Table of contents

Preface	VII
Acknowledgements	VIII
<i>Experimental evidence</i>	
Experimental investigations on the stress variables governing unsaturated soil behaviour at medium to high degrees of saturation <i>A.Tarantino & L.Mongiovì</i>	3
Investigating infiltration into compacted unsaturated heterogeneous soils <i>J.Shevvelan & C.Hird</i>	21
Collapse tests on isotropic and anisotropic compacted soils <i>M.Barrera, E.Romero, A.Lloret & A.Gens</i>	33
Retention curves and 1-D behaviour of a compacted tectonised unsaturated clay <i>A.Di Mariano, C.Airò Farulla & C.Valore</i>	47
Volume change behaviour of a dense compacted swelling clay under stress and suction changes <i>M.Yahia-Aïssa, P.Delage & Y.J.Cui</i>	65
Soil behaviour in the small and the large strain range under controlled suction conditions <i>R.Vassallo & C.Mancuso</i>	75
Retention curves of deformable clays <i>E.Romero & J.Vaunat</i>	91
<i>Theoretical approaches</i>	
Inclusion of hydraulic hysteresis in a new elasto-plastic framework for unsaturated soils <i>M.S.R.Buisson & S.J.Wheeler</i>	109

An elastoplastic hydro-mechanical model for unsaturated soils <i>J.Vaunat, E.Romero & C.Jommi</i>	121
Remarks on the constitutive modelling of unsaturated soils <i>C.Jommi</i>	139
Modelling the behaviour of unsaturated silt <i>F.Geiser, L.Laloui & L.Vulliet</i>	155
Interpretation of shear response upon wetting of natural unsaturated pyroclastic soils <i>M.V.Nicotera</i>	177
Miscellaneous	
Author addresses	195
List of participants	197
Author index	199
