

**WCPU — Green Power 2  
2nd International Conference**

**Accelerated Development of Hydro Power  
Resources in the 21st Century**

28–30 October 1999  
Three Gorges Project Site Yichang (Hubei), China

**PROCEEDINGS**

*Chief Editor*

**C.V.J. VARMA**

*Associate Editors*

**P.K. LAL**

**P.N. THUSSU**

**A.A. BALKEMA/ROTTERDAM/BROOKFIELD/2000**

# CONTENTS

	<i>Page</i>
From the President	iii
Foreword	ix
<b>SESSION – I : HYDRO POWER IN DEVELOPING COUNTRIES</b>	
1. Hydropower Development in China – <i>Zhang Jin Sheng</i>	I-1
2. Hydro Power Development Scenario in India – <i>R.N. Srivastava, D.V. Khera and S.D. Dubey</i>	I-7
3. Hydro Power Resources in the Pahang River Basin of Malaysia – <i>Choy Fook Kun</i>	I-17
4. Hydro Power Development in India - An Agenda for Twenty First Century – <i>Amalendu Palit, A.K. Das and A.K. Bhatnagar</i>	I-29
5. China's Hydropower will be Accelerated During the 21st Century – <i>Zhang Boting</i>	I-41
6. The Status Quo of Hydropower Exploitation in Central China Power Network and its Development Strategy – <i>Xia Caiqing and Zhao Yongsheng</i>	I-46
7. Integrated Hydro-Power Development in Beas-Basin Himachal Pradesh (India) – <i>J.C. Sharma</i>	I-54
8. Hydro Power Development in India – <i>A.A. Khan and D.N. Raina</i>	I-58
9. Development of Hydropower Generation in the Coming Years – <i>Santosh Nand Mishra</i>	I-69
10. Needs of Accelerated Hydro Power Development in India – <i>S.S. Jamwal, D. Nath and Ranjan Mitra</i>	I-75
11. Hydro Power Development in India - Need for Acceleration with Special Reference to Karnataka – <i>K.V.S. Subrahmanyam</i>	I-79
<b>SESSION – II : ENVIRONMENTALLY SUSTAINABLE HYDRO POWER AND PUMPED STORAGE DEVELOPMENT</b>	
1. The Environment and Resettlement of TGP – <i>Wang Rushu</i>	II-1
2. Establishment of a Resettlement Concept – <i>Montri Suwanmontri</i>	II-15
3. Three Gorges Project and Flood Control in China – <i>Dai Huichao, Zhang Chaoran and Tian Bin</i>	II-20

4. Agriculture-Based Resettlement Design and Management for Hydrodam:  
The Thai Experiences  
– *Montri Suwanmontri* II-29
5. Sustainable Development of Hydropower Project  
– *Zhaoyi Liu & Zonglou Guo* II-53
6. Development of Hydro Power – Environmental Aspects and  
Preparation of Environment Management Plan  
– *S.L. Kotwal and M.M. Madan* II-63
7. Environment Impact Assessment and Socio-Economic Benefits of  
Hydro Power Development in H.P. (India)  
– *J.C. Sharma* II-74
8. Development of Pumped Storage Schemes in Maharashtra State of India  
– *A.B. Mahendrakar and S.N. Mandke* II-78
9. Necessity for Pumped Storage Plant in Rajasthan State  
– *S.K. Calla, Bhanu Purohit and Sarika Purohit* II-90
10. Critical Analysis of Power Development in Narmada Valley with Specific  
Reference to Maheshwar Hydel Project & Alternatives Thereof  
– *P.C. Mandloi* II-97
11. Study on Intakes of Upper Reservoir at Lang-Ya Mountain Pumped  
Storage Power Station by Hydraulic Model Test  
– *Zhang Landing, Chen Wen and Cao Jiajun* II-103

### SESSION – III : SILTING PROBLEMS

1. A Broad Perspective for Minimizing Silt Related Abrasive Damages to  
Underwater Parts of Hydro Turbines in New Installations  
– *D.V. Khera and S.N. Sareen* III-1
2. Pumping Sediment Through a Diversion Tunnel to Prevent Reservoir Silting  
– *R. Klasinc, G. Goekler, G. Schweighofer and H. Knoblauch* III-10
3. The Grouping of Hydroelectric Power Stations : The New Bersia Group  
Control Centre Project  
– *Zainudin Sabai bin Mohd Salleh Sabai* III-19
4. Monitoring of Sediment Load and its Abrasive Effects in Jhimruk  
Hydropower Plant  
– *Shailendra Basnyat* III-30
5. Silting Problems  
– *Chandramohan Madhaik* III-38
6. Silting of Hydro Reservoirs Problem & Remedial Measures  
– *R.N. Agrawal and J.K. Bhalia* III-45
7. The Experiment Research of Starting Velocity on Cohesive Sedimentation  
– *Zhang Landing* III-65
8. Siltation Problem at Salal Hydro Power Plant  
– *P.D. Sharma, T. Venkata Ramam and Yoginder Kotha* III-71

## SESSION – IV : MODERN TECHNOLOGIES

1. Breakthroughs in Major Technical Issues of TGP  
– *Zhang Caoran* IV-1
2. Indian Experience in Design and Construction of Underground Hydropower Projects  
– *B.K. Mittal and A.D. Mohile* IV-12
3. Setting Direction for Acceleration of Hydro Power Projects  
– *N. Visvanathan* IV-22
4. Management Practice and Implementation Progress for the Safety Monitoring of Three Gorges Project  
– *Yu Sanda and Liu Zuqiang* IV-33
5. Refurbishing of Existing Hydro Power Plants  
– *Maj Gen (Retd) R R Oberoi, YSM and S.P. Sharma* IV-49
6. Alstom's Alspa 8000-P320 Distributed Control System : The Opening and Flexibility Era  
– *Yannick Magnon* IV-59
7. Restoration of Generating Units Chamera Power Station  
– *N. Viswanathan and S.K. Dodeja* IV-67
8. The Northeast Thailand Hydro Power Plant Control Center  
– *Narong Trikiwattanakul* IV-76
9. Renovation, Modernisation & Uprating - A Viable Trend in Hydro Power Units  
– *K.S. Sahota, Ashok Thapar and Avinash C. Sharma* IV-83
10. Construction Techniques in Squeezing Rock Conditions  
– *V.K. Sharma, J.K. Sirkek, D.D. Thakur, A.K. Verma and Arun Gupta* IV-90
11. Case Study of Uprating, Renovation and Refurbishment Carried-Out at Sharavati Generating Station  
– *H.D. Dwarakanath* IV-97
12. Use of High-Penetrability Cement Grouts in Hydraulic Construction  
– *V.A. Ashikhmen, L.E. Pronina and V.M. Korolyov* IV-102
13. Modernization and Refurbishing of Hydro-Power Plants in Egypt  
– *S. Aboulnasr, M. El - Gazzar, A. Assad and H. El - Shafei* IV-110
14. The use of Gas Insulated Switchgear in Hydraulic Power Plants  
– *Gilles Bazannery* IV-117
15. Opportunities for Uprating and Refurbishing of Hydro Power Plants in the Southern African Region  
– *R Lines and S.C. du Plessis* IV-126
16. Refurbishment, Modernization and Uprating of Hydro Plants  
– *Amrik Singh* IV-137
17. New Transducers Using Effect of Hydrostatic and Mechanical Pressure on Solid State Devices  
– *R.V. Karambelkar* IV-150

18. Hydropower Potential and Underground Construction Risks in Himalayan Region  
– *Pushpa Nath Sharma and Gyanendra Lal Shrestha* IV-153
19. An Experimental Study to Determine the Effects of Low and High-Energy Particle Impact on the Erosion of Hydraulic Turbine Material and Protective Hard Coating  
– *B.S. Mann* IV-163
20. Concrete Dam Grouting : Basic Principles and Quality Control Procedure  
– *Edgar S. Argal* IV-171
21. South China Electric Power Joint Venture Corporation  
– *Wang Yan* IV-180
22. Speed Governing Systems for Large Hydroturbines  
– *Gérard Dautremay* IV-183
23. The Applied Study of Efficient Management Mode of Diagnosis and Maintenance on Operating Unit Equipment for Hydroelectric Generator Set  
– *Liu Xiaoting and Chang Cheng Song* IV-198

#### **SESSION – V : FINANCING/INTERNATIONAL – COOPERATION/LEGAL FRAMEWORK**

1. The Review and Prospect for Three Gorges Project's International Cooperation  
– *Xu Keda* V-1
2. Attracting Private Investment in the Energy Sector in Zambia  
– *C FG Mukosa, DZ Mazvidza and J Kangwa* V-8
3. Speedy Hydro Power Development Project Preparation & Financing  
– *K.K. Govil* V-14
4. The Challenges Facing Stakeholders in Successfully Implementing Integrated Water Resources Management in the Zambezi River Basin  
– *M.J. Tumbare* V-24
5. Electricity Pricing for Hydro Projects – Issues and Options for Private Sector in Developing Countries  
– *Keshav Saran* V-31
6. Water Resources Development and Financing Strategy  
– *Yang Ya* V-46
7. Global Power Requirement for 21st Century & Prioritisation of Development of Hydel Power with Particular Reference to Narmada Valley Development  
– *P.C. Mandloi* V-52
8. Reforms in Nepal's Power Sector : A Utility Perspective  
– *Jeevan Raj Shrestha* V-57

#### **SESSION – VI : HUMAN RESOURCES, SMALL HYDRO & MISC.**

1. Human Resources Management in Hydroelectric Power Projects  
– *Yogendra Prasad, V.B. Prasad and Raj Kumar* VI-1
2. New Technology Impact on Human Resource Management  
– *A.I. Bunet* VI-6

3.	Operation of Hydro Power and Irrigation System by Using Dynamic Programming Model – <i>P.N. Darde</i>	VI-11
4.	Generation Technology and Organisational Culture : The Perspective of Hydro Power Stations in Tenaga Nasional Berhad – <i>Ibrahim Ali</i>	VI-22
5.	Small Hydro Projects – Techno-Economic Viable Option for Decentralised Development in Developing Countries – <i>Keshav Saran</i>	VI-31
6.	Development of Micro-Mini Hydrel Schemes Through Microtunneling Machines – <i>M.M. Madan</i>	VI-60
7.	Economic Aspects of a Proposed Small Hydropower Project – <i>V.R. Desai and M.V.V. Saradhi</i>	VI-68
8.	Small Hydro Power - Accelerated Development with Cost Effective Management – <i>A. Stephen</i>	VI-76
9.	Prospect of Micro-Mini Hydrel Project in the District of Darjeeling West Bengal – <i>H. Guptasarma and S.C. De</i>	VI-85
10.	Probability and Risk Assessment – <i>Ashok Kumar Grover</i>	VI-95
11.	Integrated Pooling of Hydro and Thermal Generating Resources for Economic Generation and Optimal Solution for Smooth System Operation – <i>G Basu</i>	VI-104
12.	Additional Power Through Omission of Control at Head Regulator of Shahpurkandi Hydrel Channel – <i>O.P. Sharma, N.K. Bhalla and R.S. Goyal</i>	VI-117
