	13
<b>Debris Flow Hazard and Risk Assessment Using Airborne Laser Terrain Mapping Techniques (ALTM)</b> P. ALEOTTI, G. POLLONI, Aquater S.p.A. via Tolstoj 86, San Giuliano Milanese, Italy, P. CANUTI, and A. IOTTI, Earth Science Dept., University of Florence via La Pira 4, Florence	19
<b>Impact of Mass Movement on Landscape and Nature Transformation in the Polish Carpathians</b> Z. ALEXANDROWICZ and W. MARGIELEWSKI, Institute of Nature Conservation of Polish Academy of Sciences, Kraków, Poland	27
<b>Risk Assessment of Landslide Using Fuzzy Theory</b> S. M. ALI JAWAID, Civil Eng. Dept., M. M. M. Eng. College, Gorakhpur, India	31
<b>Measuring of Slope Surface Displacement by Using Digital Image Processing</b> H. G. B. ALLERSMA, Delft University of Technology, Netherlands	37
<b>Neural Networks: a Solution for the Factor of Safety Problems in Slopes</b> A. A. AL-TUHAMI, Department of Structural Engineering, Faculty of Engineering, Zagazig University, Zagazig, Egypt	45
<b>Slope Stability Studies of Vyasi Dam Reservoir Area, Garhwal Himalaya, U. P. India</b> R. ANBALAGAN, N. C. N. SRIVASTAVA, Department of Earth Science, University of Roorkee, Roorkee, India and VIKRANT JAIN, Engineering Geology Group, Department of Civil Engineering, Indian Institute of Technology, Kanpur, India	51

<b>Sentinel Landslide, Dam Breach, and Road Reconstruction Zion National Park, Utah</b>	57
S. A. ANDERSON, J. O. WILLIAMS, URS Greiner Woodward Clyde, Landslide Technology Group, Denver and S. GREENWELL, Federal Highway Administration – CFLHD, Denver, USA	
<b>The Landslide at Vagnhärad in Sweden</b>	65
H. ANDERSSON, P-E. BENGTSSON, C. BERGLUND, R. LARSSON, Swedish Geotechnical Institute, Linköping, Sweden, G. SÄLLFORS and A-L. ÖBERG-HÖGSTA, Chalmers University of Technology, Göteborg, Sweden	
<b>An Analytical Approach to Obtain the Actual Groundwater Response Using Open Standpipe Piezometers</b>	71
M-G. ANGELI, National Research Council, IRPI Institute, Perugia and P. GASparetto, IQT Consulting S.r.l., Rovigo, Italy	
<b>Slopes affected by soil slips: validation of an evolutive model</b>	77
L. ANTRONICO, G. GULLA, CNR-IRPI, Rende (CS), Italy	
<b>Coastal Protection in a Proposed World Heritage Site</b>	85
D. ATHERTON and K. BURBIDGE, Peter Brett Associates, Reading, UK	
<b>Space and Time Distribution of Landslides in a Mediterranean River Basin: Trigno River Valley (S. Italy)</b>	91
P. P. C. AUCELLI, Università degli Studi del Molise, Facoltà di Scienze MM. FF. NN., Isernia, Italy, A. CINQUE, G. ROUSTELLI, Università Federico II, Dipartimento di Scienze della Terra, Napoli and C. ROSSKOPF, Università degli Studi del Molise, Italy	
<b>Some Problems Linked With Landsliding in Albania</b>	97
S. AXHEMI, University "Luigj Gurakuqi", Department of Geography, Shkoder, Albania	
<b>Factors Affecting Slope Stability in the Blue Nile Basin</b>	101
L. AYALEW, Technical University of Clausthal, Department of Engineering Geology, Clausthal-Zellerfeld, Germany	
<b>New Typology of Low Environmental Impact Consolidation for Rockfall Prone Cliffs Through Interventions from the Underground</b>	107
S. BANDIS, University of Thessaloniki, Greece, V. COLOMBINI, University of Basilicata, Potenza, Italy, G. DELMONACO and C. MARGOTTINI, ENEA CR Casaccia, Ministry of Environment, Rome, Italy	
<b>Slope Movement Patterns in Young Valley Slopes in Northern Alberta, Canada</b>	113
J. P. BARLOW, AGRA Earth & Environmental Ltd., Edmonton, Canada.	
<b>Stability of a Slope in Perm with a Building Complex Located on it, Analysis and Slope Stabilization</b>	121
A. A. BARTOLOMEY, L. A. BARTOLOMEY, Perm State Technical University, Perm, Russia, and S.V. IRUNDIN, FBB PSTU Perm, Russia	

<b>Inclinometer and Tiltmeter Monitoring of a High Chalk Cliff</b>	127
M. E. BARTON and A. M. MCCOSKER, Department of Civil & Environmental Engineering, University of Southampton, UK	
<b>Causes of Landslides in the Darjiling Town of the Eastern Himalaya</b>	133
S. R. BASU, Department of Geography, Calcutta University, 35, Ballygunge Circular Road, Calcutta 700019, India	
<b>Ground Water Isolation by Low-Permeability Clays in Landslide Shear Zones</b>	139
R. L. BAUM, U.S. Geological Survey, Denver, Colorado, USA, and M. E. REID, U.S. Geological Survey, Menlo Park, California, USA	
<b>Monitoring Principles of Civil Works located in Landslide-prone Areas</b>	145
Ch. BONNARD, F. MAYORAZ and F. NOVERRAZ, Swiss Federal Institute of Technology, Lausanne, Switzerland	
<b>Measured Response to a Drainage Adit in a Deep Creeping Slide Mass</b>	151
L. BONZANIGO, Bonzanigo Geologo Consulente, Bellinzona, Switzerland, E. EBERHARDT and S. LOEW, Engineering Geology, Swiss Federal Institute of Technology, ETH Zürich, Switzerland	
<b>Mass Movements on Granitic Slopes and the Question of Human Interference</b>	157
J. A. BOURNE and C. R. TWIDALE, Department of Geology and Geophysics, University of Adelaide, Adelaide, South Australia	
<b>Regularities of Spreading and Forming of Landslides in Armenia</b>	163
V. R. BOYNAGRYAN, B. V. BOYNAGRYAN, A. V. BOYNAGRYAN, Yerevan State University, Yerevan, Armenia	
<b>Landslide-Rockfalls in Valley of River Baidak</b>	167
V. R. BOYNAGRYAN, S. P. BALYAN, R. H. GAGINYAN, A. A. AIRIYANTS, A. V. BOYNAGRYAN, A. S. MKRTCHYAN, K. R. CHOBANYAN, Yerevan State University, Yerevan, Armenia	
<b>An Interpretation of Slope Dynamics in Pisticci (Southern Italy)</b>	171
F. BOZZANO, M. FLORIS, Dipartimento di Scienze della Terra, Università degli Studi di Roma "La Sapienza", Rome, Italy, and M. POLEMIO, CNR CERIST, Bari, Italy	
<b>Numerical Modelling of Slopes Surrounding Ignimbrite Plateaux</b>	177
F. BOZZANO, M. GAETA, G. SCARASCIA MUGNOZZA and G. VALENTINI, Dipartimento di Scienze della Terra, Università "La Sapienza", Roma, Italy	
<b>Shallow Landslides in Wadhurst Clay at Robertsbridge, Sussex, UK</b>	183
E. N. BROMHEAD, Kingston University, M. HUGGINS, Fugro UK Ltd, M-L. IBSEN, Kingston University, UK	

<b>Analysis of Engineering Geological Efficiency of Anti-Landslide Measures in Odessa, Ukraine</b>	189
B. V. BUDKIN, Centre of Engineering Research, Odessa, Ukraine and E. A. CHERKEZ, Odessa State University, Ukraine	
<b>Investigation and Monitoring of Landslides with Torrential Significance in the Bavarian Alps</b>	195
G. BUNZA, Bavarian Water Management Agency, Munich, Germany and University of Innsbruck, Tyrol, Austria	
<b>A Dynamic Model of Shallow Slope Motion Driven by Fluctuating Ground Water Levels</b>	203
R. BUTTERFIELD, Department of Civil and Environmental Engineering, University of Southampton, UK	
<b>The Influence of Meteoric Events in Triggering Shallow Landslides in Pyroclastic Deposits of Campania, Italy</b>	209
D. CALCATERRA, Department of Geotechnical Engineering, Section of Applied Geology, Federico II University of Napoli, M. PARISE, CERIST, National Research Council, Bari, B. PALMA, Vico Equense (Napoli) and L. PELELLA, Somma Vesuviana (Napoli), Italy	
<b>Preliminary Study for Landslide Hazard Assessment: GIS Techniques and a Multivariate Statistical Approach</b>	215
S. CAMPUS, F. FORLATI, Regione Piemonte, Direzione Servizi Tecnici di Prevenzione, Settore Studi e Ricerche Geologiche, Torino, Italy and C. SCAVIA, Politecnico di Torino, Structural Engineering and Geotechnique, Torino, Italy	
<b>Long-term Stability of Overburden Dump Slopes in Recultivated Lignite Mines of Central Germany - Prediction of Maximum Pore Water Pressures</b>	221
A. CARSTENSEN and W. POHL, Institute of Geosciences, Technical University, D-38023 Braunschweig, Germany	
<b>Interaction Between Dams and Landslides: Three Case Histories</b>	227
A. CATALANO, V. CHIEPPA and C. RUSSO, Geotechnical Bureau of the Italian National Dam Service, Italy	
<b>A Landslide along Gently Dipping Bed Surfaces</b>	233
BYUNG-GON CHAE, YONG-CHAN CHO, WON-YOUNG KIM, KYEONG-SU KIM Korea Institute of Geology, Mining and Materials (KIGAM), 30, Kajung-dong, Yusung-gu, Taejon, 305-350, South Korea	
<b>The Stabilisation of the A4061 at Foel Goch Landslide</b>	239
S. CHAMBERS, Halcrow Group Ltd, Cardiff, UK	
<b>Remediation of the Watawala Landslide, Sri Lanka</b>	245
K. R. CHANDLER and M. BROISE, Douglas Partners, Sydney & Melbourne, Australia	

<b>Landslides in the North-Western Black Sea Region</b>	251
Y. CHERKEZ, T. KOZLOVA, V. SHMOURATKO, I. I. Mechnikov Odessa State University, Odessa, Ukraine, V. KHARITONOV and A. KARAVAN, Black Sea State Regional Geological Enterprise, Odessa, Ukraine	
<b>Study of Planar Sliding Instability Phenomena in the Langhe area (Piedmont Region, Italy)</b>	255
A. CHIAPPONE and C. SCAVIA, Department of Structural and Geotechnical engineering, Politecnico di Torino, Torino, Italy	
<b>Improving Foundation Conditions on an Unstable Slope</b>	261
A. CHIRICA, A. OLTEANU and M. S. SERBULEA, Technical University of Civil Engineering Bucharest, Romania	
<b>Nonlinear Features and Prognosis of a Landslide</b>	267
C. Y. CHOU, Department of Geosciences, Zhongshan University, Guangzhou, China	
<b>The Dramatic Cluster of Pyroclastic Debris Flows which Ocurred on 5<sup>th</sup> and 6<sup>th</sup> May 1998 in the Sarno Mountains (Vesuvius Region, Southern Italy): a Geomorphological Perspective</b>	273
A. CINQUE, G. ROBUSTELLI, F. SCARCIGLIA, Dip.to di Scienze della Terra – Università “Federico II”, Napoli and F. TERRIBILE, DISCA – Università “Federico II”, Napoli, Italy	
<b>The Strategy, Management and Investigation of Coastal Landslides at Lyme Regis, Dorset</b>	279
A. R. CLARK, D. S. FORT, High-Point Rendel, London, and G. M. DAVIS, West Dorset District Council, UK	
<b>The Influence of Mining on the Bolsover Landslide</b>	287
A. E. COBB, Geoffrey Walton Practice, Oxford House, Market St, Charlbury, Oxford, D. B. JONES and H. J. SIDDLE, Halcrow UK, 31-33 Newport Road, Cardiff, UK	
<b>Landslide Susceptibility in the Cardoso Slope (Versilia-Italy) Consequences of the Flash Flood of 19<sup>th</sup> June 1996</b>	293
L. CODEBO, ENEA CR Casaccia, Rome, G. DELMONACO, C. MARGOTTINI, C. PUGLISI and S. SERAFINI, ENEA CR Casaccia and Ministry of Environment, Rome, Italy	
<b>Characterisation of a Structurally Controlled Flowslide in a Kaolinised Granitic Slope</b>	299
J. S. COGGAN, D. STEAD, Camborne School of Mines, University of Exeter, Cornwall, and J. H. HOWE, ECC International, Cornwall, UK	
<b>Influence of Recent Morphological Evolution on the Stability of Two Slopes in the Euganean Hills</b>	305
S. COLA, University of Padova, Italy, and P. SIMONINI, University of Padova, Italy	
<b>Presentation of Monitoring Data for Unstable Slopes</b>	311
M. R. COOPER, Gifford & Partners, Southampton, UK	

<b>Seismic Reactivation of Pelton Park Landslide</b>	317
D. H. CORNFORTH, Landslide Technology, Portland, Oregon, USA	
<b>Continuous Monitoring of Groundwater Response to Winter Rainfall</b>	323
D. H. CORNFORTH, Landslide Technology, Portland, Oregon and P.E. MIKKELSEN, Geoengineering & Instrumentation Consultant, Bellevue, Washington, USA	
<b>Landslides and Climate Change in the Alps Since the Late-Glacial: Evidence of Case Studies in the Dolomites (Italy)</b>	329
A. CORSINI, Department of Earth Sciences, University of Modena and Reggio Emilia, Modena, Italy, A. PASUTO, C.N.R.-I.R.P.I., Research Institute for Hydrological and Geological Hazard Prevention, Padova, Italy, M. SOLDATI, Department of Earth Sciences, University of Modena and Reggio Emilia, Modena, Italy	
<b>Design Strength Parameter of a Natural Slope on Gneissic Residual Soil</b>	335
R. Q. COUTINHO, J. B. SOUZA NETO and F. Q. COSTA , Federal University of Pernambuco, Recife, Brazil	
<b>Risk Scenarios for Complex Debris Slump-Debris Flow Phenomena</b>	343
G. CROSTA, Dip. Scienze Geologiche e Geotecnologie, Università degli Studi di Milano – Bicocca, Italy	
<b>Deep Seated Slope Deformations: Huge, Extraordinary, Enigmatic Phenomena</b>	351
G. CROSTA, Dip. Scienze Geologiche e Geotecnologie, Università degli Studi di Milano – Bicocca, A. ZANCHI, Dipartimento di Scienze dell'Ambiente e Territorio, Università degli Studi di Milano – Bicocca, Italy	
<b>Landslide Modes in the Canadian Rockies</b>	359
D. M. CRUDEN, Department of Civil and Environmental Engineering, University of Alberta, Edmonton and X.-Q. HU, Department of Earth and Atmospheric Sciences, University of Alberta, Edmonton, Canada	
<b>Example: a Cluster of Slope slides in Tibet, China</b>	365
CUI JIANHENG, First Highway Survey & Design Institute, Communications Ministry, Xian, P. R. China	
<b>Soliflucted Deposits in the Vicinity of Belfast</b>	369
S. J. CUMMINGS, I. G. DORAN and V. SIVAKUMAR, School of Civil Engineering, Queen's University Belfast, UK	
<b>Case Study of a Landslip in Glacial Sands and Gravels in N. Ireland</b>	375
S. J. CUMMINGS, I. G. DORAN and V. SIVAKUMAR, School of Civil Engineering, Queen's University Belfast, UK	
<b>Geologic and Geomorphic Factors of the Landslides Triggered in the Cardoso T. basin (Tuscany, Italy) by the 19<sup>th</sup> June, 1996 Intense Rainstorm</b>	381
G. D'AMATO AVANZI, R. GIANNECCHINI and A. PUCCINELLI, Dipartimento di Scienze della Terra, Università di Pisa, Italy	

<b>Anthropogenic Triggering of Weathering: a Case Study</b>	387
DEBASHIS DAS, Visva-Bharati University, Santiniketan Birbhum, West Bengal. India	
<b>Field Monitoring of Cryogenic Mass Movement</b>	391
M. C. R. DAVIES, Department of Civil Engineering, University of Dundee, Dundee, UK, C. HARRIS, F. W. SMITH, Department of Earth Sciences, Cardiff University, Cardiff, UK and I. T. BERTHLING, Geografisk Institutt, University of Oslo, Oslo, Norway	
<b>The Avalanche Lake Rock Avalanche: an Alternative Emplacement Mechanism</b>	397
T. R. DAVIES, Natural Resources Engineering, Lincoln University PO Box 84, Canterbury, New Zealand	
<b>Three Dimensional Visualisation of Landslides in SE Spain using a Digital Elevation Model (DEM) and Orthophotography</b>	403
A. M. DAVIS, P. J. MASON, HME Partnership, P. O. Box 3036, Romford and J. McM MOORE, Earth Sciences, T.H. Huxley School of the Environment, Earth Science & Engineering, Imperial College, London, UK	
<b>Rock Mechanics Studies to Analyse Toppling Failure</b>	409
C. DEANGELI and A. M. FERRERO, Dipartimento di Georisorse e Territorio, Politecnico di Torino, Italy	
<b>A Historical Landslide in the Province of Belluno (Eastern Dolomites, Italy): Study of the Past Events and Provision for the Future</b>	415
E. DE BIASIO, Via A. Manzoni, 13 – 32036 Sedico (BL), Italy, M. C. TURRINI and W. BUSIN Dipartimento di Scienze Geologiche e Paleontologiche, Corso E. I D'Este, 32 – 44100 Ferrara, Italy	
<b>Influence on Landsliding and Slope Development of the Particular Environment of the Dead Sea Region: A Case Study for the Wadi Mujib Canyon (Jordan)</b>	421
C. DE JAEGER, University of Ghent, Belgium	
<b>Seismic Rockfall Hazard in the Sele River Valley, Southern Italy</b>	427
V. DEL GAUDIO, Dipartimento di Geologia e Geofisica - Osservatorio di Geofisica e Fisica Cosmica, Università di Bari, J. WASOWSKI, CNR - CERIST c/o Istituto di Geologia Applicata e Geotecnica, Politecnico di Bari, Italy	
<b>Overburden Stability of Rock Slopes in Quarries</b>	433
O. DEL GRECO, M. FORNARO, C. OGGERI, Dept. of Georisorse e Territorio, Politecnico di Torino, C.so Duca degli Abruzzi 24, 10129 Torino, Italy	
<b>Slow Movements of Earthflow Accumulations along the Ionic Coast (South-Eastern Italy)</b>	439
B. D'ELIA, G. LANZO, Dept. of Structural and Geotechnical Engineering, "La Sapienza" University of Rome, M. ROSSI-DORIA, Dept. of Hydraulics, Transportation and Roads, "La Sapienza" University of Rome, Italy	

<b>The St. Boniface Landslide of April 1996: a Large Retrogressive Landslide in Sensitive Clay with Little Flow Component</b>	447
D. DEMERS, D. ROBITAILLE, Géotechnique et géologie, Ministère des Transports du Québec, Québec, Canada, and D. PERRET, Commission géologique du Canada, Centre géoscientifique de Québec, Québec, Canada	
<b>Basis for Criterion for Warning Systems on Expected Landslides</b>	453
A. M. DEMINE, Comprehensive Institute for Mineral Resources Exploitation, Russian Academy of Sciences, Russia	
<b>Databases and Geographic Information Systems for Medium Scale Landslide Hazard Evaluation: An Example from Typical Mountain Watershed in Nepal</b>	457
A. S. DHAKAL, Graduate School of Agricultural Sciences, University of Tsukuba, Japan, T. AMADA, Institute of Agricultural and Forest Engineering, University of Tsukuba and M. ANIYA, Institute of Geoscience, University of Tsukuba	
<b>Influence of Pore Liquid Composition on the Shear Strength of an Active Clay</b>	463
C. DI MAIO and R. ONORATI, Università della Basilicata, Potenza, Italy	
<b>Swelling Behaviour of Active Clays: the Case of an Overconsolidated, Marine Origin Clay</b>	469
C. DI MAIO and R. ONORATI, Università della Basilicata, Potenza, Italy	
<b>Behaviour of Woody Debris Carried by a Debris Flow of Impermeable-Type "Sabo" Dam already Filled with Sediment</b>	475
Y. DOI, Doctoral Program in Agricultural Sciences, Institute of Agricultural Engineering, University of Tsukuba, T. YAMADA, N. MINAMI, Erosion and Sediment Control division, Public Works Research Institute, Ministry of Construction and T. AMADA, Institute of Agricultural Engineering, University of Tsukuba, Japan	
<b>Fault Reactivation in the Vicinity of Landslides in South Wales, UK</b>	481
L. J. DONNELLY, IMC Consulting Engineers Ltd, PO Box 18, Huthwaite, Sutton-in-Ashfield, Nottinghamshire, K. J. NORTHMORE, British Geological Survey, Keyworth, Nottingham, UK and C. A. JERMY, University of Natal, Department of Geology & Applied Geology, Durban 4041, Republic of South Africa	
<b>Management of Steep Rock Slopes after Studies on Reservoir Slopes by Electricité de France</b>	487
J-Y. DUBIÉ, Division Géologie et Géotechnique, Electricité de France, Aix en Provence, P. DUFFAUT, Consultant, Paris, France	
<b>Conformities of Creeping Development in the East of the Russian Plain</b>	493
A. P. DVINSKIH and V.A. YELKIN, Kazan University, Department of Geography and Geoecology, Russia	
<b>Morphology and Interpretation for a Recent Multiple Peat Slide Event on Cuilcagh Mountain, Northern Ireland</b>	495
A. P. DYKES and K. J. KIRK, Geographical Sciences, University of Huddersfield, Huddersfield, UK	

<b>Slope Movements and Active Tectonics in the Izbor River Basin (Granada, Spain)</b>	501
R. EL HAMDOUNI, C. IRIGARAY, Departamento de Ingeniería Civil, Universidad de Granada, Facultad de Ciencias, Granada, España, T. FERNÁNDEZ, Departamento de Ingeniería Cartográfica, Geodésica y Fotogrametría, Universidad de Jaén, España, C. SANZ DE GALDEANO, Instituto Andaluz de Ciencias de la Tierra, CSIC, Universidad de Granada, Facultad de Ciencias, Granada, España and J. CHACÓN, Departamento de Ingeniería Civil, Universidad de Granada, Facultad de Ciencias, Granada, España	
<b>Landslides due to the Propagation of Cracks and Plastic Zones</b>	507
S. A. ELSOUFIEV, Odessa State University, Ukraine	
<b>Stabilization of Landslides using Piles</b>	513
M. U. ERGUN, Middle East Technical University, Civil Engineering Department, Ankara, Turkey	
<b>Slide Activity along the River Göta älv, SW Sweden - An Evaluation of the Effects of Bank Revetment</b>	519
A. ERIKSSON, Mid-Sweden University, Härnösand, Sweden	
<b>An Anthropogenic Triggering of a Landslide: Ariklar Landslide (NW Turkey)</b>	525
T. A. ERTEK, Istanbul University, Literature Faculty, Geography section, Physical Geography Department, Istanbul, Turkey	
<b>Case of a Slope Failure in Lacustrine Deposits</b>	531
A. J. ESSER, EDP Consultants, Inc., Kirtland, Ohio, USA
