

# Soil Technicians' Handbook

**K H Head**, *MA(Cantab), CEng, FICE, FGS*

**PENTECH PRESS**  
Publishers · London  
Halsted Press: a division of

**JOHN WILEY & SONS**  
New York · Toronto

# Contents

1	Description of Soils	1
2	Test Samples	8
3	Moisture Content	12
4	Plasticity Tests	14
5	Shrinkage and Swell	21
6	Density and Limiting Densities	24
7	Specific Gravity (Particle Density) and Void Ratio	28
8	Particle Size	33
9	Chemical Tests	48
10	Compaction	61
11	California Bearing Ratio	70
12	Permeability	74
13	Vane Shear	80
14	Direct Shear	82
15	Uniaxial Compression	87
16	Triaxial Compression (Total Stresses)	91
17	Oedometer Consolidation	95
18	Triaxial Compression Tests (Effective Stress)	107
19	Stress Paths	119
20	Triaxial (Isotropic) Consolidation	122
21	Triaxial Permeability	126
22	Hydraulic Cell Consolidation	130
23	Permeability in Hydraulic Consolidation Cell	137
24	General Practice	140
25	Care of Samples	141
26	Calibration	142
27	Laboratory Safety	145
28	Practical Data	146
29	Units and Symbols	148
30	Useful Constants and Data	155
	References	158
