

PROCEEDINGS OF THE INTERNATIONAL CONGRESS ON TUNNELS AND WATER
MADRID / 12-15 JUNE 1988

TUNNELS AND WATER

*Water and its influence on the design,
construction, and exploitation of
tunnels and underground works*

Edited by

J.MANUEL SERRANO

Spanish Tunnelling Association (AETOS)

VOLUME ONE

Reports of main speakers

1 Water in design

2 Water in construction

A.A.BALKEMA / ROTTERDAM / BROOKFIELD / 1988

Contents

Foreword	xii
<i>Reports of main speakers</i>	
Introducing the discussion on water and tunnels – Design <i>José A.Jiménez Salas</i>	3
El túnel de Gibraltar <i>J.M.Serrano</i>	7
Submerged tunnels for a fixed link across the Strait of Messina, Italy <i>B.Pigorini</i>	13
L'eau dans l'exploitation: Les tunnels ferroviaires <i>Jean Eraud</i>	33
L'eau dans l'exploitation: D'autres tunnels <i>V.Roisin</i>	41
1 Water in design	
On the behavior of groundwater around a tunnel during excavation in unconsolidated sandstone <i>Yoshio Akama, Takaomi Kitamura & Hiromi Kojo</i>	49
Perforación con escudo en terreno suelto bajo presión elevada de agua <i>Siegmund Babendererde</i>	57
Tunnels excavation, by enlarging exploratory boring-machine made tunnels, interested by large amount of water inflow: Technical and contractual considerations <i>R.Casale, C.Comin & C.R.Focacci</i>	63
Análisis del impacto de la construcción de un túnel bajo el nivel freático <i>Juan Ramón de Clascá Marin, Devraj Sharma, Joaquín Martí Rodríguez & Javier Ruiz Gandullo</i>	69
El fenómeno de la inestabilidad del frente de excavación y su repercusión en la construcción de túneles <i>L.Cornejo</i>	79

Influence de la pression d'écoulement de l'eau sur le chargement des constructions souterraines <i>J.Dudek & S.Galczynski</i>	89
Properties of peat as a water-bearing and collapsible soil <i>M.El-Shabrawy, M.M.Bahloul & A.H.Abdel Reheem</i>	95
Corrosion resistance of concrete specimens subjected to sulphate solution <i>M.El-Shabrawy, A.H.Abdel-Raheem, F.Al-Hakeem & M.A.E.Emam</i>	101
Comportamiento a mediano plazo del Nuevo Método Austriaco NATM en rocas volcánicas blandas <i>R.Esquível B.</i>	111
Diseño de dovelas para túneles del metro alojadas en arcillas compresibles de la Ciudad de México <i>Enrique Farjeat & Servando Delgado</i>	117
Tunnelling under compressed air in granular soils – Research, design and site experience <i>M.Fuchsberger, B.Strobl, N.Ayaydin & R.Heinrich</i>	137
Túnel de Campinas: Evolución del diseño y problemas de operación <i>J.L.Camargo Guazzelli & P.Lunardi</i>	145
Basic methods and latest development of sealing techniques in tunnelling in Germany <i>A.Haack</i>	155
Determinación de las variaciones de deformación y esfuerzos sobre revestimientos de excavaciones subterráneas por mediciones muy sencillas <i>M.A.Hacar Benítez</i>	161
Comportamiento durante su construcción de una lumbreña flotada, en la Ciudad de México <i>F.Z.Hernández, M.C.Orozco, C.F.Sáenz & M.C.Martínez</i>	169
L'influence de l'eau sur la stabilité d'un tunnel profond <i>P.J.Huergo & A.Nakhle</i>	177
Peculiarities of expansive mudstone <i>Tsutomu Inaba, Atsuo Hirata & Kouzou Satou</i>	185
Empirical approach to prediction of groundwater in tunneling <i>Liang Jinhua & Sun Guangzhong</i>	193
Computer aided consulting system for prediction of geological hazards caused by groundwater in tunneling <i>Liang Jinhua & Sun Guangzhong</i>	199
Los túneles y el agua desde una perspectiva estética <i>J.A.Juncá Ubierna</i>	207
Application of fuzzy mathematics in forecasting the quantity of gush water in tunnels <i>Mo Junzheng</i>	211
Results of various tests performed for the purpose of selecting groundwater treating method at the time of tunneling <i>Tadashi Kikuchi, Masamichi Takizawa, Masayasu Maeda & Akio Takase</i>	217

La ejecución de túneles de servicio en terrenos acuíferos <i>W.F.Maes & J.Walliser</i>	225
Development of extruded concrete lining engineering method for shield tunnels that use prestress and H-steel rings <i>Yoshiji Matsumoto, Masatoshi Matsumoto & Kazuo Kurihara</i>	231
Inestabilidad provocada por la presencia de agua en los túneles inclinados del proyecto Mina II de Micare <i>Alberto S.Menache V.</i>	239
The design of an underground station in the deep site with abundant groundwater <i>Fusao Miyagawa, Masahiro Imamura & Takeshi Suga</i>	245
Structure and construction technology of a single-shell tunnel lining of precast reinforced concrete elements, sealed against groundwater pressure <i>M.Müller & J.Balogh</i>	253
Geotechnical performance of diaphragm walls during construction of Cairo metro tunnel <i>F.El-Nahhas, Z.Eisenstein, A.Shalaby, M.Salam & S.El-Bedaiwy</i>	259
Design models adopted in Chinese tunnelling practice <i>C.S.Pan</i>	267
Design and construction of closely spaced tunnels for the Edmonton subway <i>D.J.Phelps, J.R.Brandt & Z.Eisenstein</i>	273
La conception de l'étanchement des ouvrages souterrains <i>J.L.Reith</i>	283
Impermeabilización de túneles <i>J.L.Rivas</i>	291
Caracterización petrofísica de rocas arcillosas expansivas <i>V.G.Ruiz de Argandoña, M.Montoto, A.Rodríguez-Rey & L.Calleja</i>	299
Calificación del diaclasado en la traza de los túneles hidráulicos del proyecto Santa Elena <i>José María Sánchez Lastra, Daniel Fernández Rabanillo, José Sánchez Cabañero, Enrique Montesinos & Miguel Fernández-Bollo</i>	307
Protección y drenaje en túneles con geotextiles <i>C.Scheu</i>	313
Sealing tunnels constructed in single shell shotcrete <i>Jörg Schreyer</i>	317
Drenaje, impermeabilización y aprovechamiento hidroeléctrico en el túnel del Cadí <i>A.Serratosa</i>	321
Túneles prefabricados: Técnicas de clavar tubos y de deslizamiento de quadros de hormigón <i>J.C.Silva Pereira</i>	325
The Grauholz high-speed railway tunnel in difficult ground <i>Walter Steiner</i>	333
Avoidance of unfavourable influence on ground-water by long extended tunnels <i>Karl R.Ulrichs</i>	341

Saturated ground movement due to shield tunnelling <i>Hou Xueyuan & Zhou Zhixing</i>	351
Analysis on the stability of support system of the Chongqing August-1 tunnel in the accumulated part of debris <i>Zhao Yanming & Zhuo Guohua</i>	357
The comprehensive assessment of tunnel-surrounding rockmass category by means of multi-variate membership function <i>Hu Yudao</i>	363
Waterproofing technology of the Han dynasty tomb No. 1 in Mawangdui <i>Wang Zuoyuan & Tong Linxu</i>	371
2 Water in construction	
Contractual aspects of water problems in tunnelling <i>Gunnar Aas</i>	381
I Las obras de ampliación del metro de Amberes	385
II Metro bruselas: Construcción de un túnel para el metro bajo el canal Charleroi-Willebroek <i>L.Aerts</i>	
Waterproofing of tunnels by the use of shotcrete <i>Unni Astad & Per Heimli</i>	393
Problems caused by the water table in lot 2B of line 3 of the Milan subway <i>A.Colombo, E.Arini, F.Gervaso, A.Balossi Restelli & E.Mongilardi</i>	399
Pipe jacking – State-of-the-art and tendencies of research and development work <i>Eckhard U.Conrad</i>	409
Polyurethane grouts for water stop in tunnels and tunnelling <i>Wolfgang Cornely</i>	413
Tratamiento de congelación en la construcción del telescopio del metro de Sevilla <i>M.Santa Cruz Hernández, J.L.Rojo & A.Novillo</i>	419
Jacking large pipes under difficult geological and hydrological conditions <i>Walter Dietz</i>	425
Tunnel excavation in water bearing ground and in an area of limestone caves <i>F.Fujita, M.Hori & T.Inoue</i>	433
Características de la ejecución de túnel bajo aquíferos suspensos <i>A.Rodrigues Gameiro</i>	441
Diesel exhaust gases and blasting fumes: Study of ways to improve breathing air at tunnel construction sites <i>Diethelm Gönner & Joerg Schreyer</i>	447
Watertightness of the tunnel lining – Experiences from the construction of the Prague underground <i>J.Grán</i>	455

Watersealing in tunneling by silicate resin wilkit <i>Peter Hahn & Harald Brühl</i>	465
Underground stormwater reservoir constructed by Ø 11.22 m slurry shields <i>Katashi Hashimoto, Takao Kato, Yoshimasa Watanabe, Makoto Matsuda, Yoshihiko Tamiya, Yoshiro Fujihara, Tadao Yoshikawa & Masahiro Shima</i>	473
Extruded reinforced concrete lining method with superior watertightness <i>Yoshiharu Kiritani</i>	481
Waterjet cutting in roadheading technology <i>Wilhelm Knickmeyer</i>	489
Tunnelling and subway construction in difficult hydrogeological conditions <i>V.Z.Kogan</i>	495
Problèmes rencontrés lors du percement du tunnel du LEP <i>Henri Laporte</i>	501
Multi-circular face shield driving tunnel <i>Yoshiji Matsumoto, Soukichi Uchida, Yukinori Koyama & Tokio Arai</i>	511
Construction of an in-ground vertical shaft under soft ground <i>Hisao Matsuoka & Masanobu Kuroiwa</i>	519
Water inflow phenomena during construction of railway tunnels on the Ramdane-Djamel – Jijel line in Algeria <i>J.H.Matuszyk & J.S.Szczepaniak</i>	525
La excavación de lumbreras y túneles en las arcillas blandas de la Ciudad de México <i>Andrés Moreno</i>	529
Projet et exécution d'un tunnel artificiel en zone urbaine sous nappe phréatique (Rome, Italie) <i>Alfredo Nardocci & Giuseppe Botto</i>	541
Adoption of a pneumatic caisson with automated excavation and control systems in the highly urbanized area <i>A.Narihiro</i>	549
El control de las aguas en la caverna y túneles del salto de bombeo de La Muela, Valencia, España <i>Nicolás Navalón & Juan Manuel López Marinas</i>	557
Failure in a tunnel excavated under an old riverbed in Madrid <i>C.S.Oteo, R.Carrilero & A.Pastor</i>	565
Injection et drainage pour le creusement du métro de Lyon <i>G.Picod, C.Chapeau & P.Hamaker</i>	573
Tunnel boring machines for high water inflows <i>Richard J.Robbins</i>	581
Countermeasures for safety construction of a tunnel originating combustible gas <i>Kunitaka Sagawa, Nobuo Ito & Seiichiro Murano</i>	589
Influence of water inflow for tunnelling and countermeasures <i>Takashi Saotome</i>	597

Driving and lining the Rauheberg tunnel <i>Friedrich Schrewe & Wolfhard Leichnitz</i>	605
Congélation pour creusement d'un tunnel piétons à la station Bellecour, métro de Lyon <i>G.Talichet</i>	613
Underground jointing of large diameter shield using ground freezing method <i>Teruo Tomizawa & Shuzo Kato</i>	619
Advanced microtunneling technology to execute long distance and curved line drives <i>Toshio Yamada & Yoshihiko Nojiri</i>	627
Hydrogeological formation and construction treatment of Da-Bashan tunnel <i>Zhang Zhidao</i>	635
Undersea mechanical docking of the same diameter shield machines <i>Namio Zibiki & Naohisa Hoshino</i>	641
