

PROCEEDINGS OF THE SEVENTH INTERNATIONAL SYMPOSIUM ON LANDSLIDES  
COMPTE RENDU DU SEPTIEME SYMPOSIUM INTERNATIONAL SUR LES GLISSEMENTS  
DE TERRAIN/17-21 JUNE 1996/TRONDHEIM/17-21 JUIN 1996

# Landslides

# Glissements de terrain

*Editor/Rédacteur*

**KAARE SENNESET**

*Department of Geotechnical Engineering, The Norwegian University of Science and Technology,  
Trondheim, Norway/Norvège*

## VOLUME 1

*Special lectures; 1 Assessment and management of landslide risks and hazards; 2 Landslides in sensitive and metastable materials; 3 Shoreline stability and submarine slides*

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1996

## Table of contents

Organization/Organisation	XI
Preface	XIII
Préface	XV
<i>Special lectures</i>	
Observation and analysis of the ground conditions in the Jurassic landslip terrain of southern Britain <i>A.B. Hawkins</i>	3
Slope stability evaluations in engineering practice <i>N.Janbu</i>	17
Landslide hazard – Risk maps at different scales: Objectives, tools and developments <i>E.Leroi</i>	35
Geotechnical characterization of slope movements <i>S.Leroueil, J.Vaunat, L.Picarelli, J.Locat, H.Lee &amp; R.Faure</i>	53
From landslide causes to landslide remediation <i>M.E.Popescu</i>	75
The influence of meteorological factors on the initiation of debris flows, rockfalls, rockslides and rockmass stability <i>F.Sandersen, S.Bakkehøi, E.Hestnes &amp; K.Lied</i>	97
Prediction of earthquake induced landslides <i>K.Sassa</i>	115
<i>1 Assessment and management of landslide risks and hazards</i>	
A risk-based method for landslide mitigation <i>L.R.Anderson, D.S.Bowles, R.T.Pack &amp; J.R.Keaton</i>	135
Examples of mudslides on low-gradient clayey slopes <i>M.-G.Angeli, P.Gasparesco, R.M.Menotti, A.Pasuto &amp; S.Silvano</i>	141

Assessment of shallow landslide susceptibility by means of statistical techniques <i>C.Baeza &amp; J.Corominas</i>	147
Landslide-susceptibility numerical mapping at the Messina Straits Crossing site, Italy <i>P.Baldelli, P.Aleotti &amp; G.Polloni</i>	153
Historical data in evaluating landslide hazard in some villages in Southern Italy <i>F.Bozzano, P.De Pari &amp; G.S.Mugnozza</i>	159
Assessment of landslide hazards by means of geological and hydrological risk mapping <i>G.Bunza</i>	165
Debris flows in deeply weathered granitoids (Serre Massif – Calabria, Southern Italy) <i>D.Calcaterra, M.Parise &amp; L.Dattola</i>	171
Geological and land instability mapping using a G.I.S. package as a building block for the development of a risk assessment procedure <i>R.N.Chowdhury &amp; P.N.Fluentje</i>	177
Aspects of risk assessment for landslides <i>R.N.Chowdhury</i>	183
Assessment of risk and prevention of landslides in urban areas of the Italian Alps <i>A.Eusebio, P.Grasso, A.Mahtab &amp; A.Morino</i>	189
Landslide initiation and runout on clearcut hillslopes <i>R.J.Fannin, M.P.Wise, J.M.T.Wilkinson &amp; T.P.Rollerson</i>	195
Framework for assessing the probability of sliding of cut slopes <i>R.Fell, P.Finlay &amp; G.Mostyn</i>	201
Use of discriminant functions in assessing the probability of slope failure <i>P.J.Finlay, R.P.Martin &amp; G.Mostyn</i>	209
Landslide hazard at the San Salvador volcano, El Salvador <i>H.Finnson, C.Bäcklin &amp; A.Bodare</i>	215
Further steps in a geotechnical zonation <i>C.A.Forero-Dueñas</i>	221
Assessment of slope failure for the management of excavation at Tehri spillway, India <i>U.P.Gupta</i>	227
Rock avalanche runout prediction using a dynamic model <i>O.Hungr &amp; S.G.Evans</i>	233
Engineering geological approach for the assessment of landslide hazard in the Himalayan terrain for the highway <i>V.Jhingran &amp; D.Mukherjee</i>	239
Structural-tectonic and lithogenetic features of a rock massif as factors of landslide processes <i>T.V.Kozlova</i>	245
Kinematical-geotechnical aspects of landslides in Germany <i>E.Krauter, R.Lippmann, M.Moser, B.Müller &amp; H.Prinz</i>	251

Landslide hazard evaluation in a part of Himalaya <i>K.Kumar, D.S.Tolia &amp; S.Kumar</i>	257
Vulnerability assessment of elements exposed to mass-movement: Working toward a better risk perception <i>F.Leone, J.P.Asté &amp; E.Leroi</i>	263
Development of a 3-D model for block trajectories, based on synthetic imagery and stress vs. deformation laws <i>E.Leroi, F.Pontarollo, J.D.Gascuel &amp; M.P.Gascuel</i>	271
SLIDISP – A procedure to locate landslide prone areas <i>S.Liener, H.Kienholz, M.Liniger &amp; B.Krummenacher</i>	279
Engineering geological mapping for the assessment and management of landslide hazard along coastal areas in Trinidad, West Indies <i>R.J.Maharaj</i>	285
Landslide investigations in Carpathian Mountains <i>S.Manea, S.V.Andrei &amp; I.Antonescu</i>	291
Using neural networks to predict slope movements <i>F.Mayoraz, T.Cornu &amp; L.Vulliet</i>	295
A review of coastal landslide management on the Isle of Wight, UK <i>R.G.McInnes</i>	301
Geomorphometric assessment of hill slope instability of Matli landslide in Uttarkashi district, Garhwal Himalaya (India) <i>G.S.Mehrotra, S.Parkash &amp; R.Dharmaraju</i>	309
Landslide hazard assessment – A need for environmental management of Himalaya <i>G.S.Mehrotra, D.P.Kanungo &amp; K.Mahadeviah</i>	315
Determination of the spatial and temporal activity of landslides based on tree-ring analysis <i>J.Moya &amp; J.Corominas</i>	321
Landslides in the Himalaya – Causes, types and management <i>B.B.Mullick &amp; C.A.Ghosh</i>	327
Assessment of slopes stress state and stability <i>V.J.Pangaev</i>	333
Risk factor monitoring for landslides <i>A.Popă &amp; L.Fetea</i>	337
Modern problems and quantitative methods of landslide risk assessment <i>A.L.Ragozin</i>	339
Frequent landslides in Nilgiris, India – A phenomenon related to pleistocene tectonism <i>S.M.Ramasamy, S.Francis &amp; R.Neelakantan</i>	345
The probabilistic evaluation of landslide risk <i>S.Rezig, J.L.Favre &amp; E.Leroi</i>	351

Investigation and monitoring of landslides at the Polyphyton project in Greece <i>W.Riemer, P.Pantzartzís, L.Krapp &amp; C.Scourtis</i>	357
Using a geographical information system to record and assess landslide-related risks in Romania <i>M.S.Rosenbaum &amp; M.E.Popescu</i>	363
Full-course numerical simulation of hazardous landslides and falls <i>Huang Runqiu</i>	371
New Swedish national rules for slope stability analysis <i>G.Sälfors, R.Larsson &amp; E.Ottosson</i>	377
A probabilistic approach for landslide zonation in parts of Garhwal Himalaya <i>V.K.Sharma</i>	381
Quantitative safety factor mapping by means of the Natural Slope Methodology (NSM) <i>T.Shuk &amp; E.E.Hernández</i>	387
Landslides in the Republic of Panama <i>O.Villarreal de Guizado &amp; L.R.Aparicio</i>	393
The Chlöwena landslide: Prediction with a viscous model <i>L.Vulliet &amp; Ch.Bonnard</i>	397
Recent landslide problems in the town of Caramanico Terme, Italy <i>J.Wasowski</i>	403
Assessment and management of landslide hazards near the Tully Valley landslide, Syracuse, New York, USA <i>G.F.Wieczorek, P.L.Gori, S.Jäger, W.M.Kappel &amp; D.Negussey</i>	411
Travel distance of landslide debris <i>H.N.Wong &amp; K.K.S.Ho</i>	417
Landslide hazard prediction <i>T.H.Wu, M.A.Abdel-Latif &amp; G.F.Wieczorek</i>	423
An extended Point Estimate Method for the determination of the probability of failure of a slope <i>Y.F.Yu &amp; G.R.Mostyn</i>	429
Assessment of risks, hazard and mitigation of rockfall in Dahekou Hydropower Station <i>Yingqing Zhou, Tianbin Li &amp; Wuping Zhou</i>	435

## **2 Landslides in sensitive and metastable materials**

Human interferences with metastable slopes of the Stubnerkogel near Badgastein (Salzburg, Austria) and their consequences for slope stability <i>M.Bauer</i>	443
The mechanism to the self-vibrating liquefied landslide and its experimental study <i>Zhu Benzhen &amp; Guo Song</i>	447

Stability and flowage of thawing soil on slopes <i>G.I.Bondarenko &amp; A.A.Tsernat</i>	453
Kinematic features of earthflows in southern Apennines, Italy <i>G.Giusti, G.Iaccarino, A.Pellegrino, L.Picarelli, C.Russo &amp; G.Urciuoli</i>	457
Relationship between railway tunnel damages and mountain landslides <i>Wang Gongxian</i>	463
A geotechnical investigation of the solubility of carbonaceous rocks and its effect on stability <i>G.R.Khanlari, H.Jalaly &amp; J.Shonhardt</i>	467
Earthflows in the Baltchik landslide area, North-eastern Bulgaria <i>E.Koleva-Rekalova, N.Dobrev &amp; P.Ivanov</i>	473
Sensitive clay flows along the South Nation River, Ontario, Canada and their impact on land use <i>D.E.Lawrence, J.M.Aylsworth &amp; C.R.Morey</i>	479
The influence of soil components' structural changes on activating landslides <i>N.Šušić, A.Spasojićević &amp; N.Kordić-Diković</i>	485
On the development of high sensitivity: Mineralogical requirements and constraints <i>J.K.Torrance</i>	491
Soils susceptible to flow slides and associated failure mechanisms <i>B.Trak &amp; S.Lacasse</i>	497
<b>3 Shoreline stability and submarine slides</b>	
Geological and structural-tectonic factors of landslides formation and development of the North-Western Black Sea coast <i>E.A.Cherkez</i>	509
The application of Discontinuous Deformation Analysis (DDA) to seafloor stability analysis <i>L.-K.Chien &amp; Y.-N.Oh</i>	515
Stability of the submarine slope of the Tiber River delta <i>F.L.Chiocci, F.Esu, P.Tommasi &amp; V.Chiappa</i>	521
The 1994 submarine slope failure at Skagway, Alaska <i>D.H.Cornforth &amp; J.A.Lowell</i>	527
The shoreline slide at Lade <i>A.Emdal, K.Sand &amp; N.Janbu</i>	533
Progress on an ICOLD study of reservoir slope stability <i>M.Gillon &amp; W.Riemer</i>	539
Recurrent sliding of underwater slope on Cap Lopez in Gabon <i>S.Lacasse &amp; P.Boisard</i>	543
The influence of mass movements on the silting of the artificial reservoir of Abate Alonia (Potenza, Southern Italy) <i>M.Lattanzio, L.Monterisi &amp; A.Salvemini</i>	549

Analysis of the mobility of far reaching debris flows on the Mississippi Fan, Gulf of Mexico <i>J.Locat, H.J.Lee, W.C.Schwab, D.C.Twichell &amp; C.H.Nelson</i>	555
Analysis of submarine slope stability under seismic action <i>F.Nadim, B.Kalsnes &amp; A.Eide</i>	561
Wave induced motions in soft clay submarine slopes <i>A.Nanda &amp; S.Sengupta</i>	567
The Balsfjord landslide <i>N.Rygg &amp; F.Oset</i>	573
Landslides and abrasion processes on the shoreline of the water reservoir Nechranice <i>T.Spanilá</i>	579
Estimation of cliff stability with a Kinematical Element Method <i>M.Topolnicki &amp; G.Sołtys</i>	585
