

EUROCK '96/TORINO/ITALY
PROCEEDINGS/COMPTE-RENDUS/SITZUNGSBERICHTE
ISRM INTERNATIONAL SYMPOSIUM/1996.09.2-5

Prediction and Performance
in Rock Mechanics and Rock Engineering
Prévisions et réalisations
en Mécanique et Ingénierie des Roches
Voraussichten und Leistungen
in Felsmechanik und Felsingenieurwesen

Editor/Editeur/Herausgeber

GIOVANNI BARLA

Department of Structural Engineering, Politecnico di Torino, Italy

VOLUME/TOME/BAND 3

Published for/Publiés pour/Herausgegeben für
AGI – Associazione Geotecnica Italiana

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 2000

Table of contents
Table des matières
Inhalt

<i>Opening and closing session</i>		
G. Barla	Opening address	1447
M. Bresso	Welcome address	1448
R. Zich	Address	1450
S. Martinetti	Address	1451
S. Sakurai	Address	1452
M. Jamiolkowski	Address	1453
G. Barla	An overview of the Eurock '96 Technical Program	1455
G. Barla	Closing address	1459
K. Kim	Address	1463
S. Sakurai	Address	1464
<i>Special lectures</i>		
M. Board	Numerical examination of mining-induced seismicity	1469
C. R. Windsor	Rock reinforcement systems	1487
R. E. Goodman	The foundation of Scott Dam: A case study of a complexly heterogeneous foundation	1515
<i>Keynote lectures</i>		
R. Nova & R. Lagioia	Soft rocks: Behaviour and modelling Roches tendres comportement et modélisation Weichgesteine: Verhalten und Modellierung	1521
J.C. Sharp	Present understanding and predictive capability of the stability conditions for very high rock cuts	1541

V.Maury	Specific and compared difficulties in works at great depth in mining civil engineering and oil industry from a rock mechanics perspective	1553
W.S.Dershowitz	Rock mechanics approaches for understanding flow and transport pathways	1569

Miscellaneous

Program		1587
ISRM Board and Council Meetings		1613
Welcome party in the underground of Turin – The Railway Link		1617
Banquet at the Galleria di Diana in the Savoia Castle - Venaria Reale		1621
Technical visits		1623
List of exhibitors		1635
List of participants		1639
Author index		1661
