

*Proceedings of a Symposium on Agricultural Water Management
Arnhem / Netherlands / 18-21 June 1985*

AGRICULTURAL WATER MANAGEMENT

Edited by

A.L.M.VAN WIJK & J.WESSELING

Institute for Land and Water Management Research, Wageningen, Netherlands

*Sponsored by the Commission of the European Communities,
Directorate-General for Agriculture, Coordination of Agricultural Research,
as part of the Land and Water Use and Management Programme*

A.A.BALKEMA / ROTTERDAM / BOSTON / 1986

Table of contents

Preface	vii
Session 1. <i>Drainage and reclamation of soils with low permeability</i>	
Characterization of flow processes during drainage in some Dutch heavy clay soils <i>J. Bouma</i>	3
Factors influencing mole drainage channel stability <i>G. Spoor</i>	13
Effective disruption is a major factor in the drainage of impermeable soils <i>L. F. Galvin</i>	19
Discussion Session 1	31
Session 2. <i>Effects of drainage and/or irrigation on agriculture</i>	
Twenty years of drainage and irrigation research <i>S. Dautrebande</i>	39
Irrigation demand and utilization of irrigation water on sandy soils in Denmark <i>P. C. Thomsen</i>	49
Effect of irrigation on agriculture: Water availability and crop yield <i>M. E. Venezian Scarascia</i>	61
Discussion Session 2.1	73
Drainage of clay lands for grassland production: Problems, effects, benefits <i>A. C. Armstrong</i>	75
Effects of saturation on pasture production on a clay loam pseudogley soil <i>J. Mulqueen</i>	85
Discussion Session 2.2	95
Simulating effects of soil type and drainage on arable crop yield <i>A. L. M. van Wijk & R. A. Feddes</i>	97
Modelling the yield of winter wheat under limiting water conditions <i>A. Farshi, J. Feyen, C. Belmans & N. Kihupi</i>	113
Water balance and crop production <i>H. C. Aslyng</i>	129
Discussion Session 2.3	141

Session 3. <i>Installation and maintenance of drainage systems</i>	
Soil invasion into drain pipes <i>W.Dierickx</i>	151
Common lines in research on drainage envelopes in France and in the Netherlands <i>L.C.P.M.Stuyt & T.Cestre</i>	163
Use of hydrographs to survey subsurface drainage: Networks ageing and hydraulic operating <i>B.Lesaffre & R.Morel</i>	175
Design, installation and maintenance of drainage systems <i>H.Radermacher</i>	191
The effect of maintenance on the performance of tube drains <i>G.A.Ven</i>	203
Discussion Session 3	213
Session 4. <i>Regional and local water management systems</i>	
Models for the assessment of sedimentation in reservoirs as a tool for correct management and lifetime estimate in the project phase <i>P.Bazzoffi</i>	223
Hydrological and economical effects of manipulating water levels in open water conduits – A case study <i>P.J.T.van Bakel</i>	239
The flow rate of water at the level of a moving water table <i>A.Poulovassilis & S.Aggelides</i>	259
Discussion Session 4	275
Session 5. <i>Effects of agriculture on its environment</i>	
Leaching of ferrous iron after drainage of pyrite-rich soils and means of preventing pollution of streams <i>L.B.Christensen & S.E.Olesen</i>	279
Nitrogen balance in crop production and groundwater quality <i>H.C.Aslyng</i>	291
Nitrate load and water management of agricultural land <i>P.E.Rijtema</i>	303
Discussion Session 5	313
Conclusions, recommendations and future activities	317
List of participants	323
