PROCEEDINGS OF THE 4TH INTERNATIONAL GEOTECHNICAL SEMINAR ON DEEP FOUNDATIONS ON BORED AND AUGER PILES, GHENT, BELGIUM, 2-4 JUNE 2003

DEEP FOUNDATIONS ON BORED AND AUGER PILES

Edited by
W.F. Van Impe
Laboratory of Soil Mechanics, Ghent University, Belgium
President ISSMGE

Millpress
MILLPRESS ROTTERDAM NETHERLANDS 2003

| *Introductory lecture*  
Screw piling: Still a challenging discussion topic?  
*Van Impe, W.F.*                               | 3    |
| *Theme lecture 1: Mexican experiences with bored piles*  
Enduring subsoil changes with large bored piles in Mexico City  
*Springall, G.*                                | 11   |
| *Theme lecture 2: Auger and bored pile monitoring and testing*  
Auger and bored pile construction monitoring and testing  
*Bustamante, M.*                                | 27   |
| *Theme lecture 3: Research needs and professional practice in bored and auger piles*  
Deep foundations - Can further research assist practice?  
*Poulos, H.G.*                                  | 45   |
| *Theme lecture 4: Design practice of bored piles in group and in piled raft concepts*  
Design of piled raft foundations: Practice and development  
*Mandolini, A.*                                  | 59   |
| *Theme lecture 5: Soil parameters relevant to bored pile design from laboratory and in situ tests*  
Soil parameters relevant to bored pile design from laboratory and in situ tests  
*Jamiolkowski, M.*                               | 83   |
| *Theme lecture 6: Experiences with bored piles under seismic loading*  
Performance and practice on bored piles subjected to earthquake  
*Matsui, T., Oda, K., Tokida, K. & Yasuda, F.*     | 103  |
Discussion session 1:
Installation parameter influence; international standards and Eurocode 7 for bored and screw piles
Assessment of model factors and reliability index for ULS design of pile foundations
Baudoin, C.
Comparative performances of Continuous Flight Auger and Driven Cast in Place piles in sands
Evers, G., Hass, G., Frossard, A., Bustamante, M., Borel, S. & Skinner, H.
Influence of residual stresses for non displacement cast in situ piles
Falconio, G. & Mandolini, A.
Analysis of bearing capacity and settlement of CFA piles
Kłosiński, B. & Rychlewski, P.
The bearing capacity of piles
Mets, M.
Contact behaviour at the interface between bored piles and subsoil
Moormann, Ch.
Development of the screw steel pipe pile with toe wing, "Tsubasa Pile"
Mori, G.
Installation effort as an indicator of displacement screw pile capacity
NeSmith, W.M.

Discussion session 2:
Screw and bored piles under axial, lateral and earthquake loading; design versus performance
Investigation of the large lateral displacements behaviour of tubular piles in sand - Full scale and centrifuge modelling
Bouafia, A. & Lachenani, A.
Calculation of load-settlement curve based on CPT test results
Gwizdala, K. & Steczniewski, M.
Compacted grout bored micropiles in clay
Lutenegger, A.J.
Design of axially loaded bored single piles
Masopust, J.
Investigation of lateral load resistance of laterally loaded pile in sandy soil
Rahman, M., Alim, A. & Chowdhury, A.S.
Particle based modeling of CFA and soil displacement piles
Schmitt, A. & Katzenbach, R.

Discussion session 3:
Professional practice and quality control in bored and auger piling; design philosophy
Bored precast piles equipped with grouted bulb in the toe region
Karkee, M.B. & Yamato, S.
Bored sockets in weathered basalt
Maertens, L.
Structural design issues for bored piles
O'Neill, M.W., Tabsh, S.W., Sarhan, H.A. & Nam, M.S.
Recent developments on Continuous Flight Auger (CFA) pile: Technology, equipment and applications

Pagliacci, F., Bertora, A., Stipi, M. & Zuffi, P.

A study of the screwed pile - The results of installation and loading tests and analysis of penetration mechanisms

Sackl, E. & Ohki, H.

Behaviour of polymer-based slurry for deep-seated bored piles in multi-layered soil of Bangkok

Thaiyapan, N., Aye, Z.Z. & Boonyarat, T.

Bearing capacity of bored pile packed with iron and steel slag using precast concrete pile

Yabuuchi, S., Nishtwaki, A., Kobayashi, K., Hirao, K. & Yoshikawa, N.

Discussion session 4:
Bored and auger pile testing

Influence of pile installation and of pile test procedure on the test load results of Atlas pile - A case study

Ayjan, E.F., Van Impe, W.F. & Imbo, R.

Experimental evidence for the validation of load-settlement predictions

Caputo, V.

Behaviour of a CFA pile in a lateric clay

Décourt, L.

Bi-directional static load testing - State of the art

England, M.

Static and cyclic tests on bored piles for the foundation of a tunnel and slab tracks

Kempfert, H.-G., Raithel, M. & Quick, H.

A full-scale test on large diameter bored piles for the construction of the HST-tunnel in Antwerp (Belgium)

Maerten, J., Theys, F. & Maekelberg, W.

A contribution to the analysis of Osterberg’s cell load test

Russo, G., Recinto, B., Viggiani, C. & de Sanctis, L.

Case history of a designed, installed, load and integrity tested ACIP piles project

Stephan, G.A. & Saxena, D.S.

Discussion session 5:
Case studies including also piled raft design

Box-shaped foundations of bored and auger piles (or diaphragm walls)

Brandl, H.

Centrifuge modelling to investigate the performance of piled rafts

Conte, G., Mandolini, A. & Randolph, M.F.

Evaluation of deep bored foundation behavior on a tropical residual soil via instrumented loading tests

Cunha, R.P., Pereira, J.H.F. & Camapum de Carvalho, J.

A case study of rock socketed piles: Design, control and construction of bored piles

for a bridge foundation in southeast Brazil

de Mello, L.G., Bilfinger, W., Mendes, A.S. & Sá Fontes, R.

On the ultimate vertical load of piled rafts on soft clay soils

de Sanctis, L. & Mandolini, A.

Piled raft foundation of a railway bridge in tertiary clay

El-Mossallamy, Y., Schmidt, H., Gündling, E. & Löschner, J.

Deep Foundations on Bored and Auger Piles, Van Impe (ed.)
