

PROCEEDINGS OF THE INTERNATIONAL SYMPOSIUM ON PREDICTION AND
PERFORMANCE IN GEOTECHNICAL ENGINEERING / CALGARY / 17-19 JUNE 1987

Prediction and Performance in Geotechnical Engineering

Edited by

RAMESH C. JOSHI & FRED J. GRIFFITHS

University of Calgary, Alberta, Canada

*Sponsored by the Department of Civil Engineering and the Faculty of Continuing Education at the
University of Calgary, and the Canadian Geotechnical Society, Calgary Chapter*

A.A. BALKEMA / ROTTERDAM / BOSTON / 1987

Table of contents

Foreword	IX
<i>Keynote addresses</i>	
Non-destructive characterization of particulate systems for soil classification and in situ prediction of soil properties and soil performance <i>K.Arulanandan</i>	3
Geotechnical predictions in ice affected marine environments <i>J.I.Clark & I.J.Jordaan</i>	15
Some observations on the stability of structures founded on soft clays <i>J.H.A.Crooks</i>	27
Seismic response analysis: Prediction and performance <i>W.D.Liam Finn, M.Yogendrakumar & A.Nichols</i>	39
The prediction and performance of structures on expansive soils <i>D.G.Fredlund</i>	51
Fact and fiction in the field of vertical drainage <i>S.Hansbo</i>	61
Cold regions predictions using centrifuge testing <i>Andrew N.Schofield</i>	73
<i>Prediction and performance of pile foundations</i>	
Prediction of pile foundation response under static lateral loads and dynamic loading using the transfer matrix approach <i>D.J.Cook & V.Chandrasekaran</i>	79
Friction mobilization F-y curves for laterally loaded piles from the pressuremeter <i>Trevor D.Smith</i>	89
Behavior of two piles in clay subjected to cyclic lateral loads <i>James H.Long & Lymon C.Reese</i>	97
Prediction of drilled shaft displacements under repeated axial loads <i>John P.Turner & Fred H.Kulhawy</i>	105

Supporting a rock layer during construction <i>T.J.Kaderabek, D.Barreiro & M.Call</i>	113
Effect of pile driving on group efficiency <i>R.Janardhanam</i>	119
Design and performance of large diameter cast in place pile groups subjected to lateral loads <i>S.McKeown & J.I.Clark</i>	127
Prediction of ultimate pile capacity from load tests on bored and belled, expanded base compacted and driven piles <i>R.C.Joshi & H.D.Sharma</i>	135
 <i>Soil improvement</i>	
Prediction of bond between soil and reinforcement <i>G.W.E.Milligan & E.P.Palmeira</i>	147
Inextensible geomesh included in sand and clay <i>R.R.Al-Omari, H.H.Al-Dobaissi & B.A.Al-Wadood</i>	155
Finite element study of pilot test at Changi Airport <i>S.A.Tan, G.P.Karunaratne, S.L.Lee & V.Choa</i>	161
Embankment for interchange constructed on soft ground applying new methods of soil improvement <i>Masami Fukuoka & Masaaki Goto</i>	169
Stabilization of clayey soils with lime, cement and chemical additives mixing <i>S.Chandra</i>	177
Ground improvement by vibro dynamic compaction techniques <i>M.M.Rahimi & P.M.Bayetto</i>	183
 <i>General prediction and performance of soils</i>	
Influence of coarse particles on compressibility of soils <i>B.R.Srinivasa Murthy, T.S.Nagaraj & Bindumadhava</i>	195
Dynamic reactions of composite soil medium <i>H.T.Chen & M.L.Liu</i>	201
Predicting the hydraulic conductivity of compacted clays <i>Kingsley Harrop-Williams</i>	207
Downslope movements at shallow depths related to cyclic pore pressure changes <i>J.P.Burak & K.D.Eigenbrod</i>	211
Predicting performance of granular pavements <i>R.B.Smith & W.D.Yandell</i>	219

Evaluation of dilatancy theories of granular materials <i>A.M.Hanna & H.Youssef</i>	227
Influence of groundwater table fluctuation on performance of bases and subgrades <i>Sabry A.Shihata, Zaki A.Baghdadi & Ahmed M.Khan</i>	237
<i>Prediction and performance of unique soils</i>	
Roadway embankment construction through a muskeg area <i>Murthy Pariti</i>	247
Compressibility and cementation characteristics of some calcareous sea-floor oozes <i>Jack Kao & J.R.Bell</i>	251
Prediction of swell of black cotton soils in Nairobi <i>F.J.Gichaga, B.K.Sahu & T.G.Visweswaraiya</i>	259
An experimental investigation of transient pore pressure behaviour in soils due to gas exsolution <i>J.C.Sobkowicz & N.R.Morgenstern</i>	267
Settlement prediction, monitoring and analysis for tower silos in the St.Lawrence Lowlands <i>R.Gervais & J.P.Morin</i>	277
Embankment on soft fissured clay <i>Robert Alperstein & Larry Holish</i>	285
<i>Prediction and performance of retaining structure behaviour</i>	
Construction and performance of a permanent earth anchor (tieback) system for the Stanford Linear Collider <i>Mark N.Obergfell</i>	295
Performance of twin-tee test wall for Interstate Highway 70 near Glenwood Canyon, Colorado <i>Tzong H.Wu & Nelson N.S.Chou</i>	303
Prediction of time-dependent movement of tiebacks in cohesive soils <i>R.Y.K.Liang</i>	311
<i>Prediction and performance of tunnels</i>	
Use of stress change measurements to assess performance of underground excavations <i>D.R.Korpach & P.K.Kaiser</i>	319
Prediction of ground movements above shallow tunnels <i>R.C.K.Wong & P.K.Kaiser</i>	329
<i>Environmental geotechnology</i>	
Effect of caustic soda contamination on volume change characteristics of bentonite <i>A.Sridharan, Sudhakar M.Rao & V.S.Gajarajan</i>	347

Treatment of high water-content sludge using powdery wastes <i>Motoharu Tamai</i>	355
The concept of the master profile for tailings dam beaches <i>G.E.Blight</i>	361
 <i>Triaxial testing of soils</i>	
Prediction of plane-strain angles of shear resistance from triaxial test results <i>A.M.Hanna, N.Massoud & H.Youssef</i>	369
Multiaxial testing of compacted shales <i>S.M.Sargand, G.A.Hazen & K.M.Miller</i>	377
 <i>Centrifuge model testing</i>	
Crown pillar subsidence prediction from centrifuge models <i>L.Wizniak & R.J.Mitchell</i>	387
Centrifuge modeling of bearing capacity of sand under concentric and eccentric loading <i>Abbas Abghari, Bruce L.Kutter & J.A.Cheney</i>	397
Centrifugal test on pullout resistance of buried anchor in sand <i>K.Tagaya, R.F.Scott & H.Aboshi</i>	407
Seismic response of pile foundations in a centrifuge <i>W.B.Gohl & W.D.Liam Finn</i>	419
 <i>Risk analysis in geotechnical engineering</i>	
Spatial variation estimation of soil properties in one dimension for regularly spaced data <i>P.H.S.W.Kulatilake & R.K.Southworth</i>	429
Risk updating for rainfall-triggered spoil failures <i>R.N.Chowdhury & V.U.Nguyen</i>	439
Probabilistic analysis of shallow foundation settlements <i>M.A.Usmen, C.Wang & S.C.Cheng</i>	445
