

1987 Proceedings of **Coastal & Port Engineering** in Developing Countries

Vol. I

Edited by

Nanjing Hydraulic Research Institute

With 705 Figures

China Ocean Press

CONTENTS

Vol. I

Theme Speech

- 3 Coastal and port engineering in China
Yen Kai
- 32 Appraisal and economic analysis of port projects
in developing countries
Ismail E. Mobarek
- 46 Current trends in coastal engineering
R. L. Wiegel
- Group A: Coastal Stability/Beach Erosion and Control/Inlets**
- 61 The coastal engineer as an initiator of coastal zone management
programmes: Sri Lanka case study
Amarasinghe, S. R., Wickremeratne, H. J. M.
- 69 Damietta Port – Arab Republic of Egypt: sedimentation and erosion
problems
Awad, M. H., Barailler, L.
- 81 Protection of sandy coasts
Bijker, E. W.
- 90 A programme for beach erosion control in Barbados, West Indies
Cambers, G.
- 102 Beach behaviour between headland breakwaters
Chew, S. Y., Wei, J., Chua, C. H.
- 117 Beach nourishment design elements and execution of the works
D'Angremond, K., De Jong, A. J., Van Oorschot, J. H.
- 132 A method for preliminary evaluation of equilibrium coastal plan shape
adjacent to nearshore structures
Dayananda, H. V., Gerritsen, F.
- 143 The beach slope of sandy coast and application of its similarity law
Dong Fengwu

- 158 Providence beach nourishment against dune erosion
Erchinger, H. F.
- 166 Use of sandfilled rubberised coir bags in coastal protection works
Gadre, M. R., Somayaji, N., Poonawala, I. Z., Kudale, M. D.
- 181 Design and performance of large scale beach nourishments
Gartner, J., Dette, H. H.
- 196 Master plan for coast erosion management
Jacobsen, Per Roed, Perera, N., Jensen, K. B.
- 212 Recent seawall construction on coastal zone of Shanghai, China
*Li Yucheng, Zhong Qiquan, Zhang Shiming, Quan Xuyl,
Zheng Jianwu*
- 223 A coastal protection study based on physical and mathematical
modelling
Madsen, P., Deigaard, R., Hebsgaard, M.
- 240 Field and model investigations on sedimentation in Beruwala fishing
harbour, Sri Lanka
Mangor, K., Chandrawansa, P. D.
- 255 Study methodology for the Malaysian national coastal erosion study
Nathan, R. A., Mcalister, I. J.
- 269 Wave energy flux computations for estimating longshore sand
transport rate
Ozhan, E.
- 282 Dutch guidelines on dike protection
Pilarczyk, K. W.
- 303 Direct labour sea defences in the West Indies
Slater, D., Summers, L., Gamon, L. R.
- 318 Evaluation of perched beach concept for shore stabilization
Sorensen, R. M.
- 327 Coastal erosion protective measures in Indonesia using low cost
technology
Syamsudin
- 338 Frequency-direction spectral wave refraction — diffraction using a
reverse ray technique
Treloar, P.D.
- 348 Analysis of Beach erosion along the Kashimanada coast
Uda, T., Sumiya, M.

- 363 Characteristic of tidal inlets designated for deep water harbour development, Hainan Island
Wang Ying, Schafer, C., Smith, J.N.
- 370 A comparison of the performance of three types of Groins
Weggel, J. R., Escajadillo, J. C. and Tsun-You Ting
- 385 Reclamations in Hong Kong – design considerations
Wong Kwok-Choy, Au, C. L., Cheung, R. K. H., Tam, W. K.
- 397 Deposition, erosion and control on the silt-muddy beach
Yu Guohua, Bao Shudong, Li Zegang
- 404 Low cost shoreline stabilization
Yu-Hwa Wang
- 412 Analyses of P-A relationship of tidal inlets along the coasts of south China
Zhang Qiaomin
- 423 A study of shallow beach protection and accretion measures along the coast of shanghai
Zhao Chengjian, Wang Zhenzhong, Yang Haobin
- Group B: Ports in Developing Countries, Site-Selection, Lay-Out, Choice of Structures and Materials, Construction, Performance and Maintenance**
- 439 Tripoli Harbour NW breakwater new design criteria and long term solution
Barony, S. Y., Mallick, D. V., Sehery, F.
- 451 A locational and economic analysis of existing and proposed ports: The case of Nigeria
Bell-Gam, W. I.
- 468 Investigations of the rehabilitation of a breakwater Ilha Do Fogo/Cape Verde Islands
Burkhardt, O., Bruhl, H., Naschold, G.
- 480 The growth and development of Kwai Chung container port, Hong Kong
Chalmers, M. L., Denton-Cox, R. A.
- 493 Case study: subsidence investigation, Mogadishu deepwater port, Somali Democratic Republic
Christoffersen, O., Abdi, M. E., Jensen, O. J.

- 508 The development of an offshore container terminal at Tanjung Perak-Port of Surabaya, Indonesia
Coode, D.
- 523 Systematic development in the Port of Colombo to meet increasing demand for container operations
De Fonseka, K. S. C., Godage, D.
- 538 Cost-effective building of breakwaters using geotextiles
Den Hoedt, G., Metz, H. E., Voskamp, W.
- 550 St. George Harbour: a berm breakwater solution in Alaska's Bering Sea
Drage, B. T., Gilman, J.
- 557 Port of Algiers extension: optimum design lay-out
El-Hafid Tabet-Aoul, Hocine Oumeraci
- 572 Kelantan minor port project, Malaysia integral harbour design with emphasis on local scour and sedimentation
Eysink, W. D., Koh, F., Tilmans, W. M. K., Vis, F. C.
- 587 Natural armoured rubble mound breakwaters
Foster, D. N., Hall, K. R.
- 602 Reflection characteristics of a pier with and without a moored ship
Gomez-Pina, G., Jimenez, A.
- 617 Bulk grain import system at shallow water quay in a Middle East port
Hartelius, H.
- 632 Improvements of 3 Port in Somalia: operations, equipment, maintenance facilities, training
Hartelius, H.
- 651 The Kaohsiung cross harbour tunnel and related works
Henrichsen, J. P., Bell, M. J.
- 662 Extension of the Port of Algiers, caisson V. S. rubble mound solution for the main breakwater
Hocine Oumeraci, El-Hafid Tabet-Aoul
- 677 The effect of an arid climate on reinforced concrete in a marine environment
Holmes, C. W., Brundle, S. G.
- 691 Impressed current cathodic protection on Lianyungang seaport sheet steel piling
Hong Dinghai, Ge Rengan, Da Lijun, Xu Zhendong
- 701 Planning and design of Lae Port development
Hooper, G. J., Bradshaw, D. G., Fountain, P. A.

- 716 Wave overtopping on breakwaters and sea dikes
Jensen, O. J., Juhl, J.
- 731 New oil berth, Visakhapatnam, India, for tankers of 150,000 dwt
Kelm, J. H., Divanji, A. H.
- 745 The theory on allotment of functions
Kumashiro, M.
- 758 Choice of structure and materials, construction, performance and maintenance of existing Pending Wharf, Kuching Port Authority, Sarawak, Malaysia
Ling Chiongming
- 767 The achievements in scientific research and the engineering practice of chiwan port development
Liu Deyu
- 779 Breakwaters on weak soils
Lundgren, H., Jacobsen, H. C. L.
- 794 Recent advances of research work on port pier structures in China
M. Gao
- 809 The application of coastal dynamic geomorphology to harbour-site choosing-an example of Qinhuangdao oil dock
Ma Zhongquan, Ke Xiankun
- 819 Planning and design of coal import ports
Macknight, A.
- 834 Effect of varying design parameters for caisson floating breakwaters
Mclaren, W. A., Chartrand, D. M.
- 849 Container terminal pavement management
Meletiou, M.
- 864 Optimizing terminal facilities
Memos, C.
- 879 Development of existing ports for container handling
Mettam, J. D., Mornement, P. C., Butcher, W. R. V.
- 894 Jiuzhou Harbour, Zhuhai special economic zone, People's Republic of China
Mornement, P. C., Pearce, R. W.
- 909 A simulator study on port design from a view point of ship maneuvering safety
Okuyama, Y., Hirano, M.

- 922 Management of maintenance dredging for small-scale channels in developing countries
Otsuki, Y.
- 937 Real-time simulations of ship motions – a tool for the design of a new pacific port
Ottosson, P., Apleberger, L.
- 955 Influence of ship motions on the optimum design of port layouts
Oumeraci, H., Burkhardt, O., Kohlhase, S.
- 970 Wave energy absorbing honeycomb structures
Papadakis, C. N., Wright, S. J.
- 985 Port development for Saint-Louis, Senegal
Pedersen, A. E., Barthel, V., Birt, C. S.
- 1000 Cost effective port and fairway design with manoeuvring simulators and man-ship models
Perdok, J.
- 1015 Development of pile-supported wharf structure in Shanghai Port
Pu Tingfen
- 1030 Reconstruction at port of Singapore authority's Keppel Wharves
Rajendra, A. S., Coomasamy, N. A., Law, K. H., Yew, C. H.
- 1042 Construction, maintenance and repair as elements in rubble mound breakwater design
Rietveld, C. F. W., Burcharth, H. F.
- 1054 Investigations into the merits of the Haro-breakwater armour unit
Rouck, J. D., Wens, F., Damme, L. V., Lemmers, J.
- 1069 On the vertical motion of ships at berth
Scheffer, H-J, Kohlhase, S.
- 1085 Storm surge forecasting facilities for an estuary (Elbe Estuary in Germany)
Siefert, W., Kej, A., Havnø, K., Hansen, F.
- 1093 The maintenance of harbour structures
Simmons, H. P.
- 1100 The application of a computational model for the optimisation of harbour layout
Smallman, J. V
- 1112 Designing ports to allow vessels to operate with minimum local assistance
Terstløy, O., Roll, E., Rodenhuis, G. S.

- 1127 Estimation of port operation rate by use of numerical simulation method of moored ship motions
Ueda, S., Shiraishi, S., Yoshimi, M.
- 1141 Design and construction of the ore transshipment terminal at Beilun Harbour in Zhejiang Province
Wang Minghua
- 1156 Economic optimization of the wet infrastructure of ports in developing countries with capacity simulation models
Winkelmanns, W., Groenveld, R.
- 1170 Design of Breakwaters in China
Xie Shileng
- 1181 A study of the behaviour and bearing capacity of piles with the spot footing
Yang Keji, Li Qixin, Wang Fuyuan
- 1193 Hydraulic performance of a Chinese type of seawall
Yu Kuangming, Juhl, J., Jensen, O. J.
- 1206 Numerical modelling of harbor wave disturbance in comparison with physical modelling and field measurements
Yu Kuangming, Rugbjerg, M., Kej, A.
- 1218 The finite element spatial static analysis of caisson lifting
Zhi Baoqiang, Tang Jing, Gai Limin, Yuan Mingwu, Xiong Shanji, Zheng Dong

Vol. II

Group C: Small Craft Harbours/Anchorages and Landingplaces/ Low cost harbour facilities

- 1235 Fish landing facilities Sultanate of Oman
De Ridder, H. A. J., Stive, R. J. H.
- 1250 Structures for fishing ports in developing countries
Mazurkiewicz, B. K.
- 1263 High tensile geotextiles for low cost harbour facilities
Porraz, Mauricio
- 1272 A re-development of a 4000 years old harbour city to a modern marina
Raviv, R.

- 1280 Low cost coast protection: the UK experience
Welsby, J., Motyka, J. M., Brampton, A. H.

Group D: Sedimentation and Dredging Problems

- 1297 A model for inshore-offshore total sediment transport
Abou-Seida, M.M.
- 1309 Sedimentation at Auckland in the Hugli Estuary
Biswas, A. N., Chatterjee, A. K.
- 1321 Physical scale models and siltation in estuaries
Caillat, J. M.
- 1332 New insights on mud formation and sedimentation processes in tidal harbours
Christiansen, H.
- 1341 Cost-effective reduction of sedimentation and maintenance dredging, using geotextile flow diversion screens
Den Hoedt, G., Metz, H. E., Veltman, M., Voskamp, W.
- 1351 The threshold movement of cohesive fine sediment (mud) due to wave action
Gu Jialong, Lu Xianglin
- 1362 Regulation of the estuary of the Yongjiang River
Jiang Juyao, Cao Zude
- 1371 Behaviour of sand trap in the heavy littoral zone along paradip coast line
John, M. M., Panda, A. P.
- 1388 Field and laboratory measurements of a fluid mud layer
Kendrick, M. P., Water, C.B.
- 1403 A multi-purpose dredger for small dredging jobs
Hageman, L. A. S., Smits, H. B.
- 1416 Determination of the silt concentration on shoal under the action of wind waves and tidal currents
Liu Jiaju
- 1422 Estimation method and mathematical model for predicting siltation in dredged estuarine channels
Luo Zhaosen, Lu Qimiao, Huang Sheng

- 1435 Maintenance dredging in tidal inlets, lock entrances and estuaries with alternative, low cost equipment
Meyvis, L., Stordiau, M., Marain, J.
- 1447 Effects of jetty construction on navigability of Cecina inlet (Italy): A model study
Ozhan, E., Liberatore, G., Ergin, A., Aminti, P., Berriolo, G.
- 1465 Investigation on the hydrodynamic behaviour of the cohesive sediment in Yangtze Estuary
Ren Rushu, Zeng Xiaochuan
- 1478 The review and prospect of siltation study on Tianjin port
Rukai Wang
- 1491 Sedimentation and dredging studies for access channel improvement at Port of Guayaquil, Ecuador
Sanchez-Cuadros, E.
- 1500 On-offshore sediment transport rate due to irregular waves
Shibayama, T., Yasushi, I.
- 1512 Mathematical model of the estuarine sediment flow in an intermittent river
Silva, R. C. V., De Souza, E. M. S. V., Mqreira, J. C.
- 1518 The effect of waves on cohesive bed surfaces
Van Rijn, L. C., Louisse, C. J.
- 1533 A successful planned change of course on the Estuary of the Yellow River
Wang Kaichen, Shen Shoubai
- 1547 Prediction of deposition for building Jiantiao Tidal Power Plant
Xu Weiyi, Yang Zhaoqing, Su Jilan, Chen Genxin
- 1560 Study of engineering works for sediment accumulation acceleration along silty coasts with tide in China
Xu Xinghuang, Sun Tingzhao, Huang Jingpeng
- 1574 Washing and silting of muddy beach due to discharging of dredged materials in Lianyungang and analysis of beach profile evolution
Yu Zhiying, Jin Liu, Zhang Yong
- 1585 Interaction between waves and mud bottom
Zhao Zidan, Dai Guihai, Yang Zhenyong

Group E: Coastal Field Surveys and Measuring Techniques

- 1597 Wave and current measurement in Sri Lanka
Chandrawansa, P. D.
- 1612 An ultra-sonic probe for hydrographic sounding in muddy channels
Granboulan, J., Chaumet Lagrange, M., Feral, A.
- 1628 Measurement and interpretation of sediment transport on Sable Island bank, Canada, using radio-isotope tracer methods
Hodgins, D. O.
- 1641 The collection and application of hydrographic data to the design of the Shajiao B Power Station and Boca Tigris Bridge on the Pearl River in Guangdong Province, China
Lacey, P., Osorio, D., Ridley-Thomas, W. N.
- 1656 Collection of data for the design of future extensions of Limassol Port
Meletiou, M.
- 1669 Wave measurement and evaluation techniques adopted at Daman on the west coast of India
Nayak, B. U., Chandramohan, P., Mandal, S.
- 1684 Free falling profilers for coastal measurements
Ribeiro, Carlos, E. P.
- 1689 Oceanographic data collection - South China Sea
Treloar, P. D., Lawson, N. V., Goold, D. G. R.
- Group F: Environmental Impacts of Coastal and Port Engineering Projects**
- 1697 Environmental impact of some coastal defence works
Carbognin, L., Marabini, F.
- 1709 Methodology and models used for environmental studies of coastal nuclear power plants
Darras, M., Manoha, B.
- 1724 Mathematical models for the study of the Mundau-Manguaba Lagoons in Alagoas-Brasil
Dias, W. S. Scisínio., Wollmann, D. M., Pires Luz, H. J.
- 1739 Design and test of the salt - prevention system at Haihe lock
Ding Xingrui, Zhou Huaxing
- 1745 Impacts of oil and gas activities on saltwater intrusion
Flora Chu Wang, Yuhwa Wang

- 1754 Environmental impact assessment of dredging a navigation channel in Kuwait waters
Ghobrial, Fikry H.
- 1768 Assessment of turbidity at Shuaiba offshore seawater intakes due to Dredging new pipeline trench
Jen-Men Lo.
- 1781 A strategy for the consideration of planning and environmental issues of port development — two case studies from New Zealand
Nixon, P. J., Clayton, S. M.
- 1794 Effect of large scale reclamation in marine environment
Phansalkar, A. G.
- 1807 Sea lock with a membrane to reduce salt water intrusion and save fresh water
Tang Yunfang, Gu Jianqiu, Liu Senpei
- 1813 Environmental impact assessment of ports in Thailand
Teetakaew, V.
- 1825 Transformation of sea coast under the human activity
Tsivtsivadze, N. Sh.
- Group G: Hydrodynamic Forces on Coastal Structures, Design Data Assessments, General Modelling Techniques**
- 1837 A hybrid model for the Senegal Estuary
Barthel, V., Crookshank, N. L.
- 1852 Design criteria for placed block revetments and granular filters
Bezuijen, A., Breteler, M. K., Bakker, K. J.
- 1867 The cross-shore motion over a barred beach profile
Buhr Hansen, J., Svendsen, Ib A.
- 1880 Development of tide and surge models of the Yellow Sea for coastal engineering application
Byung Ho Choi
- 1895 Estimate of extreme wave conditions at a coastal location
Cavaleri, L.
- 1903 Velocity field when wave and current co-exist
Chin-Sheng Chao, Yan Lu

- 1914 The calculation of wave pressure on chamfered vertical breakwater in terms of wave energy
Chung Sun Young, Ge Zhijin
- 1929 Wave effects upon boundary layer momentum and sediment transport
Eidsvik, K. J., Hagatun, K.
- 1935 Structural and seismic design of a pier for tuna ships in Buenaventura, Colombia
Eisenberg, Y. M.
- 1944 Applicability of the convection diffusion approach to computation of suspended sediment with waves and current
Galappatti, R.
- 1956 Experimental study for the wave forces on pile groups due to regular waves
Gao Mindao, Han Lihua, Sun Shaoshu
- 1966 Variation of wave spectrum parameters in shallow water
Gotschenberg, A., Daemrich, Karlfriedrich
- 1978 Wave force coefficients for submarine pipes derived from three Hawaiian ocean test systems
Grace, R. A., Andres, J. M.
- 1993 The sliding resistance of particular artificial reef modules subjected to strong wave forces
Grace, R. A.
- 2006 Prediction of directional wave spectra at coastal locations
Hodgins, D. O., Niwinski, C. T.
- 2021 Nonlinear interaction between wave in oblique advance and vertical wall
Hong Guangwen, Zhu Qing
- 2036 Calculation on typhoon storm surge pile-up by the power station sea-shore of Daya Bay, Guangdong Province
Huang Qizhou, Wang Wenzhi, Chen Junchang
- 2046 Analysis of some bimodal spectra and the reproduction of these spectra in the laboratory
Jayewardene, I. F. W.
- 2059 Microcomputer based numerical morphology model for a large initially conical sand island
Kamphuis, J. W., Johnson, H. K.
- 2074 Dynamic programming model for calculation of typhoon waves
Lou Hongen

- 2090 The wave force on an underwater horizontal cylinder
Qiu Dahong, Wang Xuegeng
- 2097 Simulation of the tidal flow in the Canton River Estuary
Rodrigues, D. A., Teles, M. J. S.
- 2112 Application of numerical model of current-depth wave refraction to actual coast
Sakai, T., Murai, K.
- 2124 The effect of bar elevation on wave transmission at a sandy coast
Scheffer, H-J, Kohlhase, S., Partenscky, H. W.
- 2135 Real wave-loads on small cylindrical bodies
Sparboom, U.
- 2150 Flow pattern analysis of the Jakarta Bay by means of mathematical modelling for a two dimensional nearly horizontal flow
Suryadi, F. X., Yahya, M.
- 2165 Mathematical modelling of tidal propagation in the Gulf of Kachchh .
Vaidyaraman, P. P., Ghosh, L. K., Gokhale, D. P.
- 2175 Studies on berthing energy and impact force
Wang Shiqin, Shen Gouguang, Li Dejun
- 2186 Statistical analysis and simulation of wave groups
Yang Zhengji, Zuo Qihua
- 2201 The transformation of wave spectrum in currents
Yu-Cheng Li, Feng-Long Wang, Bin Teng
- 2215 The numerical simulation of hydraulic factors of Guanhe Estuary
Zhang Dongsheng, Xie Jinzan, Zheng Xiaoping
- 2225 Author Index
