

PROCEEDINGS OF THE FIFTH INTERNATIONAL SYMPOSIUM ON  
GROUND FREEZING / NOTTINGHAM / 26-28 JULY 1988

# Ground Freezing 88

Edited by

R.H.JONES & J.T.HOLDEN

University of Nottingham, UK

VOLUME TWO

A.A.BALKEMA / ROTTERDAM / BROOKFIELD / 1989

## Contents

Preface	IX
Acknowledgements	XI
Opening address <i>H.L.Jessberger</i>	407
<b>1. Heat and mass transfer</b>	
General report on frost action in soil <i>Eero Slunga &amp; Seppo Saarelainen</i>	415
Mathematical model for predicting the stress-strain behaviour and heat-mass transfer of freezing soils <i>V.N.Razbegin</i>	419
Discussion on heat and mass transfer	425
<b>2. Mechanical properties</b>	
General report on mechanical properties of frozen soil <i>O.B.Andersland</i>	433
State of the art: Mechanical properties of frozen soil <i>A.V.Sadovsky, R.V.Maksimyak &amp; V.N.Razbegin</i>	443
Frozen soil deformation and failure under different loading <i>S.S.Vyalov, M.E.Slepek, R.V.Maksimyak &amp; A.A.Chapayev</i>	465
Discussion on mechanical properties	473
<b>3. Engineering design</b>	
General report on engineering design <i>F.Gallavresi</i>	477
A case study on freezing pressure in a deep shaft <i>Chou Wanxi</i>	481

Design problems of shaft lining and freezing wall in deep shaft sinking by the freezing process <i>Chou Wanxi</i>	487
Radial adfreezing of permafrost in the basement of buildings <i>G.N.Maksimov &amp; V.Ye.Konash</i>	491
The artificial freezing-on of engineering ice-soil structures <i>B.A.Savelyev, V.E.Gagarin &amp; V.V.Razumov</i>	497
Discussion on engineering design	505
 <i>4. Case histories</i>	
General report on case histories <i>F.Gallavresi</i>	509
The application of AGF to the construction of the ventilation drifts at Selby Wistow Mine <i>F.A.Auld</i>	513
Recent applications of soil freezing techniques in Spanish construction works <i>J.L.Rojo &amp; A.Novillo</i>	525
Temperature monitoring of frozen ground during construction of Gascoigne Wood drifts, Selby Mine <i>A.J.Wills &amp; G.P.Daw</i>	533
Discussion on case histories	541
 <i>Summaries of poster presentations</i>	
Cylindrical Stefan problem sensitiveness to thermal and geometrical parameters <i>A.M.Cames-Pintaux &amp; J.Aguirre-Puente</i>	547
Acoustic measurements on soaked soils during thaw and unfrozen water content determination <i>M.H.Deschâtres, F.Cohen-Tenoudji &amp; J.Aguirre-Puente</i>	551
Ground freezing around chilled gas pipelines <i>D.P.Greene &amp; R.J.Kettle</i>	555
The time dependent response of frozen soils subject to triaxial stress <i>C.N.Hampton, R.H.Jones &amp; J.S.Harris</i>	559
A short tunnel in Seattle frozen using liquid nitrogen cascade lances <i>Derek Maishman</i>	561
Application of ground freezing at Rogers Pass, Canada <i>I.M.Macfarlane, G.P.Daw, J. Belton &amp; S.J.Harvey</i>	563
Experimental studies on reducing methods of uplift force to a steel pipe <i>Sigeru Nakagawa &amp; Masami Fukuda</i>	565
Ice segregation on a microporous filter <i>H.Ozawa &amp; S.Kinosita</i>	567

A mathematical model of frost heave in granular materials <i>D.Piper, J.T.Holden &amp; R.H.Jones</i>	569
A modern method of frozen rock mass control in the Underground Construction Enterprise KGHM in Lubin <i>Irena Pleśniak &amp; Stanisław Szczepaniak</i>	571
Influence of freeze-thaw cycles on clay structures <i>R.Schababerle, J.F.Wagner &amp; K.A.Czurda</i>	573
Behaviour of two kinds of ground freezing: Laboratory tests and case histories <i>J.Fr.Thimus &amp; P.Gonze</i>	577
Ice sandwich experiments and the thermodynamic-rheological model of frost heave <i>P.J.Williams &amp; S.L.Smith</i>	579
 <i>Postscript</i>	
Invitation from People's Republic of China to ISGF '91 <i>Yu Xiang</i>	583
Participants and accompanying persons	585
Membership of sub-committees	587
Errata	589
Author index	591
Keyword index	593
