

# PROCEEDINGS OF

**FIRST  
INTERNATIONAL  
CONFERENCE ON  
SMALL HYDRO**

organized by

INTERNATIONAL  
**Water Power**  
& Dam Construction

Singapore 1984

# Contents

## SESSION I - PLANNING, HYDROLOGY AND CIVIL WORKS

Keynote address: Planning low-capacity water power plants E Mosonyi, Federal Republic of Germany	7
An approach to design for small Third World hydro projects J R Appleby, Australia	11
Design features for civil works for a small scheme in Sabati M Gerodetti, Switzerland	12
Optimum use of potential energy at the Wemindji project C Guillaud, Canada	22
Implementing five low-head small plants in Indonesia J P Brault, France	28

## SESSION II - PLANNING: EQUIPMENT

Rationalised design for small schemes J Pedersen, Norway	37
Standardisation, rationalisation and specification of m/e equipment B W Leyland, New Zealand	41
Small hydro turbine control R R Minns, USA	55
Electronic load governor J L Woodward, New Zealand	57

## SESSION III - MODEL TESTS & SPECIFICATIONS

Keynote address: Cascade development and multi-purpose utilization of small rivers Zheng Naibo, People's Republic of China	65
Small turbine model testing G Bagliani, Italy	71
Hydraulic modelling of rating curves for small rivers T Aamodt, Norway	74
Model tests as a tool in designing bedload free water intakes J G Jacobsen, Philippines	75

## SESSION IV - FINANCE

Keynote address: Development of small hydro: the keystone - finance J G Warnock, Canada	85
Financial appraisal of micro hydro in Papua New Guinea R Hothersall, Papua New Guinea	90
Station planning for an optimum cost generation from a small hydro- power scheme in Southern Laos M V Brahme, India	96
Package mini-hydro contract in the Philippines V R Turnbull, UK	99

contd

SESSION IV - EXTRA SESSION 105

SESSION V - CASE STUDIES

Keynote address: Small hydropower development in Korea  
Kyung Mo Ahn, Korea 129

Experiences with small schemes in the Himalayas  
R C Chauhan, India 131

Conceptual planning of small hydro in Greece  
S Nicolaou, USA 139

Small hydro in Thailand  
R M Seoni, Canada 148

Ban Santi: a small hydropower plant for resettlement villages in Thailand  
M L Chanphun Kridakorn, Thailand 150

SESSION VI - RESEARCH AND DEVELOPMENT

Keynote address: P C Saxena, India 157

Pump-turbine: the economic answer  
J M Bain, UK 160

Recent advances in the development of microprocessor-based electronic  
load controllers  
P Robinson, Papua New Guinea 168

Advanced Francis turbine having improved hydraulic performance at  
smaller discharge region  
H Aoki, Japan 171

Development of technology of civil works for small hydro  
H Mineo, Japan 175

The re-commissioning of Ruahihi  
B W Leyland, New Zealand 188

SESSION VII - OPERATING EXPERIENCE

Keynote address: Small hydropower - a developing asset  
C W Head, UK 197

Small-scale hydro experience in New Zealand and East Malaysia  
J N Duder, New Zealand 201

Small hydro: a challenge for consultants  
J Gilbert-Green, Canada 203

Experience of planning small hydro stations for Peru  
P W Wicke, Federal Republic of Germany 211

Transfer of small hydro technology  
J P Christensen, USA 218
