

PROCEEDINGS

of the

TENTH

WORLD

CONFERENCE

on

EARTHQUAKE

ENGINEERING

19-24 July 1992

Madrid

Spain

Organized by

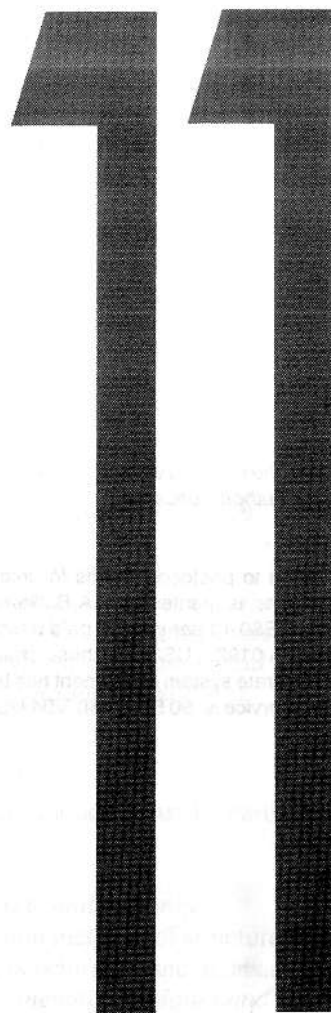

Asociación Española de Ingeniería Sísmica

Sponsored by

International Association for Earthquake Engineering

Published by

A.A.Balkema / Rotterdam / Brookfield / 1994

Contents of Volume 11

Organization	XVII
1 Opening ceremonies	
Welcoming remarks <i>A. López Arroyo</i>	6339
Introductory remarks <i>R. Blázquez</i>	6341
Welcoming remarks <i>G. Grandori</i>	6343
Report of the IAEE Committee on the IDNDR <i>G. Housner</i>	6347
2 Closing ceremonies	
Closing report <i>T. Katayama</i>	6351
Closing ceremony address <i>R. Blázquez</i>	6355
Closing remarks <i>G. Grandori</i>	6359
Closing ceremony address <i>Th. Paulay</i>	6361
Closing remarks <i>R. Meli</i>	6363
3 Reports of events	
Technical visits <i>D. Wink & P. Lind</i>	6367
Social events	6371
Special events	6373
Accompanying persons program	6375

4 Report of IAEE activities	
Report of the IAEE business meetings	6381
<i>Central Office of the International Association for Earthquake Engineering</i>	
Statutes of the International Association for Earthquake Engineering	6399
5 Invited lectures	
5.1 <i>Keynote lectures</i>	
Major issues and future directions in earthquake-resistant design	6407
<i>V.V. Bertero</i>	
Modelling problems in earthquake resistant design: Uncertainties and needs	6445
<i>J.M. Roesset</i>	
5.2 <i>State-of-the-art reports</i>	
The state of the art in synthesis of strong ground motion for earthquake engineering	6487
<i>B.A. Bolt</i>	
Effect of foundation soils on seismic damage potential	6493
<i>W.D. Liam Finn</i>	
The implementation of base isolation in the United States	6507
<i>J.M. Kelly</i>	
Structural reliability methods for seismic safety assessment	6519
<i>A. Der Kiureghian</i>	
Microzonation and disaster mitigation	6535
<i>M. Watabe, K. Dan, T. Sato & T. Okumura</i>	
Computational mechanics and earthquake engineering	6551
<i>O.C. Zienkiewicz & M. Pastor</i>	
Constitutive relations for dynamic soil behaviour	6561
<i>F. Darve</i>	
Recent developments in lifeline earthquake engineering	6575
<i>T. Katayama</i>	
Seismic safety and strengthening of historical buildings and urban fabrics	6583
<i>A. Giuffrè</i>	
Earthquake resistant design: Research developments in basic and in normative research	6597
<i>P.E. Pinto</i>	
5.3 <i>Invited papers</i>	
Local spatial variation of earthquake ground motion	6615
<i>E.H. Vanmarcke</i>	
Falsification of hazard analysis	6623
<i>G. Grandori</i>	

Seismic studies of the San Francisco-Oakland Bay bridge <i>A.Astaneh-Asl</i>	6631
Concepts and techniques for seismic base-isolation of structures <i>A.S.Arya</i>	6639
Retrofitting of structures built and designed by different materials <i>D.Jurukovski</i>	6649
Reliability and optimization in the formulation of seismic design codes <i>L.Esteva</i>	6659
Seismic response of soil layer and its dynamic properties <i>T.Kokusho, J.Tohma, H.Yajima, Y.Tanaka, M.Kanatani & N.Yasuda</i>	6671
Simulated seismic load tests on reinforced concrete elements and structures <i>R.Park</i>	6681
Recent studies of earthquake ground motion and amplification <i>B.Mohraz</i>	6695
Cost-benefit considerations related to seismic risk mitigation and socio-economic consequences of earthquakes <i>H.Tiedemann</i>	6705
Some relevant aspects of the seismic design codes: Lessons learned from earthquakes and impact on practice and research <i>L.Decanini & C.Gavarini</i>	6715
Determination of the dynamic behaviour of soils using surface waves: Spanish experiences <i>V.Cuéllar</i>	6725
Usefulness of forward modelling in strong motion seismology: A few examples <i>P.-Y.Bard</i>	6735
Code seismic design criteria for emergency buildings <i>J.Grases G</i>	6745
Methods for regional damage estimation <i>A.S.Kiremidjian</i>	6753
Earthquake analysis, design, and safety evaluation of concrete arch dams <i>A.K.Chopra</i>	6763
Simple physical models for foundation vibration: Towards a strength-of-materials approach <i>J.P.Wolf</i>	6773
Factors affecting response spectra in the long period range <i>R.Blázquez</i>	6783
Nonlinear time history analysis of R/C frame-wall buildings to determine the ductility demand of gravity load columns <i>H.Bachmann, Th.Wenk & P.Linde</i>	6791
Centrifuge modelling of soil liquefaction <i>R.Dobry & Li Liu</i>	6801

Effects of earthquakes on lifelines: Case History – The El Napo 1987 earthquake <i>O. Lara</i>	6811
Modeling of nonlinear stress strain relations of sands for dynamic response analysis <i>H. Hayashi, M. Honda, T. Yamada & F. Tatsuoka</i>	6819
Recovering strong ground motion from performances of simple structures: A contribution to microzonation <i>C. S. Oliveira</i>	6827
Shaking table testing of structures <i>R. T. Duarte, M. Ritto-Corrêa, C. T. Vaz & A. Campos-Costa</i>	6837
Dynamic impedances of bridge abutments <i>E. Alarcón, A. Martínez & M. S. Gómez-Lera</i>	6847
Knowledge engineering in earthquake engineering <i>H. Adeli</i>	6857
 <i>Special theme session 1: International Decade for Natural Disaster Reduction (IDNDR)</i>	
Introduction <i>T. Katayama, R. Meli & R. Blázquez</i>	6867
 <i>Special theme session 2: Second International Forum for Earthquake Zonation</i>	
Second International Forum on Seismic Zonation, Madrid, Spain, July 23, 1992 <i>W. Hays, B. Rouhban & M. Herráiz</i>	6887
First International Forum on Earthquake-Related casualties, Madrid, Spain, July 23, 1992 <i>E. Noji, W. Hays & M. Herráiz</i>	6889
 <i>Special theme session 3: Use of historical data for evaluation of earthquake risk</i>	
Use of historical data for the evaluation of earthquake risk <i>M. Stucchi, C. Margottini & D. Muñoz</i>	6893
Historical records, macroseismic scales and seismic hazard <i>M. Stucchi</i>	6895
Selected examples of unreinforced masonry building failures from past Canadian earthquakes <i>M. Bruneau</i>	6901
Direct use of raw historic data for engineering purpose <i>S. K. Thakkar</i>	6903
Statistical models of damage to buildings and the MSK scale <i>D. Liberatore</i>	6905
Seismic vulnerability functions based on strong ground motion and their usefulness in risk studies and interpretation of historical data <i>A. Pomonis</i>	6907

Seismic risk factors: Case example from an historical centre of a town in Southern Italy <i>E. Esposito, S. Porfido & S.M. Petrazzuoli</i>	6909
The use of damage records and coeval cadastre sources for improving the intensity assessment <i>A. Moroni</i>	6911
 <i>Special theme session 4: Strong motion records: Processing and data banks</i>	
Introduction <i>A.G. Brady</i>	6915
USGS strong-motion database <i>A.G. Brady</i>	6916
Characteristics of strong ground motion records obtained in Europe and adjacent countries <i>B. Mohammadioun</i>	6919
Recent activities in development of strong motion array record database in Japan <i>M. Sugito</i>	6923
CDMG strong-motion instrumentation program <i>A. Shakal</i>	6926
Investigation on strong-motion processing procedures <i>X. Goula, D. Rinaldis & J. Menu</i>	6927
Strong-motion recording and data acquisition – A case study at ERI <i>K. Kudo</i>	6931
Correction of $1/f$ noise in SMAC accelerograms <i>K. Toki & S. Sawada</i>	6935
Recent tests on 3 16-bit digital strong-motion recorders <i>B. Bolt</i>	6939
Instrumentation and processing comparisons at ENEA <i>D. Rinaldis</i>	6940
Proposal for a new technology accelerographs benchmark: Some early results obtained from digital records analysis <i>D. Rinaldis</i>	6941
Two new strong-motion arrays in Hualien, Taiwan <i>Yeong-Tein Yeh & Hung-Chie Chiu</i>	6947
Panel discussion summary <i>A.G. Brady</i>	6951
 <i>Special theme session 5: Turkey Flat and Ashigara Valley experiments</i>	
Introduction <i>W.D. Iwan, K. Kudo & A. Roca</i>	6957
The Turkey Flat, California site response experiment <i>A. F. Shakal</i>	6959

A brief summary of the results of the Turkey Flat weak motion site response blind prediction <i>J.C. Stepp & C.H. Cramer</i>	6963
Blind prediction experiments at Ashigara Valley, Japan <i>K. Kudo & Y. Sawada</i>	6967
Summary and some comments on results of Ashigara Valley blind prediction test <i>Y. Shinozaki & K. Irikura</i>	6973
Discussion: Site effects experiments (Turkey Flat and Ashigara) <i>N.C. Donovan</i>	6977
Some lessons learned after the Ashigara Valley blind prediction test <i>E. Faccioli & R. Paolucci</i>	6979
Lessons from the Ashigara Valley experiment and the Odawara Symposium on the effects of surface geology on seismic motion <i>K. Irikura</i>	6981
What has been learned and what should be done <i>S. Iai</i>	6983
Discussion session: Lessons, issues, needs and prospects <i>P.-Y. Bard</i>	6985
Discussion summary <i>N. P. Jones</i>	6989
 <i>Special theme session 6: Lessons learned and socio-economic issues arising from recent catastrophic earthquakes</i>	
Lessons learned from destructive earthquakes Iran 1990; Armenia 1988; California 1989 <i>G.W. Housner</i>	6995
Lessons of the 1990 Manjil-Iran earthquake <i>A. A. Astaneh-Asl</i>	6997
Lessons learned from the 20 June 1990 Manjil, Iran earthquake <i>A.A. Moïnfar, A. Naderzadeh & A. Akhoundi</i>	7001
Learning from earthquakes: The Armenia earthquake <i>M.S. Agbabian</i>	7009
Economic and social impacts of Armenia earthquake <i>F. Krimgold</i>	7011
The Loma Prieta, California earthquake of October 17, 1989 <i>J. Penzien & C. Stepp</i>	7017
Recent earthquakes: Philippines, 1990; Costa Rica, 1991; India, 1991; Turkey, 1992 <i>E. Rosenblueth</i>	7025
July 16, 1990 Luzon (Philippines) earthquake <i>R. L. Sharpe</i>	7027

The April 22, 1991 Limón (Costa Rica) earthquake <i>G.Santana</i>	7033
October 20, 1991 Uttarkashi (India) earthquake <i>A.S.Arya</i>	7039
March 13, 1992 Erzincan (Turkey) earthquake <i>M.Erdik, O.Yuzugullu, C.Karakoc, C.Yilmaz & N.Akkas</i>	7045
<i>Special theme session 7: Seismic design of a fixed link across the Gibraltar Strait</i>	
Introduction and programme <i>J.M.Pliego & A.López Arroyo</i>	7055
Seismicity of the Strait of Gibraltar during 1991 <i>A.Ibenbrahim, I.Dafali & D.Bensari</i>	7057
Seismic behaviour of a bridge across the Strait of Gibraltar <i>M.A.Astiz</i>	7063
Seismic effects on a tunnel across the Strait of Gibraltar <i>E.García Gonzalez</i>	7073
Golden Gate Bridge seismic retrofit project: A reference for approaching the seismic aspects of the Gibraltar Strait bridge <i>Ch.Seim & S.Rodriguez</i>	7079
<i>Special theme session 8: Control of seismic response of structures</i>	
Introduction <i>T.Kobori, K.Kubo, G.W.Housner, Y.Inoue, S.F.Masri, A.J.Clark, H.Iemura & J.Rodellar</i>	7090
Activities in structural control in the USA <i>G.W.Housner, S.F.Masri & T.T.Soong</i>	7091
State-of-the-art report of active and hybrid control research in Japan <i>Y.Inoue</i>	7095
Panel discussion	7103
International Association for Structural Control <i>S.F.Masri</i>	7109
Control of seismic response of structures: Closure <i>S.F.Masri</i>	7111
Closing address <i>K.Kubo</i>	7113
<i>Special theme session 9: Eurocode 8</i>	
Introduction <i>T.P.Tassios & E.Alarcón</i>	7116

Special theme session 10: Earthquake damage scenarios

Use of earthquake damage scenarios for cities of the 21st century <i>B.E. Tucker & B. Benito</i>	7119
---	------

Special theme session 11: International Earthquake Engineering Research and Data Dissemination Centers

Introduction <i>A. Roca & M. Vasiljevic</i>	7132
--	------

National Center of Earthquake Engineering Research (NCEER) <i>Red Jacket Quadrangle</i>	7135
--	------

International Institute of Earthquake Engineering and Seismology: Theran, Islamic Republic of Iran <i>M. Ghafory-Ashtiany</i>	7137
--	------

Strong ground motion observation system in Japan <i>H. Kobayashi</i>	7139
---	------

Earthquake Engineering Research Center <i>College of Engineering</i>	7141
---	------

European Laboratory for Structural Assessment (ELSA) (Reaction-Wall Facility) of the JRC Ispra <i>J. Donea, G. Verzeletti, P.M. Jones & A.V. Pinto</i>	7143
---	------

Data dissemination and research activities of the California Strong Motion Instrumentation Program <i>A. F. Shakal</i>	7147
---	------

Institute of Earthquake Engineering and Engineering Seismology, University 'Cyril and Methodius', Skopje, Republic of Macedonia <i>K.V. Talaganov</i>	7149
--	------

Earthquake Engineering Research Institute (EERI) <i>S. K. Tubbesting</i>	7151
---	------

Miscellaneous
