

Geotextiles, Geomembranes and Related Products

Editor

G. DEN HOEDT

AKZO Industrial Systems bv, Arnhem

VOLUME 1

*Steep slopes and walls / Embankments on soft soil / Roads and railroads /
Filtration and drainage / Erosion control*

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1990

Table of contents

1. Steep slopes and walls

Full-scale test on a geotextile reinforced retaining structure <i>B.R.Thamm, B.Krieger & J.Krieger</i>	3
Upstream dam construction: An instrumented test fill evaluation <i>Stephan M.Gale</i>	9
Reinforced slopes: Field behaviour and prediction <i>F.Haji Ali & H.E.Tee</i>	17
Reinforcement with continuous thread: Technical developments and design methods <i>M.Khay, J.P.Gigan & M.Ledelliou</i>	21
Stability of retaining wall reinforced by continuous fibers during earthquakes <i>Masami Fukuoka, Shigeru Tani, Tsuneo Yamashita, Shun-ichi Ihara, Hideo Ishizaki & Yoichi Takano</i>	27
Time dependent behaviour of geotextile reinforced clay walls <i>K.Fabian</i>	33
Lime stabilized cohesive soil as a fill for geotextile reinforced retaining structures <i>E.Güler</i>	39
Steep reinforced embankment using geogrid – Laboratory pull-out test of geogrid and its finite element analysis <i>Toshiaki Katagiri, Hiromi Haneda, Mamoru Moriyama, Tanehide Tsuruoka, Sumio Toriumi, Kyoza Takaoka & Tetsuo Yahaba</i>	45
Instrumented field performance of a 6 m geogrid soil wall <i>M.R.Simac, B.R.Christopher & C.Bonczkiewicz</i>	53
Validation of the 'displacements method' on an experimental reinforced wall at failure <i>A.Yoshioka, Ph.Delmas, J.P.Gourc & Ph.Gotteland</i>	61
Performance of a geogrid in a cohesive soil test embankment <i>D.C.Sego, J.D.Scott, E.A.Richards & Y.(Bill) Liu</i>	67
Experimental study on prototype polymer grid reinforced retaining wall <i>K.Kutara, H.Miki, K.Kudoh, K.Nakamura, T.Minami, K.Iwasaki, J.Nishimura, N.Fukuda & M.Taki</i>	73
Geotextiles for the support of steep slopes: Approval procedure <i>H.Schardin-Liedtke</i>	79
Reinforced soil retaining structures, Norwegian experiences <i>Å.F.Knutson</i>	87
Soil-reinforcing mechanisms of nonwoven geotextiles <i>S.Resl</i>	93
The monitoring of non-woven geotextiles by strain gages <i>S.H.Lee, E.Ruei & S.Tonus</i>	97
Load test on a retaining wall reinforced with geosynthetics <i>Giulio Dondi</i>	101
Alleviating bridge approach settlement with geosynthetic reinforcement <i>Jonathan T.H.Wu & H.Bassam Helwany</i>	107

An analytical approach to compute design loads of reinforced earth embankments <i>V.R.Mallimadugula & M.B.Rao</i>	113
Inclusion of reinforcement forces in stability analysis <i>J.R.Greenwood</i>	114
Design of granular materials reinforced by continuous thread or chain <i>N.T.Long & C.Stéfani</i>	115
Soil reinforced with continuous filaments <i>R.B.Weerasinghe & A.F.L.Hyde</i>	116
Design and construction of a steep geogrid reinforced embankment: A case history <i>Robert L.Goehring</i>	117
Stability evaluation of reinforced embankment with consideration for deformation <i>H.Abe & Y.Kitamoto</i>	118
Grid-reinforced retaining wall model tests <i>Richard J.Bathurst & Peter M.Jarrett</i>	119
Reinforced earth retaining wall in cohesive soil <i>R.C.Sonpal & G.Desai</i>	120
Seismic behavior of the reinforced embankment by geotextiles <i>Akira Nakanishi & Masahiko Sakaguchi</i>	121
Steep slopes reinforced with a planar geotextile having a rigid facing <i>O.Murata, M.Tateyama & F.Tatsuoka</i>	122
Loading tests and long term observation of geotextile reinforced retaining wall <i>I.Yamaoka, T.Nishigata, K.Yasuda & K.Mondori</i>	123
Design and construction of a reinforced earth embankment for protection against rock falls <i>A.Morino & P.Grasso</i>	124
Geotextile ammunition walls <i>Phil Phillips</i>	125
Securing of loose rock slopes by means of geotextiles <i>Claus Göbel, Gerhard Hoy & Peter Böttcher</i>	126
2. Embankments on soft soil	
Implications of adopting an allowable geosynthetic strain in estimating stability <i>R.K.Rowe & B.L.J.Mylleville</i>	131
Parametric studies of the behaviour of a reinforced embankment <i>C.C.Hird & C.M.Kwok</i>	137
Subaqueous use of high-strength geotextiles <i>S.A.Fritzinger</i>	143
Fabric reinforced containment dike, New Bedford superfund site <i>P.Schimelfenyg, J.Fowler & D.Leshchinsky</i>	149
Geotextile reinforced piled embankments <i>C.J.F.P.Jones, C.R.Lawson & D.J.Ayres</i>	155
An analytical approach to the design of soil geosynthetic systems <i>J.N.Mandal & R.K.Dixit</i>	161
Bearing capacity of subsoil with a layer of reinforced earth <i>A.Florkiewicz</i>	162
Settlement of geosynthetic reinforced ground <i>Madhira R.Madhav & Chandan Ghose</i>	163
Reinforcement of a sub-marine clay <i>S.S.Iengar</i>	164
Planning and the design method for earth spreading using geotextile on the very soft ground <i>Yohei Higuchi & Yoshiharu Watari</i>	165

Design of road embankments over mineral workings using geotextile membranes <i>Donald S.Cook</i>	166
Road embankment in the proximity of a huge landslide originating on the edge (west side) of ENEL's open-pit xyloid lignite mine, located in Castelnuovo Sabbioni, Arezzo, Italy <i>D.Distefano & G.Bordoni</i>	167
Geotextile use in major marine reclamation project Fremantle WA <i>D.Margaretic</i>	168
 3. Roads and railroads	
Design of reinforced unpaved roads for small rut depths <i>Guy T.Houlsby & Richard A.Jewell</i>	171
Design of geotextile reinforced paved roads and parking areas <i>J.B.Sellmeijer</i>	177
Dynamic loading of geotextile/soil-systems <i>R.Floss, H.Laier & G.Bräu</i>	183
Clogging of geotextiles under pumping loads <i>J.Lafleur, J.Mlynarek & A.L.Rollin</i>	189
Abrasion of geotextiles in railway track applications <i>M.R.Hausmann, S.E.Pitsis & G.J.Ring</i>	193
Test results on exhumed railway track geotextiles <i>Gerald P.Raymond & Richard J.Bathurst</i>	197
Geotextile-reinforced surface dressings <i>G.Morel, H.Perrier, M.Requirand & J.Perfetti</i>	203
Geotextile reinforced sprayed seal roads in rural Australia <i>M.Sutherland & P.Phillips</i>	209
Paving grade fabrics in spray seals <i>M.A.Sadlier, I.Gibb & P.Finlay</i>	213
Finite element studies of the mechanics of reinforced unpaved roads <i>H.J.Burd & C.J.Brocklehurst</i>	217
Reinforced soil working platform for offshore jacket fabrication yard <i>K.Y.Yong, S.F.Chan & K.K.Lee</i>	223
Test on trafficability of a low embankment on soft ground reinforced with geotextiles <i>I.Hirano, A.Itoh, M.Itoh, S.Kawahara, M.Shirasawa & H.Shimizu</i>	227
Filtering action of non-woven geotextiles under dynamic loading <i>J.McMorrow</i>	233
Bending and tensile reinforcement of unbound roads <i>A.McGown, K.Z.Andrawes, G.Werner & Z.Yusuf</i>	239
Geotextiles in road construction: Summary of an OECD report <i>R.T.Murray & A.McGown</i>	247
Use of the FEM for the single reinforced two-layer system <i>R.Floss & G.Gold</i>	248
Bearing capacity of unpaved road reinforced by geotextile <i>T.Nishigata & I.Yamaoka</i>	249
Reinforced haul-roads: Trials at Bothkennar, Scotland <i>A.R.Dawson & P.H.Little</i>	250
Behavior of geotextile-reinforced soil under cyclic loading <i>Philippe L.Bourdeau, Kevin K.Miskin & John M.Fuller</i>	251
Long-term behaviour of geotextile systems in railway track formation <i>J.Hillig & K.Lieberenz</i>	252

Separation function of geotextiles laid on a soft clay <i>Y.H.Faure & A.El Amir</i>	253
Increase in the bearing capacity of ground with geotextile wall frame <i>M.Shimizu & T.Inui</i>	254
Sand confinement by geotextiles in road construction <i>M.Khay & H.Perrier</i>	255
Embankment on soft or unstable soils: Use of thermoplastic alveolar structure <i>H.Perrier, M.Khay, M.Vigier & M.Filippi</i>	256
4. Filtration and drainage	
Field study on long term geotextile filter performance <i>J.Mlynarek, J.Lafleur & J.B.Lewandowski</i>	259
A contribution to the modelisation of porometry of fibrous structures <i>M.Calonnier, B.Laget & M.Sotton</i>	263
A new approach to geotextile selection <i>K.R.Legge</i>	269
Laboratory measurement of geotextile filtration characteristics <i>N.D.Williams & S.M.Luettich</i>	273
Long term filtration behavior of nonwoven geotextiles <i>S.Qureshi, R.M.Kogler & S.K.Bhatia</i>	279
Research into the functional hydraulic properties of geotextiles <i>W.Dierickx & L.van der Sluys</i>	285
Filter criteria based on pore size distribution <i>G.R.Fischer, B.R.Christopher & R.D.Holtz</i>	289
Filtration opening size of geotextile: The parameters influencing the pore size determination <i>A.L.Rollin, J.Mlynarek & A.Vidovic</i>	295
Geotextile filter performance with fine grained soils <i>C.R.Lawson</i>	301
Investigation of geotextiles as filter in hydraulic fill tailings dams <i>C.B.Abadjiev & I.S.Kaltchev</i>	307
Correlative analysis of the physical and hydraulic properties of geotextiles <i>D.Adolphe, J.Y.Drean, D.Sigli, Y.H.Faure, P.Gendrin & J.P.Gourc</i>	311
On the behaviour of geotextiles as filters <i>D.A.Cazzuffi, A.Mazzucato & N.Moraci</i>	317
Geotextile filtration performance test <i>C.M.Montero & L.K.Overmann</i>	318
Better understanding of suffosion, clogging and blocking – Critical analysis <i>Frank Donckers</i>	319
Comparison of characteristic pore sizes determined with index tests using sand or glass beads <i>H.J.Verheij</i>	320
Systematic quality control of vertical drainage <i>W.F.J.de Jager & J.P.Oostveen</i>	321
Geosynthetic drains against liquefaction <i>Y.Watari & T.Fujiwara</i>	327
Composite geotextiles in draining trenches for stabilization of landslides <i>A.Olcese, C.Vescovo & P.Fantini</i>	333
Effect of vertical drain barrier on road behaviour in freeze-thaw periods <i>H.Perrier, A.Dupas, J.Perfetti & P.Thevenet</i>	339
Discharge index tests on vertical drains <i>J.P.Oostveen & G.H.Troost</i>	345

Geotextile intrusion into geonets <i>Bao-Lin Hwu, C.Joel Sprague & Robert M.Koerner</i>	351
Trenchless drainage with textile percolation materials <i>F.Müzel, P.Böttcher, D.Garbe & A.Gora</i>	357
Investigation of drainage filters for geotextiles <i>Tongkang Tao</i>	361
Validation of a new type draining structure through laboratory and field investigations <i>P.Brochier, Y.H.Faure & Y.Matichard</i>	362
Study of significance of physical and hydraulic properties of geotextiles used as envelopes in subsurface drainage systems <i>André L.Rollin, Jacek Mlynarek & Gilles Bolduc</i>	363
Comparative testing for geotextile and composite transmissivity <i>M.G.Dickson</i>	364
Drainage and geotextile filter function in disturbed soils <i>Y.H.Faure, P.Gendrin & G.Werner</i>	365
Drainage performance of geotextiles <i>Masahiro Sato, Mikio Futaki & Toshimi Tatsui</i>	366
Comparative field trials of fin drains <i>S.P.Corbet & D.M.Farrar</i>	367
Application of nonwoven geotextiles in agricultural drainages <i>G.Jedryka, Z.Krzywosw & J.Sokolowski</i>	368
A soil improvement method using vacuum-loaded horizontal drains for very soft reclaimed ground <i>H.Shinsha & Y.Watari</i>	369
Road subsoil drains: Fine grained soils. A realistic approach <i>G.R.W.East & K.C.Hudson</i>	370
Buried constructions and groundwater – Protection by geosynthetics <i>C.Legrand</i>	371
5. Erosion control	
A design approach for preformed erosion control systems <i>T.S.Ingold & J.C.Thomson</i>	375
Composite erosion control system for an high cut slope <i>T.Collotta, P.Heiniger, P.C.Moretti & A.Paviani</i>	381
Erosion control by hydrodynamically sandtight geotextiles <i>M.Klein Breteler & H.J.Verhey</i>	385
Turf reinforcement for soft armor erosion protection <i>R.G.Carroll, Jr. & Marc S.Theisen</i>	391
Rip-rap revetments using geotextiles, measurements and numerical simulation <i>A.Bezuijen, H.J.Köhler & H.Schulz</i>	397
Comparative study of geosynthetics for erosion control <i>A.Cancelli, R.Monti & P.Rimoldi</i>	403
A theory for the non-linear permeability of geotextiles <i>H.den Adel & M.Th.de Groot</i>	409
Investigations of multi-layer geotextiles <i>W.Mühring, S.Kohlhase & F.Saathoff</i>	410
Geotextiles replacing granular filters in a placed block revetment <i>A.Bezuijen, U.Sparboom & J.Grüne</i>	411
Concrete mats in hydraulic engineering and experience <i>Walter Monnet</i>	412
