

PROCEEDINGS OF THE INTERNATIONAL CONFERENCE ON ENVIRONMENTAL
MANAGEMENT, GEO-WATER AND ENGINEERING ASPECTS
WOLLONGONG / NEW SOUTH WALES / AUSTRALIA / 8-11 FEBRUARY 1993

Environmental Management Geo-Water and Engineering Aspects

Edited by

ROBIN N. CHOWDHURY & (SIVA) M. SIVAKUMAR

The University of Wollongong, New South Wales, Australia

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1993

Table of contents

Preface	XIII
<i>Keynote papers</i>	
Domestic and trade waste disposal in England and Wales <i>P.B.Attewell</i>	3
The tailings dams of Stava (Northern Italy): An analysis of the disaster <i>R.Genevois & P.R.Tecca</i>	23
Environmental geotechnology in the United States: A consultant's perspective <i>J.V.Hamel</i>	37
An approach to seismic microzonation for environmental planning and management <i>H.G.Poulos</i>	49
Encapsulation of solid wastes from industrial by-products <i>A.Samarin</i>	63
Accuracy of hydrodynamic models of flood-discharge determinations <i>V.P.Singh, V.Aravamuthan & E.S.Joseph</i>	79
Application of microfiltration in water and wastewater treatment <i>S.Vigneswaran & H.Prasanthi</i>	91
Highway transportation and environmental management <i>L.C.Wadhwa</i>	101
<i>Water quality modelling and management</i>	
Performance study of a new membrane anaerobic digester configuration <i>F-R.Ahmadun</i>	115
Effects of leachates on variable selection in water quality monitoring network design <i>N.Alpaslan, N.B.Harmancioglu & V.P.Singh</i>	119
Aquifer vulnerability and groundwater resource management in the Po and Venetian Plain (Northern Italy) <i>M.Civita, G.Giuliano & M.Pellegrini</i>	125

Pollution studies on surface waters of the Thika area, Kenya <i>T.C.Davies</i>	131
Environmental and health impact of irrigation and drainage system in Egypt <i>A.El-Zawahry, I.El-Assiouti, E.Emam & S.El-Diddi</i>	137
On the estimation of river reaeration coefficient with the soluble solids probe <i>M.F.Giorgetti</i>	143
Entropy theory to identify water quality violators <i>I.C.Goulter & A.Kusmulyono</i>	149
A two-dimensional unsteady water quality model <i>H.S.Jin, Y.M.Zheng & J.Ye</i>	155
Water management aspects of coal fired thermal power plant in India <i>S.Mukherjee & N.C.Das</i>	161
Role of surface drain on quality and nutrient levels in groundwater and surface water, near Lake Thomson, Jandakot, Western Australia <i>C.E.Olsen & A.Q.Rathur</i>	167
Water quality management issues for Lake Tinaroo <i>G.Sadler & W.Poplawski</i>	173
Possible water resource for the Nabire area, Irian Jaya, Indonesia <i>D.Santoso, J.Supriyanto, H.Permana, E.Soebowo & S.Sukmono</i>	177
Runoff source areas and water quality <i>M.G.Sharpin</i>	185
Reservoir as a tool for brackish water management: A case study in southern Iran <i>K.Shiasi</i>	193
Toxic substances model of Tuen Mun River, Hong Kong <i>Y.S.Sin</i>	201
Urban storm water quality modelling of NO _x and TP pollutant loads <i>M.Sivakumar & S.Boroumand-Nasab</i>	207
Geochemical and geophysical characteristics of an unconfined coastal aquifer at Tomago, NSW, Australia <i>M.J.Thom & S.R.Jones</i>	213
Groundwater quality for irrigation and human consumption <i>V.P.Kumar, I.Mehrotra & R.P.Mathur</i>	219
Efficient solutions for solute transport in hillside seepage <i>R.E.Volker, W.W.Read & C.Demetriou</i>	227
Water quality simulations for Chao Phraya River Thailand <i>L.C.Wadhwa & S.Supatanasinkasem</i>	233
Electro-kinetic barrier to contaminant transport <i>A.T.Yeung</i>	239

Temporal and spatial variations of the total dissolved solids, Williams River, Western Australia <i>B.Yu & D.T.Neil</i>	245
<i>Slope stability and landslide management</i>	
Landslide hazard zonation (LHZ) mapping of a part of Doon valley, Garhwal Himalaya, India <i>R.Anbalagan, L.Sharma & S.Tyagi</i>	253
Landslide management in historical towns in Italy: The case of Magliano in Tuscany <i>R.Bertocchi, P.Canuti, C.A.Garzonio, V.Menestrina & P.Vannocci</i>	261
The natural and induced instability of colluvium and other weak rock during urban development in Taiwan <i>H.Chen</i>	267
Lateral spreading in rock formations: Mechanism, analysis, hazard assessment and control measures <i>A.Cancelli, N.Chinaglia & D.Mazzoccola</i>	273
Some cases of landslides affecting urban areas in the Marche, Central Italy <i>S.Conti & G.Tosatti</i>	279
Analysis of a mass movement in structurally and geotechnically complex arenaceous marly formation <i>V.Cotecchia, L.Monterisi & A.Salvemini</i>	285
A complex rockfall-debris slump failure on a rockfall prone cliff <i>G.Crosta, S.Agostoni & M.Ceriani</i>	293
Large landslides in flysch formations in the Northern Apennines, Italy: Analysis and comparison of the geomorphological features and geomechanical behaviour <i>C.Elmi, A.Fini, R.Francia, A.Lizzani & R.Genevois</i>	299
Remobilization phenomena of a landslide body occurred in a structurally complex formation and in an area already affected by deep-seated gravitational slope deformations (Basento River, Southern Italy) <i>D.Grassi, L.Monterisi & F.Sdao</i>	305
Deep-seated gravitational slope deformations and landslides located near some Southern Appennine chain areas (Southern Italy) <i>D.Grassi & F.Sdao</i>	311
Some landslides along the Nabire-Epomani highway, Irian Jaya, Indonesia <i>D.Santoso, M.Ruslan, Y.Ruslan & S.Sukmono</i>	317
Causes and mechanism of landslides in Sri Lanka <i>K.S.Senanayake</i>	323
Landslide management in Sri Lanka – Issues and strategies <i>K.S.Senanayake</i>	327
Tectonic and geomechanic aspects in relation to the stability of Colle Giove's slopes (Santarcangelo di Romagna, Italy) <i>G.Toni & R.Genevois</i>	333

Consideration on prediction method of slope failure based on critical amount of rainfall <i>R.Yatabe, N.Yagi & M.Enoki</i>	339
<i>Waste management</i>	
Migration of methane and leachate from landfill <i>S.Abaci, J.S.Edwards & B.N.Whittaker</i>	347
Anaerobic biotreatment of soils contaminated with toxic organic compounds and heavy metals <i>S.K.Bhattacharya & M.R.Haghighi-Podeh</i>	351
Clean up operations in contaminated land <i>E.E.Hellawell, C.Savvidou & J.R.Booker</i>	357
Engineering environmental safeguards for disposal of coal washery reject <i>D.R.Jephcott</i>	363
Solid waste treatment: A steel industry perspective <i>D.E.Jones</i>	369
Engineering uses of steel slag – A by-product material <i>D.G.Montgomery & G.Wang</i>	379
Textile residue management – A case study <i>N.S.Rathore & A.N.Mathur</i>	387
<i>Hydrology and water resources</i>	
Does onsite detention storage reduce total catchment flooding? <i>M.J.Boyd</i>	393
Large scale catchment simulation using the MIKE-SHE model: 1. Process simulation of an irrigation district <i>R.S.Carr, J.F.Punthakey, R.Cooke & B.R.Storm</i>	401
About the dynamic parameter of flood models in urban drainage networks <i>V.A.Copertino, M.Fiorentino, B.Molino & V.Telesca</i>	407
High pressure artesian wells to tap Torbido Spring, Italy <i>V.Cotecchia, G.D'Ecclesiis & M.Polemio</i>	413
Water balance analysis of natural and rehabilitated areas at Weipa <i>M.R.Crees & R.E.Volker</i>	419
Managing the Great Artesian Basin <i>N.M.Eigeland & M.Jones</i>	425
How bad is your RORB modelling?: Sensitivity fitting – An innovation <i>P.I.Hill, N.S.Fleming & T.M.Daniell</i>	431
Flood mitigation study for Moonee Ponds Creek – An urban flood management case study <i>R.J.Keller & B.J.C.Perera</i>	441

The housing market and urban flood control policy <i>D.Lambley & I.Cordery</i>	447
A study of ground water hydrology of Bijauli Block, Tehsil Atrauli, District Aligarh, India <i>G.Mahmood</i>	455
Effect of water harvesting structure on groundwater recharge – A case study <i>H.K.Mittal & J.Singh</i>	461
Large-scale catchment simulation using the MIKE-SHE model: 2. Modelling the Berriquin irrigation district <i>J.F.Punthakey, R.Cooke, R.S.Carr, N.M.Somaratne & K.K.Watson</i>	467
Modelling flood flows in Macquarie Rivulet using FESWMS-2DH <i>E.H.Rigby</i>	473
Spatial velocities in aquifers with 2-D behaviour <i>S.V.K.Sarma & A. de S.lêdo</i>	479
Fluid flow through a single rock joint <i>J.Sheng & Y.F.Bu</i>	485
Method of fragments – Quick solutions to seepage problems <i>N.Sivakugan & M.Y.S.Al-Aghbari</i>	491
Sustainable urban drainage <i>S.Sunjoto</i>	497
Areal investigation of surface runoff propensity in a model basin (Turbolo Torrent, Calabria, Italy) <i>A.Taddei & O.Terranova</i>	503
Integrated approach to the exploration of groundwater along the Tuticorin coast, India <i>R.Thirugnana Sambandam, A.Balasubramanian, R.Chellasamy & V.Radhakrishnan</i>	509
<i>Soil erosion and sediment transport</i>	
Some erosion characteristics of residual soil slopes in Malaysia <i>J.Mohd Amin, I.Ibrahim, K.Abu Taib & A.Azizi Dian</i>	517
Introducing computer model ANSWERS and its application in soil and water conservation <i>S.Amin & H.Momtahan</i>	521
Initial unit weight of reservoir deposited sediments <i>M.Bina, M.Ghomeshi & A.Shokrollahi</i>	527
Reservoir sedimentation: Modelling and control <i>G.Boari, B.Molino, G.Valenti & C.D'Anisi</i>	533
Control of the surface drainage structures at the hillslope scale <i>V.A.Copertino, M.Greco, G.Spilotro & G.Vacca</i>	543
Tests on a new method of suspended load estimation <i>M.Habibi & M.Sivakumar</i>	553

Geo-water maps used to manage leaching into rivers <i>E.J.Heidecker</i>	559
A model to predict the stable natural channel <i>G.A.Jenkins & R.J.Keller</i>	563
Prediction of local scour depth at bridge abutments <i>R.T.F.Kwan</i>	571
Study of riverbank erosion and design of bank protection works, Mekong River bridge project <i>R.T.F.Kwan & N.Mayo</i>	579
Tendency of erosion in Loess Plateau and silt transport in Yellow River, Huanghe <i>J.Li & S.Liu</i>	585
Application of the ANSWERS model for prediction of runoff and sediment from a small agricultural watershed of Iran <i>H.Momtahan & S.Amin</i>	589
Incipient motion criteria below circular jets <i>M.Shafai-Bajestan</i>	595
The effect of soil tillage on rainfall induced aggregate breakdown <i>N.M.Somarathne, K.R.J.Smettem & G.Stanger</i>	599
<i>Mining impacts and solutions</i>	
Coal mining and water quality with illustrations from Britain <i>F.G.Bell & A.Kerr</i>	607
Environmental scenario of Indian mining industry <i>B.B.Dhar</i>	615
Legislation and management of mine tailings storages in Western Australia <i>H.Jones, I.H.Lewis & C.F.Swindells</i>	621
The effects of sand mining on water quality in a coastal unconfined aquifer in New South Wales, Australia <i>S.R.Jones, M.J.Thom & F.W.Down</i>	629
Mining coal in water bearing strata in Western Australia <i>I.Misich, A.W.Evans, G.Hammond, R.MacPherson & O.W.Jones</i>	635
Experimental laboratory studies of the effect of dewatering on rock stability at depth in the Collie Coal Basin <i>H.R.Nikraz & M.Press</i>	643
Delayed water irruptions: Events and circumstances <i>O.Sammarco</i>	651
Restoration of opencast mine sites – A case study <i>R.N.Singh</i>	657
The assessment of the long-term erosional stability of engineered structures of a proposed mine rehabilitation <i>G.Willgoose & S.Riley</i>	667

<i>Uncertainties, risks and decisions</i>	
Observational approach for landslides – The probabilistic context <i>R.N.Chowdhury & S.Zhang</i>	677
Error minimization in environmental risk analysis <i>E.Dembicki & T.Chi</i>	681
Decision analysis for optimized urban risk management <i>W.Hachich</i>	687
Progressive reliability model of opencut soil slopes <i>R.A.Halatchev & D.A.Gabeva-Halatcheva</i>	693
Uncertainties in water quality management <i>N.B.Harmancioglu & N.Alpaslan</i>	703
Uncertainty in modelling water resource management system for mines <i>C.V.McQuade, A.H.Lee & A.D.S.Gillies</i>	709
Risk maps for rockfall prone areas: Environmental/human aspects and remediation projects <i>F.Oboni & V.T.G.Angelillo</i>	715
Reliability analysis of a rock slope with a wedge <i>V.Ravi</i>	721
The probabilistic analysis for stability of rock slope <i>G.L.Xu</i>	727
<i>Natural hazards and environmental impacts</i>	
Some aspects of environmental impacts of dam reservoirs in Himalayan region <i>R.Anbalagan, B.Singh & S.Sharma</i>	735
Environmental impact of Roodbar landslide in Iran <i>S.A.Anvar, L.Behpoor & A.Ghahramani</i>	741
The magnitude and nature of ‘noise’ in world sea-level records <i>E.A.Bryant</i>	747
Earthquake analysis for embankments <i>R.N.Chowdhury & D.W.Xu</i>	753
Warning and danger index of dam safety monitoring <i>Li Zhenzhao & Zhou Xuyin</i>	759
Earthquake hazard in Australia and rational management strategies <i>R.E.Melchers</i>	765
Response of landfill liner and collection systems during earthquake loading conditions <i>S.Singh & B.J.Murphy</i>	771
Assessment of dam break models for downstream potential hazard analysis <i>K.C.Tai & V.Fazio</i>	775

Geotechnology and the environment

Reinforced earth in coastal protection <i>R.M.Arenicz & P.J.Farris</i>	783
Behavior of the waterfront quaywall constructed by steel pipe piles in soft soil slope <i>W.P.Hong & J.P.Ahn</i>	789
Use of pozzolanic fuel ash in problematic soil modification <i>B.Indraratna, R.N.Chowdhury & N.Kuganenthira</i>	795
Evaluation of foundation seepage at Doroodzan earth dam <i>M.Javan & M.R.Farjood</i>	803
Road construction in hilly areas versus environment degradation <i>P.Kumar & N.S.Bhal</i>	809
A simplified method for estimating the land subsidence due to dewatering <i>C.J.Lee, J.Sheng & C.Y.Chang</i>	815
Geosynthetic systems in environmental management <i>M.A.Sadlier & B.R.Christopher</i>	821
Author index	827
