Proceedings of a workshop held at
Jerusalem, Israel, March–April 1987.
The workshop was organized jointly by
the International Commission on
Continental Erosion of the
International Association of
Hydrological Sciences (IAHS) and the
Commission on Measurement, Theory
and Application in Geomorphology
(COMTAG) of the International
Geographical Union (IGU)

IAHS Publication No. 189

Contents

Preface by <i>Asher P. Schick & Des Walling</i>	v
Field experiments on the resistance to overland flow of desert hillslopes by <i>Athol D. Abrahams, Anthony J. Parsons & Shiu-Hung Luk</i>	1
The sedimentary data base: an appraisal of lake and reservoir sediment based studies of sediment yield by <i>Ian D. L. Foster, John A. Dearing, Robert Grew & Karl Orend</i>	19
Empirical relationships for the transport capacity of overland flow by <i>Gerard Govers</i>	45
Evolution of an anthropogenic desert gully system by <i>Martin J. Haigh</i>	65
The relationship between sediment delivery ratio and stream order: a Romanian case study by <i>Ionitã Ichim</i>	79
A simulation model for desert runoff and erosion by <i>Mike Kirkby</i>	87
Spatial variability of overland flow in a small arid basin by <i>Hanoch Lavee & Aaron Yair</i>	105
Towards a dynamic model of gully growth by <i>Anne C. Kemp</i>	121
The dynamics of gully head recession in a savanna environment by <i>Emmanuel Ajayi Olofin</i>	135
Conditions for the evacuation of rock fragments from cultivated upland areas during rainstorms by <i>J. W. A. Poesen</i>	145
Seasonal variations of runoff rates from field plots in the Federal Republic of Germany and in Hungary during dry years by <i>G. Richter & A. Kertész</i>	161
New developments in measuring bed load by the magnetic tracer technique by <i>Raymund Spieker & Peter Ergenzinger</i>	169
Some applications of caesium-137 in the study of erosion, transport and deposition by <i>D. E. Walling & S. B. Bradley</i>	179
