

GEOTECHNICAL SPECIAL PUBLICATION NO. 124

# GEOSUPPORT 2004

## DRILLED SHAFTS, MICROPILING, DEEP MIXING, REMEDIAL METHODS, AND SPECIALTY FOUNDATION SYSTEMS

PROCEEDINGS OF SESSIONS OF THE GEOSUPPORT CONFERENCE:  
INNOVATION AND COOPERATION IN THE GEO-INDUSTRY

January 29-31, 2004  
Orlando, Florida

SPONSORED BY  
International Association of Foundation Drilling (ADSC)  
The Geo-Institute of the American Society of Civil Engineers

EDITED BY  
John P. Turner  
Paul W. Mayne

Published by the American Society of Civil Engineers

# Contents

## *Special Invited Papers*

<b>Drilled and Driven Foundation Behavior in a Calcareous Clay</b> .....	1
W. M. Camp III	
<b>Zen and the Art of Drilled Shaft Construction: The Pursuit of Quality</b> .....	19
Dan A. Brown	
<b>On the Axial Behavior of Drilled Foundations</b> .....	34
Fred H. Kulhawy	

## *Drilled Shafts I: Design and Construction Case Histories I*

<b>"Value Engineering...?" During Construction</b> .....	52
Maral Papazian Bedian	
<b>Drilled Shaft Construction with Blasting</b> .....	70
Frederick C. Rhyner	
<b>Drilled Shaft Construction for the Bandra-Worli Sea Link Project</b> .....	84
Conrad W. Felice and Henry Brenniman	
<b>Capacity of Drilled Shafts for the Proposed Susquehanna River Bridge</b> .....	96
Benjamin B. Gordon, Joan L. Hawk, and Oscar T. McConnell, Jr.	
<b>Applications of a Simplified Dynamic Load Testing Method for Cast-in-Place Piles</b> ....	110
Mohamad Hussein, Brent Robinson, and Garland Likins	

## *Micropiles I: Micropiles in Anchored Geo-Support*

<b>Results of Lateral Load Tests on Micropiles</b> .....	122
James Long, Massimo Maniaci, Glen Menezes, and Rory Ball	
<b>Effect of Micropiles on Seismic Shear Strain</b> .....	134
Kevin J. McManus, Guillaume Charton, and John P. Turner	
<b>Low Energy Compacted Concrete Grout Micropiles</b> .....	146
Alan J. Lutenege	
<b>Lateral Loads on Pin Piles (Micropiles)</b> .....	158
Thomas D. Richards, Jr. and Mark J. Rothbauer	
<b>Rock Socketed Micropiles</b> .....	175
Nasser Massoudi	
<b>Sources of Uncertainty in Lateral Resistance of Slender Reinforcement Used for Slope Stabilization</b> .....	187
Jorge R. Parra, Eng-Chew Ang, and Erik Loehr	

*Auger-Cast-in-Place and Drilled Displacement Piles*

<b>Multi-Method Strength Characterization for Soft Cretaceous Rocks in Texas</b> .....	199
Emin Cavusoglu, Moon S. Nam, Michael W. O'Neill, and Mark McClelland	
<b>Design, Monitoring, and Integrity Testing of Drilled Soil Displacement Piles (DSDP) for a Gas-Fired Power Plant</b> .....	211
Guoming Lin, Edward L. Hajduk, and Willie NeSmith	
<b>Residual Load Development in Augered Cast-in-Place (ACIP) Piles in a Bridge Foundation</b> .....	223
Min-Gu Kim, Emin Cavusoglu, Michael W. O'Neill, Tim Roberts, and Stanley Yin	
<b>Auger Pressure Grouted Displacement Piles: An Acceptable Deep Foundation Alternative</b> .....	236
Osama El-Fiky and Michael Majchrzak	

*Drilled Shafts II: Design and Construction Case Histories 2*

<b>9-Foot (2.75m) Diameter Drilled Shafts at Cranston Viaduct: Design, Load Testing, and Construction</b> .....	250
Aly M. Mohammad and Karen C. Armfield	
<b>A Deep Foundation Surprise, Engineered Response, and Foundation Performance</b> .....	262
Clyde N. Baker, Jr., Tony A. Kiefer, William H. Walton, and Charles E. Anderson	
<b>Foundation Seismic Retrofit of Boeing Field Control Tower</b> .....	278
Dominic M. Parmantier, Tom A. Armour, Bill J. Perkins, and Jim A. Sexton	
<b>Drilled Shaft Value Engineering Delivers Success to Wahoo, Nebraska Bridge</b> .....	289
Joseph A. Waxse, Jorj Osterberg, and Omar Qudus	

*Drilled Shafts III: Earth Retention Using Drilled Shafts*

<b>Secant Piles Support Access Shafts for Tunnel Crossing in Difficult Geologic Conditions</b> .....	299
Thomas C. Anderson	
<b>Design of Cantilever Soldier Pile Retaining Walls in Stiff Clays and Claystones</b> .....	309
Richard C. Sisson, Clint J. Harris, and Robert L. Mokwa	
<b>Design, Construction, and Performance of an Anchored Tangent Pile Wall for Excavation Support</b> .....	322
J. P. Turner, J. A. Steele, W. F. Maher, M. R. Zortman, and J. R. Carpenter	
<b>Design of Drilled Shaft Cutoff Walls for Slope Stability in Marginal Soils</b> .....	334
Philip S. Lowery	

*Ground Anchors for Infrastructure Repair*

<b>Stabilization of Retaining Wall Along Tailrace Channel of Hodenpyl Dam</b> .....	346
Jesús Gómez, Mary Ellen Bruce, Donald Bruce, Donald Basinger, and Allen Cadden	
<b>Post Grouted Single Bore Multiple Anchors at Hodenpyl Dam, Michigan</b> .....	361
M. E. Bruce, R. P. Traylor, A. D. Barley, D. A. Bruce, and J. Gomez	
<b>Wax Protection for Ground Anchors</b> .....	374
Heinz Nierlich	
<b>Repair of Failing Mechanically Stabilized Earth (MSE) Railroad Bridge Abutment</b> .....	380
Tom A. Armour, John Bickford, and Tom Pfister	

*Drilled Shafts IV: In Situ Testing for Design Parameters*

<b>Influence of Ground Water Table Fluctuation on Lateral Load Behavior of Rigid Drilled Shafts in Stiff Clay</b> .....	395
Alan J. Lutenegeger and Amy E. Dearth	
<b>Pilot Holes for Drilled Pier Foundations in Karst Conditions</b> .....	405
James G. Bierschwale and Todd E. Swoboda	
<b>Lateral Drilled Shaft Response from Dilatometer Tests</b> .....	415
Paul W. Mayne	
<b>Axial Shaft Response from Seismic Piezocone Tests</b> .....	429
Paul W. Mayne and Guillermo Zavala	
<b>Texas Cone Penetrometer-Pressuremeter Correlations for Soft Rock</b> .....	441
Gerald A. Miller and James M. Smith	
<b>Geotechnical Engineers, Wake Up—The Soil Exploration Process Needs Drastic Change</b> .....	450
Jorj O. Osterberg	

*Stone Column and Rammed Aggregate Pier Foundations*

<b>Modulus Load Test Results for Rammed Aggregate Piers in Granular Soils</b> .....	460
Craig S. Shields, Brendan T. FitzPatrick, and Kord J. Wissmann	
<b>Ground Improvement Utilizing Vibro-Concrete Columns</b> .....	473
Raymond Mankbadi, Jack Mansfield, Ragui Wilson-Fahmy, Sherif Hanna, and Vedrana Krstic	
<b>Modeling of the Seismic Response of the Aggregate Pier Foundation System</b> .....	485
Christian H. Girsang, Marte S. Gutierrez, and Kord J. Wissmann	
<b>Compression and Uplift of Rammed Aggregate Piers in Clay</b> .....	497
Christopher Lillis, Alan J. Lutenegeger, and Michael Adams	
<b>Lessons Learned from a Stone Column Test Program in Glacial Deposits</b> .....	508
Barry S. Chen and Michael J. Bailey	

*Deep Underground Construction*

**Development of Slurry Wall Technique and Slurry Wall Construction Equipment** ..... 520  
Wolfgang G. Brunner

**Construction of the Deep Cut-Off at the Walter F. George Dam** ..... 530  
Arturo Ressi di Cervia

**Deep Underground Basements for Major Urban Building Construction** ..... 545  
Seth L. Pearlman, Michael P. Walker, and Marco D. Boscardin

**Effectiveness of Toe-Grouting for Deep-Seated Bored Piles in Bangkok Subsoil** ..... 561  
Narong Thasnanipan, Zaw Zaw Aye, and Chanchai Submaneewong

*Drilled Shafts V: Field Performance*

**Full Scale Field Performance of Drilled Shafts Constructed Utilizing Bentonite and Polymer Slurries** ..... 573  
Rudolph P. Frizzi, Matthew E. Meyer, and Lijian Zhou

**Osterberg Load Cell Test Results on Base Grouted Bored Piles in Bangladesh** ..... 587  
Raymond J. Castelli and Ed Wilkins

**Load-Settlement Characteristics of Drilled Shafts Reinforced by Rockbolts** ..... 603  
Sang-seom Jeong, Byung-chul Kim, Dae-soo Lee, and Dae-hak Kim

**Response and Analysis of a Large Diameter Drilled Shaft Subjected to Lateral Loading** ..... 613  
Tong Qiu, Patrick J. Fox, Kerop Janoyan, Jonathan P. Stewart, and John W. Wallace

**Lateral or Torsional Failure Modes in Vertically Loaded Defective Pile Groups** ..... 625  
Linggang Kong and Liming Zhang

**Performance Evaluation of Continuous Flight Auger (CFA) Vs. Bentonite Slurry Drilled Shafts Utilizing Drop Weight Testing** ..... 637  
Samuel G. Paikowsky, Israel Klar, and Les R. Chernauskas

*Micropiles II: Case Histories*

**Case History: Micropile Use for Temporary Excavation Support** ..... 653  
Paul R. Macklin, Donald Berger, William Zietlow, Wayne Herring, and Joshua Cullen

**High Capacity Micropiles for Utility Retrofit: A Case History at D. E. Karn Power Plant in Bay City, Michigan** ..... 662  
Timothy H. Bedenis, Michael J. Thelen, and Steve Maranowski

**Micropiles in Karstic Dolomite: Similarities and Differences of Two Case Histories** ..... 674  
Daniel D. Uranowski, Scott Dodds, and Scott Stonecheck

**Special Use of Micropiles and Permanent Anchors** ..... 682  
Helmut Schwarz, Klaus Dietz, Horst Köster, and Thomas Gross

**Bearing Capacity Improvement Using Micropiles: A Case Study** ..... 692  
G. L. Sivakumar Babu, B. Srinivasa Murthy, D. S. N. Murthy, and M. S. Nataraj

**Foundation Underpinning with Mini-Piles: "A First" in Guyana, South America** ..... 700  
Richard P. Stulgis, Brock E. Barry, and Francis S. Harvey, Jr.

*Soil Nailing for Geo-Support*

**Four Falls Corporate Center—A Case Study** ..... 712  
Iliana Alvarado, Allen Cadden, and Jesús Gómez

**Seismic Response and Extended Life Analysis of the Deepest Top-Down Soil Nail Wall in the United States** ..... 723  
David M. Cotton and Richard D. Luark

**Design, Construction, and Performance of an 18-Meter Soil Nail Wall in Tucson, Arizona** ..... 741  
Edward Nowatzki and Naresh Samtani

**Soil Nailing—Walls of Many Facades** ..... 753  
Daryl W. Wurster

*Drilled Shafts VI: Analysis of Behavior*

**Side Resistance of Drilled Shaft Socketed into Wissahickon Mica Schist** ..... 765  
Michael Zhiqiang Yang, M. Zia Islam, Eric C. Drumm, and Gang Zuo

**Numerical Analysis of Drilled Shaft O-Cell Testing in Mica Schist** ..... 778  
Gang Zuo, Eric C. Drumm, M. Zia Islam, and Michael Zhiqiang Yang

**Structural Damping Concept for Interpretation of Statnamic Pile Load Test Results** ..... 790  
San-Shyan Lin, J. L. Hong, Wei F. Lee, and Y. H. Chang

**Laterally Loaded Isolated Piles, Drilled Shafts, and Pile Groups Using the Strain Wedge Model** ..... 800  
Mohamed Ashour, Gary Norris, and Patrick Pilling

**Interface Stresses Between Soil and Large Diameter Drilled Shaft Under Lateral Loading** ..... 816  
Kerop D. Janoyan and Matthew J. Whelan

*Deep Mixing Method I: Engineering Tools*

**International Perspectives on Quality Assessment of Deep Mixing** ..... 826  
Anand J. Puppala and Ali Porbaha

**Non-Destructive Evaluation of Cement-Mixed Soil** ..... 838  
David A. Staab, Tuncer B. Edil, and David L. Alumbaugh

**Engineering Tools for Design of Embankments on Deep Mixed Foundation Systems** ..... 850  
Ali Porbaha and Al Dimillio

Simplified Procedure for Seismic Analysis of Sites with Deep Soil Mixing .....	862
Raj V. Siddharthan, Magdy El-Desouky, and Ali Porbaha	

*Grouting for Ground Improvement*

Jet Grouting Systems: Advantages and Disadvantages.....	875
George K. Burke	
Features and Results of a Jet-Grouting Trial Field in Very Soft Peaty Soils.....	887
Tiziano Collatta, Andrea Frediani, and Vittorio Manassero	
Grouting Repair of Seawall and Revetment, Dana Point Harbor, California.....	902
Jeffrey Geraci and Frank Nonamaker	
Jet-Grouting Performance in Tunneling.....	910
Paolo Croce, Giuseppe Modoni, and Giacomo Russo	
Ground Improvement Operations for the Construction of the "Via Gramsci Railway Underpass" .....	923
Giovanna Cassani, Andrea Bellocchio, and Luigi Nardacci	
Pile-Bottom Grouting Technology for Bored Cast-in-Situ Pile Foundation.....	935
Zhiguo Zhang, Tiejun Lu, Yucheng Zhao, Jingchun Wang, and Youdao Li	

*Deep Mixing Method II: Case Histories*

Evaluation of Deep-Seated Slope Stability of Embankments over Deep Mixed Foundations .....	945
Jie Han, Jin-Chun Chai, Dov Leshchinsky, and Shui-Long Shen	
Deep Soil Mixing for Foundation Support of a Parking Garage.....	955
Joseph Cavey, Lawrence F. Johnsen, and Jeffrey DiStasi	
Installation, Load-Testing, and Design of Geo-Jet Soil-Cement Piles.....	965
Jonathan R. Craft	
Controlled Modulus Columns (CMC) Foundation System for Embankment Support: A Case History .....	980
Cyril Plomteux, Ali Porbaha, and Charles Spaulding	

*Shallow Foundations*

Slab Construction—30 Years Late .....	993
W. Tom Witherspoon and Jason Taylor	
Back Analyzed Parameters from Piled Foundations Founded on Tropical Porous Clay .....	1003
R. P. Cunha, J. E. Bezerra, H. H. Zhang, and J. C. Small	
Behavior of Square Footings on Single Reinforced Soil.....	1015
Fathi M. Abdrabbo, Khaled E. Gaaver, and Amr Z. Elwakil	

*Geotechnical Engineering Education*

Student Views of the Geo-Industry .....	1027
Andrea L. Welker and Cynthia Finley	

*Indexes*

Subject Index.....	1039
Author Index .....	1043
